How THE YOUNG IDEA LEARNS TO SHOOT .-At a recent examination of pupils at a country school, says a cotemporary of ours, the following questions were asked by the Superintendent: What is an isosceles triangle? What is a soalene triangle? What is an soute-angled tri- gations. angle? What is the diagonal of a quadrangle? What is the diagonal of a quadrangle or quadrilateral ? Define a polygon; the base and altitude of a figure; the radius and tangent of a circle. How do you find the area of a rhombus? To all of which an ingenious "laddybuck" replied that he didn't know; but that he did know that the chespest, finest and largest stock of goods in Altoons to-day is to be found upon the shelves of Messrs. The Hellidaysburg Whig, of the 15th inst. makes a very unjust insinuation in reference to the man who has charge of the Post Office in this place. We are not sure whether cate" and "Teacher's Journal." allusion is made to the Post Master, or his clerk, but in either case it is gratuitous and erroneous. Had the Editors of the Whig stated different face on the matter. If they wish the cieties. Post Master or his clerk to act as their agent to coax people to lift the Whig out of their office, after they order it to be returned to the use of tobacco office of publication, we think they have taken the wrong plan to sucure them as such. There is fully as much reason to suspect the loyalty of some other men as those who attend the Altoons Post Office, and the country would be equally as well rid of others as of them.

TERRIBLE EXPLOY OF A BIELE CARNON Ball —The Boston Courses publishes a letter of a correspondent on board the U.S. steamer Mass., off Ship Island, October 26, giving an account of the affair between that vessel and a Rebel steamer, in which the following extraordinary exploit of a rifle cannon ball is chroni-

During the action I think we hit her four times, and I know she hit us with a 60 pound rifle shell, (that is the way we got the exact size of her rifled gun.) The shell entered on our starboard quarter, just above the iron part of the hull; it came through the side angling aft, as we were a little abaft his beam when t struck us,) and took the deck in the pasrage way, between two state-rooms, and completely cut off eighteen of the deck plank, and then struck a beam, which cauted it up a little so that it took the steam heating pipes under our dining table, cutting off five of them, and tearing our dining table all to pieces—then went through the stae-room bulkhead and celling of the ship on the opposite side, and struck one of the outside timbers. and broke every outside plank abreast of it short off, from the spar to the gun deck; it then fell down on to the cabin deck and exploded knocking four state rooms into one, breaking all the glass and crockery wear, shattering the cabin very badly, breaking up the furniture, and set-ting fire to the ship; but we had three streams water upon the fire at very short notice, and put it out before it did any damage-keeping up our chase as though nothing had happened.

No More Arms From England .- Letters received by the Asia state that the British Government refuses to grant clearances from English ports to vessels having on board arms for the United States. Agents who are now abroad purchasing arms for the Government or for arm mporters, will hereafter be compelled to ship them from Bremen. Havre, or some other continental port. This is only carrying out more strictly than heretofore the Queen's proclamation of neutrality, which forbade the shipment of all articles contraband of war to "either of the belligerents."

SEATING ACCIDENT .- A sad and fatal accident occurred on Thursday in Harvard Mass Four boys, one fourteen years of age named Hiram Hapgood, two others twelve and fourteen years of age, sons of Josiah Rand, and a lad named Munroe, were skating on a mill pond, and had proceeded about one or two rols from the shore, when the ice gave way, and all were precipitated into the water. Munroe succeeded in reaching the shore, but the other three sunk and were drowned.

It is stated that the people of Charleston were so confident of gaining a brilliant vic-tory in the late engagment that the clite of the city had proceeded to Beaufort in the same style as the Union civilians went to Centreville to witness their expected triumph. The success of our fleet compelled them to precipitately retire, panic-stricken and dismayed.

AMMUNITION FOR KENTUCKY .- All powder and lead owned by the city of Louisville, consisting of 750 kegs of the former, and 8 tons of the latter, has been transferred to Indiana. It will be manufactured into cartridges at the Indianapolis arsenal, and sent back to the Indiana troops in Kentucky.

Adams' Express took from Boston about fifty tons of "thanksgiving fixings" for the Massachusetts volunteers in the vicinity of Washington. The principal part of this large quantity of entables was sent by the families of
