As heretofore stated, this company is to above the Post Office. be attached as a flanking company to Col. Sam. Black's regiment, now in Washington city. It

will be known as Company M. At the same time the first detachment of Capt. Wayne's Zouaves left for camp, at Harrisburg. Capt. W.'s company is to be attached to Col. Power's regiment of Zouaves. Each of the above officers left recruiting officers behind to gather up men for the purpose of filling the companies to their full complement, a term or more in this school, if he would make which we doubt not they will soon succeed in

A very large crowd of the friends of the volunteers were at the depot to see them off. The boys were in fine spirits, and as they a good set of fellows, we expect to hear a good report of them, should they get into a brush with the rebels in secessis.

ROBERT BYERS, aged 21 years.

The Blairsville Record pays the following tribute to his memory:-The early death of this young man will be profoundly and sincerely lamented by his numerous friends and acquaintances. He entered the service of the United States as a volunteer in one of the Pennsylvania Regiments for three months, and was, during that time, in the Division of Gen. Patterson upon the line of the Potomac. Here were planted the seeds of the disease which terminated his life. We knew him well and can bear testimony to his courage, generosity, kindness of disposition and the possession of all the qualities which constitute true manhood. Born in him. Virginia, be entertained no heretical opinions about allegiance, but nobly gave himself to his

These clubs were made from shovel-handles, and were probably furnished by a secession shovel manufacturer in Bridgeport. Some curious letters were also discovered, exposing the treason of politicians in Hartford and elsewhere. Secession is getting to be "a hard road to travel" in the loyal States.

CORRECTION. -The Standard says that the Harrisburg Union falls into a mistake in saying that Capt. Crozier's company of "Sharp-Shooters" hails from Altoons, and claims that the big end of the company was recruited in Hollidaysburg, and parts thereunto adjacent. We do not know whether our cotemporary refers to the largest men or the largest number, when he says "big end," or what part of the country he calls "thereunto adjacent" to Hollidaysburg, but we think that an examination of the muster-roll of the "Sharp-Shooters" will show that Altoona is as fully represented therein as Hollidaysburg, and has an equal claim to the company. "Honor to whom honor is due."

NEW P. O. STAMP AND ENVELOPE. - A new envelope and stamp has, just been issued by the Post Office Department, to take the place of the old ones now in use. All old stamps and envelopes can be exchanged for new onesif presented at the nearest post office within a reasonable time after the new ones are received. The new envelope stamp is not by any means attractive, but the single stamps are very neat. The prominent feature of it is a bust of Washington, done in pink; surrounding the head are the words in the mouth, they could then take the medicine 'United States," and below the words "Three with as much ease as though it were as much Cents," with a figure 3 on each side.

P. S.—He has accepted the appointment. ACCIDENT .- A repair hand on the Branch Road, named Simonton, met with a severe accident on monday evening last. He was assisting in working the hand car, when, in stooping forward, his watch-guard caught on the crank, and he was thrown in front of the car, the car gerously injuring him. A physician was called yet sent to the field.

Pour boiling water upon the solution till the cup is two-thirds or three quarters full. A scum will rise to the surface, which must be removed

The rationals of the operation of this simple medicine will readily occur to the pathologist, and, in many hundred trials, I have never known it to fail in dysentery and protracted di-

PEN AND SCISSORS.

Thos. A. Scott, Assistant Secretary War, is now on a visit to Pennsylvania.

The recent heavy rains in the West have destroyed a great amount of property, especially Maj. Slemmer has been ordered by tel-

egraph, to join General Rosencrans, in Western Virginia. Gen. Fremont has been authorized to

ake and use the Illinois Central Railroad for military purpose. Gen. McClellan forbids the purchase of grey uniforms—the rebols color—and it is de-

sired the State should no longer furnish them. Within five days after the last call of the Secretary of War for troops, Pennsylvania had sent 6,500 men to the seat of war. Good for the old Keystone.

The arrests of female rebels who have hitherto uttered their sentiments with impunity, has caused many who were violent in their utterances to moderate their tone.

Gov. Morton, of Indiana, now in Washington, says his Star will have eighteen more regiments in the field, in three weeks, making the quota of that State thirty-seven.

If any persons who are obliged to take offensive medicine would first take a bit of alum mgar.

Gov. Curtin has published the names, occupations and residences of the disaffected members of Col. Mann's regiment, who have been dismissed from the service, and warns all recruiting officers not to enlist them again. We should not like to have our names on that list.

Should be Practiced Here.—A Charleston paper says that all the stores in that place are closed at four o'clock daily, and all hands, from 16 to 60 years old, are drilled to prepare for the fall campaign. It would not be a bad idea to institute such a practice in the north.

WHY Is IT So .- An exchange says: "Fasten a nail or key to a string, and suspend it from your thumb and finger and the nail will oscillate like a pendulum. Let some one place his open hand under the nail and it will change to a circular motion. Then let a third person place his hand upon your shoulder, and the nail becomes in a moment stationary."

ORIGIN OF THE ZOUAVES .- We have recently heard several arguments relative to the origin of this popular arm of our citizen-soldiery. The confederation of the most warlike tribes of Kabylin, which infested the inaccessible ravines of Diuriura. These battalions were composed of native Arabs, but sometimes Europeans are received, and particularly the young Red Republicans and enthusiastic Gamins of Paris. There were twelve French soldiers admitted into each company. Their uniform consisted of an Arab coat, or waistcoat with sleevs of deep blue cloth, closed in front with a facing of yellow gailoon or joinguil lace, red pantaloous of Moorish cut; woolen sash of sky-blue; a red fez cap, with a yellow tassel, encircled by a green turban; eather leggings with white gaiter tops, and Turkish shoes, cartridge box and knapsack .-The officers had the uniforms of the French Hussars. Their arm was a carbine, mounting
