ORIGIN OF THE GYPSIES.

The Gypsies are not Egyptians, as is commonly supposed, but are of the lowest class of Indians among the estates of Hindostan, commonly called Pariahs, or in Hindostan, Sundars. They are found in Persia, Turkey, Russia, Hungary, and most of the continental nations.

RELIGION IN THE UNITED STATES.

Religion has made greater progress in the United States, than in any other nation of modern times. A writer in the Lutheran Observer states, that in the year 1850 the proportion of the population to the members of the Evangelical churches, was thirteen to one.

A LADY DUELLIST.

THE WAY OF THE WORLD.

The Philadelphia Press tells the following story in regard to the death of Lola Montez. A few months ago she was attacked with paralysis, which ended in death. The cause of this attack remains to be related, and we shall give it here.

A journeyman mechanic in Connecticut, being out of employment, and having a family to support, called upon a gentleman of the village, to see if he could not give him something to do. The gentleman asked him what kind of work he could do, besides following his trade.

A LAW AGAINST OBTAINING HUSBANDS UNDER FALSE PRETEXTS.

That all women, of whatever age, rank, profession or degree—whether virgins, maids or widows—who shall, after this act, impose on, seduce, and betray into matrimony any of His Majesty's male subjects, by means of false and counterfeit names, or by means of false and counterfeit faces, or by means of false and counterfeit voices, shall incur the penalty of the law now in force against witchcraft and like misdemeanors, and the marriage, under such circumstances, upon conviction of the offending party, shall be null and void.

THE BRAIN MANIA.

Authentic statements show that there have been no instances in the records, heretofore published respecting the mania committed to the brain in Syria.
