the most experienced and skillful nurses in Now England, and has been used with never-failing success in thousands of cases.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects achility, and gives tone and energy to the whole system. It will almost instantly relieve Griping in the Bowels and Wind Colic. and overcome convulsoins, which, if not speedily remedied, end in death. We believe it the best and surest remedy in the world, in all cases of Dysentery and Diarrhea in children, whether it arises from teething or from any other cause.—We would say to every mother who has a child suffering from any of the foregoing complaints—do not let your prejudices, nor the prejudices of others, stand between your suffering child and the relief that will be sure—yes, absolutely sure—to follow the use of this medicine, if timely used. That late, in half despair, I said:

"The Nation's ancient life is dead;

Her arm is weak, her blood is cold;

The shameful peace that sees expire

Forgive me this, my Countrymen!

We have put up and sold this article for over ten years, and can say, in confidence and truth of it, what we have never been able to say of any other medicine—never has it failed, in a single instance, to effect a cure, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak of this matte: "what we do know," after ten years' experience, and pledge our reputation for the fulfilment of what we here declare. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.
