THE MESSAGE.—Through the politeness of James P. Barr, Esq., of the Pittsburgh Morning Post, in furnishing us with an early copy containing President Lincoln's Annual Message...

HORRIBLE ACCIDENT.—Yesterday (Wednesday) morning, engine No. 106, hauling one of the through freight trains between this place and Harrisburg, blew up while standing on the siding at Newton Hamilton station...

SAD CALAMITY.—One of the most distressing accidents which has come to our notice, occurred in Bloomfield, Perry County, on Wednesday last week. It appears that Mr. Wm. H. Henderson had a short time previous, procured about two pounds of powder for the purpose of blasting a well...

We were in error last week in stating that J. Wells Colling of this place was one of the members of Anderson's Body Guard. He received an appointment therein, if we are rightly informed, but did not report at headquarters. We neglected at the same time to state that Max. Kophart, formerly a machinist in the shops in this place, is in the Guard...

Our friends of the "Model" down stairs, are continually adding to the attractions of their establishment in the way of ladies' fancy dress goods. They are now opening a beautiful assortment of shawls, cloaks, etc., which may be had at bargains. Call early and get a sight of them even though you should not buy. John will take pleasure in showing them.

RESIGNED.—Capt. E. H. Turner has resigned the position of General Car Inspector of the Penn'a Rail Road. His resignation took effect on the 2d inst. The duties of the office he has vacated will hereafter devolve upon Mr. Ambrose Ward, General Foreman of the Car Shop. This action of Capt. Turner will, we regret to say, involve his removal from our midst, and we are loath to part with so good a citizen. As a friend he is true; as a neighbor is kind and obliging, and as a member of our community, esteemed by all. More especially will he be missed by his brethren of the "mystic tie," who are indebted to him for a bright example and much valuable instruction. May prosperity attend him wherever his lot is cast.

PRESENTATION.—William Domer, Esq., late chief clerk of the Maintenance of Way Department of the Penn'a R. R., now a member of the "Anderson Body Guard," was presented with a handsome silver mounted Colt's Revolver Pistol, at the Logan House, on Monday evening last, by his former associates and friends, as a token of their appreciation of his patriotism and worth. The pistol was presented by Wm. A. Baldwin, Esq., in a neat speech, and responded to by Mr. Domer. Mr. D. had been in the service of the Company for about nine years, and resigned his position to enter the "Anderson Body Guard." The Guard has been transferred to Maj. Gen. Buell, now in command of the department placed under Gen. Anderson.

ANOTHER RAILROADER SET UP SHOP.—Our friend Daniel M'Cann has forsaken the bumper and sought refuge in a Grocery and Provision Store, on the corner of Branch and Julia streets, East Altoona, where he has now on hand a little of everything in his line of business. Read his advertisement in another column and then give him a call. You will find his stock as good and his prices as reasonable as those of any establishment in town.

CHEAP PORK AND LARD.—By reference to the advertisement of M. Runyan in another column, it will be seen that he is prepared to furnish pork and lard in any quantity, at living prices. Those who wish to save a penny or two, in the item of lard, may do so by calling on him.

THE BOYS AND THEIR SKEDS.—We are not of the crusty, gouty kind of folks who find fault with every source of enjoyment invented by "Young America," neither are we for allowing them all the liberties they will take, if unrestrained by parental control, or the strong arm of the law. We were boys once, and did enjoy a smooth glassy surface, on which to coast with our sleds; and we would not attempt to interfere with such sports of the juveniles, provided they select some other place than the pavements. Using the sidewalks as coasting ground makes them dangerous to pedestrians. Many persons have been maimed for life, or severely injured, by falling upon slippery pavements, and we are afraid that some of the attendants upon the meetings in the Methodist Church, or those who pass up and down Emma street, above Annie street, will meet with the same fate, if the boys are not prevented from using the sidewalks as coasting ground. Hold up a little, boys, and you will soon have snow enough to take the middle of the street for that purpose.

The Northmen. A writer in a public journal some years ago expressed the great want of the people on this subject, in truthful and eloquent language. "There is a nation," said the writer, "even now extant, possessing as brave a history as that of the Romans, as poetic as that of the Greeks, a nation that has controlled the world's history in many things, and at many times, and whose achievements in war and in letters are worthy the most heroic age of Rome, and the most civilized period of Greece; a nation whose philosophy outran their age, and anticipated results that have been occurring ever since." In these remarks he referred to the Northmen, the dwellers of Scandinavia, who lived as heroes, lords and conquerors; who, sailing out of the ice and conquered England, Scotland and Ireland, ravaged Brittany and Normandy, discovered and colonized Iceland and Greenland; crossed the Atlantic in their crazy barques, and discovered America long before Columbus existed. Is there not some one, the writer asked, who will write us a history of Scandinavia?

Prof. Sinding, a native of Denmark, has responded to this call, and has furnished the public with an excellent work on this interesting subject, of upwards of four hundred pages. The Professor has been about three years in this country, and in that short period acquired sufficient knowledge of the English language to enable him to write the work in our own tongue; and he has performed his task with surprising ability. The critic may discern occasionally the idiom of the foreigner, but he will be surprised to find so little to complain of in that respect. The work shows that the author is a man of letters, and it displays industrious research. That part of it which relates to the religious and political institutions of the Northmen, will be interesting to all nations; while the discovery of America by the Northmen, long before Columbus came into the world, will have a peculiar value in this country. The accomplished author differs from many other foreigners who have visited this country. He is modest, unassuming, refined but easy in his manners, and very agreeable and interesting in conversation. He mingles with the masses, and makes himself well acquainted with their habits and feelings. If he should write a work on this country, he will know how to do justice to our people and their institutions. The above notice, which we take from the Phil. North American, was written by Judge Ellis Lewis, whose endorsement of the work offers a sure guarantee of its value; and, in introducing it to our readers, we take occasion to say that Prof. Sinding is now in Altoona, and will remain for some time, so that those who desire copies of the work can be supplied from the fourth edition, which is now in press.

DENTISTRY.—IRVIN STEEL, D. D. S., HAVING been in the city of Altoona, Pa., for several years, and having acquired a thorough practical knowledge of the different departments of Surgical and Mechanical Dentistry. Office nearly opposite C. Jaggard's Store, Virginia st., Altoona, Pa. [May 16, '61.]

The citizens of Huntington in general certainly have cause to be glad that the troops have been removed from Camp Crossman, notwithstanding a few contractors may have their fingers burned. After the guard was removed from the town, the soldiers did pretty much as they pleased, as the following, which we copy from the Journal and American, of Tuesday fully testifies.

One night last week a party of 30 or 40 soldiers from Camp Crossman, made an attack on Mr. Deane's National House, tore up the roof of the building from the chimney to the door, knocked over the stove and threw it into the street, broke the glasses and done other damage, ending in helping themselves to the liquors. It occurred about twelve o'clock at night.

FREE LECTURE.—Prof. Sinding of Copenhagen, Denmark, will deliver a free lecture in the basement of the Presbyterian Church, on tomorrow (Friday) evening at 7 1/2 o'clock, on the "Warfare of Life of the Old Northmen, their Contempt for Death, and their Military Tactics." Prof. S. enjoys a wide reputation as one of the best scholars of the age, and his lecture on the above subject, which he has delivered in other places, is spoken of in the highest terms of praise. His lecture will be a treat and he should have a good audience.

CORPORATE.—The people's friend, Jonathan Focht, colporteur of the American Tract Society, has arrived in this place, and is about to commence his annual canvass of the town with the works of the society. As most of our readers are acquainted with the man and the character of the books he sells, we deem it unnecessary to say more in relation to either, other than that they have their dimes ready to invest in a work the reading of which will interest and instruct them during the long winter evenings.

PORK AND LARD FOR SALE.—I take this method of informing the citizens of Altoona and vicinity that I am now prepared to furnish PORK, in large quantities, at 10¢ per lb., and LARD, in large quantities, at 10¢ per lb. PROF. O. J. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR.

It is precisely what the name indicates, for while pleasant to the taste, it is revivifying, exhilarating and strengthening the vital powers. It has been tried, and its effects are renewed the blood in all its original purity, and thus restores and renews the system, and restores to its original purity. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So change by and skillfully combined to be the most powerful tonic, and yet so perfectly adapted so as to act in perfect accordance with the laws of nature, and thus soothe the stomach and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet it is never followed by any of the deleterious consequences following the use of vegetable and those thoroughly containing powerful tonic and soothing properties, and consequently can never injure. As a sure preventive and cure of Consumption, Bronchitis, Emphysema, Dyspepsia, Loss of Appetite, Paralysis, Nervous Debility, Neuralgia, Neuralgia, Palpitation of the Heart, Melancholy, Night Sweats, Dropsy, Gout, Rheumatism, and ALL THAT CLASS OF CASES SO FREQUENTLY CALLED NEURALGIC AFFECTIONS, AND IS RESTORATIVE.

THERE IS NOTHING ITS EQUAL. Also, Liver, Dyspepsia, and Liver Complaints, Diseases of the Kidney, or any general derangement of the Urinary organs. It will not only cure the debility following CHILLS and FEVER, but prevent all attacks arising from Miasmatic influences, and cure the disease at once, if already contracted. It will prevent a further relapse, as it will infallibly prevent any deleterious consequences following a change of climate and water, and consequently can never injure. As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits.

Always use it. Do not be accustomed to much out-door exercise should always use it, for it is a perfect relief, taken a month or two before the final trial, and will pass the dreadful period with perfect ease and safety. There is no mistake about it. THE CORDIAL IS A W. W. HURD FOR IT! MOTHERS TRY IT! And to you we appeal, to detect the illness or decline of your children, and we have adopted the CASH SYSTEM, as near as we can, we are enabled to sell at much lower prices than when we gave a general credit. We therefore feel confident that our friends and our countrymen will give us a fair trial, and we will be glad to receive your public for the very liberal patronage heretofore given us, and hope by strict attention to business, and full determination to please our patrons in prices and quality, to retain the same—still adhering closely to an old-fashioned, reliable, and safe method.
