LOCAL ITEMS.

HOW TO CURE CANCER.—The Milwaukie *Democrat* states that some eight months ago, Mr. T. B. Mason, who keeps a music store on Wisconsin street, ascertained that he had a cancer on his face the size of a pin. It was cut out by Dr. Walcott, and the wound partially healed.—Subsequently it grew again, and while he was at Cincinnati on business, it attained the size of a hickory nut. He remained there since Christmas under treatment, and is now perfectly cured. The process is this: A piece of sticking plaster was put over the cancer, with a circular piece cut out of the centre a little larger than the cancer, so that the cancer and a small circular rim of healthy skin next to it was exposed. Then a plaster made of chloride of zinc, bloodroot and wheat flour, was spread on a piece of muslin the size of this circular opening, and applied to the cancer for twenty-four hours.—On removing it, the cancer will be found burnt into and appear of the color and hardness of an old shoe sole, and the circular rim outside of it will appear white and parboiled, as if scalded by hot steam. The wound is now dressed, and the outside rim soon separates, and the cancer comes out in a hard lump, and the place heals up. The plaster kills the cancer, so that it sloughs out like dead flesh, and never grows again. The remedy was discovered by Dr. Fell of Boston, and has been used by him for six or eight years with unfailing success, and not a case has been known of the re-appearance of the cancer when this remedy has been applied.

TENT PITCHED.—On Monday last, a tent was pitched on the commons, above East Altoona, for the purpose of holding religious services daily, in accordance with the following programme. A more extended notice of the object of the tent will be given in our next. The nightly meetings are well attended:

"The Union Tabernacle, or Moveable Tent-Church is now open for religious service in this place. When the sides are extended there will be room for 1,000. Come and welcome!"

OUR SERVICES,

For the short time the Tent can remain here, will be held daily. Our usual services on week days consist of a sunrise prayer-meeting from 5 to 6 A. M.; Children's meeting from 4½ to 5½ P. M; and preaching from 7½ to 9 P. M. Services on the Sabbath will be more frequent.—Besides the speakers in the vicinity, there will also be many from abroad.

J. L. LANDIS, *Superintendent.*"

PEACE AND WAR emblematically represented in an original and brilliant pen drawing by Messrs. Duff and Cochran, of Duff's College, Pittsburgh. The Goddess of Peace is represented offering the dark, frowning-mailed God of war the olive wreath. Besides the one are the emblems of peace and plenty, behind the other the torch-bearer, havoc and destruction, wreathed with the emblem of barrenness the thistle. The whole design is eminently appropriate and impressive; and for chaste and exquisitely finished decorations, it is a masterpiece of the penman's art, which renders its authors in every way worthy of their position in this splendid establishment, which, for 21 years past, has filled the same place for a commercial education, that West Point has for a military one.

RETURN OF OUR VOLUNTEERS.—The three months time of the Logan Rifle Rangers and Altoona Guards will expire on the 22d inst., (next Monday,) when those who intend enlisting for three years will be granted a furlough of eight days to visit their friends. Those who have not enlisted for the war will be discharged on the 22d, unless their presence should be indispensable in view of the fact that they are now in hourly expectation of a battle. We know our boys do not want to come home without having taken part in a single engagement, and we think they will not, if there is any prospect of getting into one. When they do come home we think there should be some arrangements made to give them a fitting reception, and as the time is short, the arrangements should be made soon.

LEG BROKEN.—On Sunday morning last, Aaron Dunworth, an employee on the Pennsylvania Rail Road, had his leg broken between the knee and ancle, while endeavoring to replace some cars on the track in the yard at this place. A rope with an iron hook on the end was used for the purpose, but by some means the hook gave way, or became detached, and flew out of its place, striking Mr. D. on the leg, and producing an ugly flesh wound and the fracture. Dr. J. M. Gemmill was immediately called, and reduced the fracture, and the injured man is now as comfortable as possible under the circumstances.

SPECIAL TRAIN.—A Special Train arrived in this place, last evening, bringing the Board of Directors and other officials of the Penn'a Rail Road Company, with their families, who have embraced this opportunity to escape for a while from the confines of heated brick and mortar walls and rusticate a few days in this health invigorating region, enjoy the pure mountain air and water, and view the vast superstructures which their dimes helped to erect and over which they exercise a fatherly care. They will return to the city in a special train on Saturday.

CAUTION TO MOTHERS.—It is a very common thing to see mothers and servant girls pushing along the sidewalks the little carriages in which they are giving infants an airing on pleasant days. An exchange remarks that the practice is a very dangerous one, and is liable to do great and permanent injury to the child. The position of a child riding backward instead of forwards, is an unnatural one, and directly affects the brain. Some grown persons even cannot ride backwards in a railroad car without experiencing a sense of faintness, and to expect a child to do what a strong adult cannot, is unreasonable, to say the least. It is believed by medical writers that infants have died from disease produced by being ridden backwards.

IRON CITY COLLEGE.—The following extract from a letter of one of the recent graduates of the Iron City College, Pittsburg, Pa. speaks for itself:

"Every young man who would thoroughly prepare himself for business, should avail himself of the advantages here afforded. Students are nor learned, but taught, and that with all the thoroughness and precision the subject demands, by the most skillful and accomplished instructors, who give their special and constant attention to their pupils. Every thing is treated in a scientific and business-like manner; while the Penmanship, which is taught by the greatest living master of the art, is unequaled by anything in the country. The College is preeminently worthy of public patronage."

A. L. BARSTRESS.

DEAD BODY FOUND.—The dead body of a man named Moore was found, on Tuesday of last week, lying in an unfrequented path leading from Springfield Furnace to Dailey's Distillery, Huston township, this county. Two whiskey bottles—one full and the other empty—were found upon his person. An inquest was held and a verdict found that he came to his death from intemperance. Since the sitting of the inquest, however, facts have come to light which render it not improbable that his death may have been caused by injuries received in a fight on the 4th of July.—*Standard.*

RETURNED.—Mordecai McMahon, a member of Capt. Szink's company, returned home on Saturday evening last, having partially recovered from an attack of typhoid fever, with which he was prostrated for some three or four weeks.

A couple of members of Capt. Wayne's company—Andrew Houseman and David Cahoe—returned home some two weeks since. Both had been prostrated by sickness, and were consequently discharged from the service.

DEATH OF CYRUS BATES.—The Harrisburg papers, of Friday last, brought us intelligence of the death of Cyrus Bates, who, for the last eight years, has occupied the place of engineer on the Express train between this place and Harrisburg. Cy. was known to all our citizens and all along the line of the road, and was much esteemed by all who enjoyed his acquaintance. He was a good engineer, and in his death the Company looses the services of one of its best men for the position he filled.

A SHREWD REMARK.—Barnum lays it down as a rule, in his work on "The Art of Making Money," that "the proper time to advertise judiciously is when others don't." It strikes us that Barnum is very nearly right, and his words we commend to our business men at the time they seem in most need of encouragement.

EXAMINATION.—The examination of teachers who are applicants for the public schools of our borough, came off in this place on Monday and Tuesday last. There were but three applicants in addition to the old teachers. The Board of Directors meet on Saturday to make selections of teachers.

DEAD.—We learn that W. H. H. Parr, a member of Capt. Szink's Company from this place, died in the hospital, at Hagerstown, on Friday last, of dysentery. The deceased was a tailor by trade, and worked for Mr. Thos. Elway, previous to enlisting. He was buried at Hagerstown.

NOTICE.—The undersigned would respectfully announce to the citizens of this place, that he is forced to adopt a *cash* system, on account of the difficulties encountered in collecting outstanding accounts; so that on and after this date he will sell for cash *only*, and shall be pleased to accommodate the public in their wants in his line and plan of business, a few doors above the Post-Office.

A. ROUSH, Practical Druggist.
ALTOONA, July 18, 1861.

President Lincoln's Message.

I am able to state, says a Washington correspondent, that the message was written and complete before it was shown to a single member of the cabinet, nor was any change other than merely verbal ones made thereafter. A characteristic illustration of Mr. Lincoln's partiality for strong *people's* phrases, may be mentioned in this connection. When the proofsheet of the message was under cabinet consideration it was suggested to the President that the phrase "sugar-coated," in the paragraph where he speaks of the Southern politicians having studiously drugged the minds of their people with the sugar-coated heresy of States Rights, was not exactly displomatic, and might provoke censorious criticism. He considered a moment and replied, "No, let it stand; it is a word the people use; they will know what it means." And so it stood. So cautious and anxious was the President to collect all the public sentiment possible from Representative men arriving in the city, that after the message was sent to the printer, and until one o'clock of the day it was sent in to Congress, blanks were left for the number of men and the amount of money. At the last moment the blanks were deliberately filled as they now appear. The legislation of Congress will come fully up to the recommendations of the message, and the people will soon have the gratification of seeing the great machinery of the Federal government terribly at work to extirpate treason.

THE POSITION AND FATE OF GEN. SCOTT.—In a late number of the Knoxville Whig, Parson Brownlow who knows the Southern rebels well, gives us the following significant paragraph:

"We have reflected much upon the position of Gen. Scott, and his probable fate. The ability with which he plans his campaign, and the patience with which he executes his plans, we have never doubted, would result in the success of the Federal arms. To prevent this victory, and to bring defeat and confusion upon the Federal army, we believe that the Old Hero will be assassinated. We have been looking for such a result—we are now looking for it—and we shall not be in the last surprised to hear of it."

PENNSYLVANIA LEAD.—We were yesterday shown some very beautiful specimens of lead ore, obtained from the new lead mine in New Britain township, in Bucks county, on the North branch of the Neshaming creek. Mr. Neymeyer, of Lehigh county, is the owner of this mine, and is working it himself. He has taken out eighty tons of ore, yielding 75 to 80 per cent. of lead, and the present daily yield is two tons. The ore from this mine is unusually free from any admixture of zinc, copper, or other metals, except silver, of which it yields twenty-five ounces per ton. Mr. Neymeyer is erecting a smelting furnace at his mine, and prosecuting his works with great vigor.

Lead has also recently been found on the farm of Mr. Bonsall, adjoining the mine above mentioned.—*Phila. Press.*

WANTS MORE TROOPS.—Three citizens of Vienna, who took refuge at Camp Hamlin, at Falls Church, state that Gov. Letcher has issued a proclamation requiring the counties of Fairfax, Prince William, Loudon, Fauquier, Orange, Stafford, Culpepper, and Rappahannock, to furnish 1,000 men, with such arms and equipments as they have at their command, within two days. If the number called for is not forthcoming, they are to be drafted. The Viennese, being good Union men, preferred to seek protection within our lines. They say that many of their neighbors will follow at the first opportunity.

☞ A rebel spy was arrested at the Relay House on Sunday. He had come from Richmond by way of Winchester, Strawsburg, and the Point of Rocks. A German woman was also arrested at the Relay House. Upon her being searched by a committee of females at the station, a number of letters and other documents for prominent rebels in Virginia were found secreted in her chemise.

PEN AND SCISSORS.

☞ Good for Secessionists, and other vermin—Lyon's powder.

☞ The only line the Rebels find it difficult to manufacture—Supplies.

☞ At the United States Arsenal at Pittsburg, there are 60,000 Minie-rifle bullets and 70,000 cartridges made daily.

☞ Gen. Lyon has ordered the Missouri river blockaded, and boats bound down are now stopped at Leavenworth.

☞ There are now five hundred females employed by the Government in Cincinnati in the manufacture of tents for the army.

☞ On Monday last, Col. John W. Forney was elected Secretary of the United States Senate, in place of Mr. Asbury Dickens.

☞ Gen. Lyon has chased Gen. Jackson in Missouri, and Gen. Patterson has chased another Gen. Jackson in Virginia. The blood of the Gen. Jackson's is degenerating.

☞ The comet of 1843 moved half around the sun in ten and a half hours, with a velocity of 1,500,000 miles an hour —about eighty times faster than Prof. Morse can dispatch his lightning.

☞ Jeff Davis has had the credit of being rather smart, but he is evidently unable to comprehend the strength of the Federal Government, or he would know enough to *come in when it reigns.*

☞ An "old soldier" writes that, in the War of 1812, every soldier was advised to carry a string, to be tied round a bleeding limb and be twisted tight by a stick or ramrod, until a surgeon could be procured.

☞ The declaration of grievances issued by the people of East Tennessee, in the Convention now sitting, recites among other atrocities, the "shooting of women and children by a merciless soldiery."

☞ A beautiful young lady, named Araminta Wilhemina Smith, was found in the camp of the 13th Indiana Regiment, at Indianapolis, on Friday, in uniform, ready to march to Virginia. She was discharged.

☞ The market prices at Dubuque, Iowa, June 22d, were as follows:—Eggs, three cents per dozen; new butter, five cents per pound; strawberries, four cents per quart; meats average six cents per pound.

☞ Gov. Pierpont, of Western Virginia, has issued a proclamation, ordering an election for judge to be held to fill the vacancy in the twentieth district, caused by the refusal of Judge Thompson to take the required oath.

☞ The Milwaukie Zouaves have been presented with $1,000 in gold by the several banks and bankers of Milwaukie as a testimonial of the appreciation of their services in quelling the late riot.

☞ The Treasurer of Dubuque county, Iowa, advertises to the extent of five pages (twenty columns) in the Dubuque "Herald," describing real estate to be sold at auction, for the payment of delinquent taxes.

☞ A Southern paper says that East Tennessee was never anything more than the tail of Tennessee. If that is the case, perhaps Tennessee's tail is broad enough to give her head and shoulders a good switching.—*Prentice.*

☞ The Charleston *Courier* says that South Carolina is as true to the Southern Confederacy as flint is to steel.—Perhaps it would be better to say that she is as true to it as the hammer is to the percussion cap—ready to burst up the whole thing with one blow.

☞ The number of rebel troops in Virginia, exclusive of those at Norfolk and Richmond is stated to be about 47,000. Travelers in the interior of the State declare that hardly a white man is to be seen, the male population having been pressed into the military service.

☞ For starching muslins, ginghams and calicoes, dissolve a piece of alum, the size of a shellbark, for every pint of starch, and add to it. By so doing, the colors will keep bright for a long time, which is very desirable when dresses must be often washed; and the cost is but a trifle.

☞ The House Judiciary Committee have instructed their Chairman to report a bill authorizing the President, in case of rebellion or insurrection, to call out the militia for such a period as he may think proper. The present law only permits the President to call them out for three months.

☞ The general belief at Washington is that Gen. Scott's huge army is about to get in motion and take its winding way through Virginia. The papers call it "the anaconda," but the Virginians need not be afraid that it will bite them; the anaconda always "swallows its victims whole."—*Prentice.*

☞ SUGAR.—Extraordinary exertion will be made in the Western States this fall to manufacture sugar from sorghum—partially with the object of evading the prospective heavy duties on imported sugars, and to supply the deficiency caused by the loss of the crop in Louisiana.

☞ A Southern M. E. Church is so financially embarrassed that the drafts against the Missionary Society are unable to be met. An appeal has been recently issued, calling upon the Church to raise immediately $40,000 to pay a bank debt. Their notes against the book concern are protested.

☞ Recent experiments made in England prove the utter worthlessness of iron-clad vessels. A 128-pounder Armstrong gun shivered a ten-inch plate to pieces at 600 yards. It would appear that a naval engagement is never likely to take place, as the gun-makers have gone ahead of the ship-builders.

☞ The *Iowa Valley Democrat* promises to give the President's message an airing in its next issue. Mr. Lincoln should prevent it, if possible. It might damage him for life. Hold! Messrs. Editors. Are there no Route Agencies in Iowa that have not yet been filled by the new Administration?

☞ Almost everything that is done by the civil and military authorities of the United States is called by the Southern organs an outrage. We expect every day to see the capture of privateers by United States Ships-of-war denounced as one of the most flagitious outrages in the world's history.

☞ Whilst the planters of the South, to raise money for their contemplated new Government, are pledging their lands, their cotton, and their negroes, and the women pledging their bracelets, their rings, and their breastpins, why can't Floyd and Thompson raise the whole necessary amount at once by *pledging their honor!*—*Prentice.*

☞ In many parts of Germany, the anniversary of the battle of Waterloo has been celebrated this year with a degree of ostentation which has offended the French Government. France does not need to be reminded—at least, not by Germany—that Waterloo is yet unrevenged, and that the Rhine is yet outside the French frontier.

☞ Southerners will not come North this year, as usual, to disport themselves at our charming summer retreats, Saratoga, Newport, etc. This, we think, must result from a conviction on their part, that Gen. Scott will provide them with a great many nice *retreats* at home.

☞ Some of the bombs fired by the Federal troops were found filled with saw dust; but the rebels have some of the same kind. One fired from the rifled cannon at Big Bethel was sent to the U. S. Arsenal at Troy, where it was found to be filled with rice. There must be a little treachery on both sides.

☞ Retaliation.—It is reported from Richmond, by the way of Charleston, that the Confederate Government have ordered Colonel Bowman and another prisoner of war into custody, and have given notice to the Government at Washington that if any harm is done to one of the crew of the Savannah, it will be immediately followed by retaliation, even to hanging.

☞ A WIFE'S INFLUENCE.—A married man falling into misfortune is more apt to retrieve his situation in the world than a single one, chiefly because his spirits are soothed and retrieved by domestic endearments, and his self-respect kept alive by finding that although all abroad be darkness and humiliation, yet there is a little world of love at home, over which he is a monarch.

☞ Mrs. John Slidell and daughters, it is said, have been and are now residing in Washington, in the vicinity of the White House. Mrs. S. has many highly respectable connections living in New York City, where she frequently visits. It is quite probable that it was this lady to whom Wigfall paid his secret visit not long since, and that she it is who keeps a table constantly set in waiting for Beauregard.

☞ CURIOUS.—A prominent Southern editor, says the Louisville *Journal*, charges the whole Northern population with being infamous ruffians bent upon overspreading the South with rapine and ravage and murder, and denounces us as a traitor, and calls upon the Vigilance Committees of the South to suppress our paper as an incendiary sheet, also keeps his wife in the North and asks us to be the medium for the interchange of letters between her and himself!

☞ The Mobile *Register*, in its commercial report of the 15th ult., gives the arrivals of cotton at 143 bales, against 1,980 for the corresponding week last year; stock on hand and on shipboard, not cleared, 9,007 bales, against 55,500 bales same time last year. Bacon, clear sides, 17c.; sugar-cured hams, 16c—stock small; butter, 30c., for choice Goshen; coffee, 20c.; flour, $8.50 to $15 per barrel; corn $1 to $1.10; pork, mess, $27; rump, $22 per barrel; rice 5 to 5½ per pound.

☞ To have delightfully hard butter in summer, without ice, the plan recommended by the Scientific American is a good one: Put a trivit, or any open flat thing with legs, in a saucer; put on this trivit the plate of butter; fill the saucer with water; turn a common flower-pot upside down over the butter, so that its edge shall be within the saucer and under the water. Stop up the whole of the flower-pot with water, set in a cool place until morning; or if done in the morning, the butter will be very hard by supper-time.

☞ A TYPO IN WOE.—A poor editor out West somewhere fell into the hands of the Philistines, and broke forth in the following gizzard-moving appeal:

Sheriff, spare that press!
Touch not a single type;
Don't put me in distress,
To stick me all through life.
It was my daddy's hand
That reared it in this town;
Then, Sheriff, let it stand—
Oh! please don't take it down.
'Tis all in all to me;
If lost what shall I do?
Then why not let it be?
O, Sheriff! boo! hoo! hoo!

MARRIED:

On the 15th inst., by John McClelland, Esq., Mr. FRANK ZEEK to Miss CATHARINE SWISHER, both of Altoona.

On the 16th inst., by the same, Mr. CHRISTIAN SENGER to Miss MARGARET FEUCHTER, both of Tyrone.

☞ We re-publish the following to correct a mistake in the name of the bride:

On the 27th ult., by the Rev. Wm. Lee Spotswood, Mr. DAVID HART to Miss HARRIET McPHERREN, both of Altoona.

ESTRAY COW.—Strayed away from the residence of the subscriber, in Altoona, on the 11th ult., a middling sized Dark Brindle COW, about five years old, with a white stripe across her forehead, well shaped horns, end of tail white, also mark of cut on tail for wolf disease.

A suitable reward will be paid for the delivery of the Cow, or for information where she may be found.
July 11, 1861-3t PHILIP HALTON.

STORE FOR SALE.—The subscriber, desirous of going out of business on account of failing health, offers for sale, at a bargain, the entire stock of goods in his Store-Room, on the corner of Branch and Annie streets, East Altoona, together with a lease of the Store-Room for a term of four years to run yrs, as may be desired. The location is one of the best in the town, and the stock of goods first-class. They will be sold by the lot, or at Philadelphia cost prices—carriage off. Call immediately, or apply by letter to J. E. ICKES.
Altoona, July 11, 1861.-3t.

Cheap! Cheaper!! Cheapest!!!

HUZZA FOR NORTH WARD.—The undersigned would respectfully inform the citizens of Altoona and the surrounding country that he has rented the store room formerly occupied by Jacob Burkhart, on Virginia street, near A. McCormick's store, where he is about opening a

Grocery, Flour, Feed and Provision Store.

He has just returned from the East where he has been selecting his groceries with great care and buying exclusively for cash, which enables him to sell as low, if not a little lower, than any house in the place. He would therefore say to all who wish a good article of groceries, and at a low figure, to call and examine his stock before purchasing elsewhere.

His stock consists of

Hats and Caps, Men and Women's Shoes, Notions of all kinds.

Extra Family Flour, Superfine, Corn Meal, Rye and Corn Chop.

Extra Lovering Syrup Molasses,	60	cents	per gal.

BŒRHAVE'S
HOLLAND BITTERS

THE CELEBRATED HOLLAND REMEDY FOR

DYSPEPSIA,
DISEASE OF THE KIDNEYS,
LIVER COMPLAINT,
WEAKNESS OF ANY KIND,
FEVER AND ACUE,

And the various affections consequent upon a disordered

STOMACH OR LIVER,

Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic, and Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Berhave. Its reputation at home produced its introduction here, the demand commencing with those of the Fatherland scattered over the face of this mighty country, many of whom brought with them and handed down the tradition of its value. *It is now offered to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.*

It is particularly recommended to these persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE.—Whoever expects to find this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a grateful aromatic cordial, possessed of singular remedial properties.

READ CAREFULLY!

The Genuine highly concentrated Berhave's Holland Bitters is put up in half-pint bottles only, and retailed at ONE DOLLAR per bottle, or six bottles for FIVE DOLLARS. The great demand for this truly celebrated Medicine has induced many imitations, which the public should guard against purchasing.

☞ Beware of Imposition. See that our name is on the label of every bottle you buy.

Sold by Druggists generally. It can be forwarded by Express to most points.

FOR STATESMEN, JUDGES, CLERGYMEN,

Ladies and Gentlemen, in all parts of the world testify to the efficacy of Prof. O. J. Wood's Hair Restorative, and gentlemen of the Press are unanimous in its praise. A few testimonials only can be here given; see circular for more, and it will be impossible for you to doubt.

47 Wall street, New York, Dec. 20, 1858.

GENTLEMEN:—Your note of the 15th inst., has been received, saying that you had heard that I had been benefitted by the use of Wood's Hair Restorative, and requesting my certificate of the fact if I had no objection to give it.

I award it to you cheerfully, because I think it due. My age is about 50 years; the color of my hair auburn, and inclined to curl. Some five or six years since it began to turn gray, and the scalp on the crown of my head to lose its sensibility and dandruff to form upon it. Each of those disagreeabilities increased with time, and about 4 months since a fourth was added to them, by hair falling off the top of my head and threatening to make me bald.

In this unpleasant predicament, I was induced to try Wood's Hair Restorative, mainly to arrest the falling off of my hair, for I had really no expectation that gray hair could ever be restored to its original color except from dyes. I was, however, greatly surprised to find after the use of two bottles only, that not only was the falling off arrested, but the color was restored to the gray hairs and sensibility to the scalp, and dandruff ceased to form on my head, very much to the gratification of my wife, at whose solicitation I was induced to try it.

For this, among the many obligations I owe to her sex, I strongly recommend all husbands who value the admiration of their wives to prove it by my example, and use it if growing gray or getting bald.

Very respectfully,
BEN. A. LAVENDER.

To O J Wood & Co., 444 Broadway, New York.

My family are absent from the city, and I am no longer at No. 11 Carroll Place.

Stamaston, Ala., July 20th, 1859.

To Prof. O J Wood: Dear Sir—Your Hair Restorative has done my hair so much good since I commenced the use of it, that I wish to make known to the PUBLIC of its effects on the hair, which are great. A man or woman may be nearly deprived of hair, and by a resort to your "Hair Restorative," the hair will return more beautiful than ever; at least this is my experience. Believe it all! Yours truly, WM. H. KENEDY.

P. S.—You can publish the above if you like. By publishing in our Southern papers you will get more patronage south. I see several of your certificates in the Mobile *Mercury*, a strong Southern paper. W. H. KENEDY.

WOOD'S HAIR RESTORATIVE.

Prof. O J Wood: Dear Sir—Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1851, I was induced to make a trial of your preparation, and found it to answer as the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure. FINLEY JOHNSON.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small: the small holds ¼ a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

O. J. WOOD & CO., Proprietors, 444 Broadway, New York, and 114 Market Street, St. Louis, Mo.

LADIES' WINE.
SPEER'S SAMBUCI WINE,
OF CULTIVATED PORTUGAL ELDER.

EXCELLENT WINE FOR FEMALES.

EVERY FAMILY SHOULD USE
SPEER'S SAMBUCI WINE.

CELEBRATED for its medicinal and beneficial qualities as a genuine Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, and some of the first families in Europe and America.

SPEER'S SAMBUCI WINE

is not a mixture or manufactured article, but is pure, from cultivated Portugal Elder, recommended by Chemists and Physicians as possessing medical properties superior to any other wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm. Improving the appetite, and benefitting ladies and children.

A LADIES' WINE,

because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

None genuine unless the signature of
ALFRED SPEER, Passaic, N. J.,
is over the cork of each bottle.

MAKE ONE TRIAL OF THIS WINE.

A. SPEER, Proprietor,
Office 203 Broadway, New York.
