COL. MURRAY'S EIGHTH REGIMENT.—We are indebted to the Harrisburg Patriot & Union for the following notice of Col. Murray's regiment, now at Camp Curtin:—This fine regiment arrived in this city about 9 o'clock on Wednesday evening, (of last week), accompanied by a portion of the regiment of Col. Curtis, both from Camp Crossman. They slept in the depot, and about 9 o'clock on Thursday morning they took up the line of march for Camp Curtin, where they are now quartered in excellent Sibley tents, on the ground lately occupied by the Eleventh regiment. They will be furnished with arms and overcoats, when they will move forward. The following are the field, staff, and line officers:

- Colonel—W. G. Murray, Blair.
Lieut. Colonel—T. C. Maydow, Dauphin.
Major—Walter Barret, Clearfield.
Surgeon—G. F. Hoop, Centre.

There is a small but effective brass band attached to the regiment, and a corps of fifteen drummers. The regiment is made up of good material, and will compare favorably with any sent from the State. At present it contains about 900 men, but will soon be recruited to the full standard of 1,048.

AN OWNER WANTED.—A lot of carpet, almost new, was found by Mr. Gabriel Lehr, in his lot, on Friday morning last. How or at what hour of the night it came there is unknown to Mr. L. It is supposed to have been stolen, and was likely thrown into Mr. Lehr's lot by the thief to avoid detection. The owner can have the carpet by proving the property and paying for this notice.

The Fight at Pensacola.

New York, Dec. 11. A private letter has been received from a party on board the steamer Richmond, which took part in the last fight at Fort Pickens, dated November 23. He states that the Richmond commenced bombarding Fort McKea at 10 o'clock on the morning of the 22d.

The writer had been complimenting the captain of one of the guns on the accuracy of his aim, when, he says, a shell bounded through our bulwarks, took the captain's head off, and wounded six men. This shell, on exploding, raised the ship out of the water, and made her stagger like a drunken man.

Another shell burst six feet below the water line, causing a bad leak; but the steam pumps kept the vessel free.

The firing continued all day, and was resumed by the enemy on the next morning, when we moved out of his range. The frigate Niagara still kept at them, but being outside of the enemy's guns, she cannot be much injured.

Fort Pickens had, up to date, lost but one man killed and seven wounded. Fort McRae is much damaged, but we cannot destroy it with our smooth-bore guns, as they are no match for the enemy's rifle cannon.

The bombardment was to be renewed the next day, the 23d, with a determination to whip or be whipped.

A TELEGRAPH ALONG THE COAST.—Mr. Cyrus W. Field has been in Washington for several days, consulting with the Government in reference to establishing a line of telegraphic communication from Washington, to extend along the lines of the coast. He proposes that the wires be extended to Fortress Monroe and Newport News from our present lines, and thence by submarine cable across to Cape Charles, and along the coast to Hatteras Inlet, Bell Bay and Port Royal.

Then as soon as Bermuda shall be taken, that it be extended to that port and crossing the peninsula of Florida to Cedar Keys, and thence to Fort Pickens, Ship Island, Chandeler Island and around the mouth of the Mississippi to Galveston, when that port falls into our hands. A branch line is proposed to extend from Cedar Keys to Key West and the Tortugas. The length of the main wire will be about 1,400 miles, and the branch for Cedar Keys to Key West and Tortugas about four hundred.

A WOODEN MOTHER.—We have heard of wooden nutmegs, wooden hams, horn gun-flints, wooden oats and wooden clocks, but what infusion of the Yankee ever tinkered a John Bull to invent a wooden mother? The following, by a correspondent of the Mark Lane Express, describes the new invention: A fine sow, having twelve sucking pigs, belonging to a pork merchant in Monkwearmouth, was taken ill, and died suddenly. The proprietor, who is an ingenious character, set to work and formed a rough model of a sow in wood, being hollow in the centre, the abdomen being furnished with twelve teats, cleverly formed of rough hide. The interior of the model is kept filled with milk, and the whole of the young pigs suck from the teats of this singular looking sow, and are thriving well.

THE ROCKET BATTALION.—This novel corps, raised in Western New York, are on their way to Washington. In place of the customary field piece, the battalion, which numbers one hundred and sixty men, will, on its arrival at the capital, be furnished with a newly invented rocket gun. The peculiarity in this weapon consists, in its being breech loading, and is capable of discharging ball, bullets and percussion shot. The rockets that will be fired from this gun are for the purpose of breaking up the enemy's cavalry, or of setting fire to any building that it is necessary to have destroyed. When the rocket balls are discharged, they will expand to the diameter of fifteen feet, and can be thrown the distance of five thousand three hundred yards. The Government has purchased the exclusive right of manufacturing these terrible instruments of destruction.

A REBEL PANIC.—The Government, says a Herald dispatch, has received valuable and interesting information from deserters who have lately come into our lines. A colored boy came in yesterday from Centreville, and has made a statement which is deemed reliable. He says the rebels had a review of eighty thousand troops at Centreville a few days ago. Beauregard and all their principal generals were present. During the review an alarm was created by a report that our entire army in this vicinity was marching to attack them. A panic and stampede took place, rivaling the retreat at Bull Run. Several guns were left on the field and not recovered until the next day. Army wagons were capsized and wagon poles broken off, and their drivers fled in dismay. The scene is said to have been ludicrous in the extreme.

Col. Mulligan, since his arrival at Washington, states that General Halleck's order excluding slaves from the army lines has already produced the best possible effect upon the union men in Missouri who were apprehensive that the war would be waged for the extermination of slavery, in place of the restoration of the Union.

Escape of the Pirate Sumpter.

New York, Dec. 13. The brig S. W. Rowland, Capt. Rowland, arrived here last night, from St. Thomas, Nov. 27th.

Captain Rowland states that the captain of the Iroquois is entirely to blame for the escape of the pirate Sumpter at Port Royal and Martinique.

A man was sent ashore at Port Royal from the Island to signalize the movements of the Sumpter, and on the night of the 23d he made signals that she was leaving the harbor, but no notice was taken by the Captain of the Iroquois. His First Lieutenant tried to persuade him to give chase, which could easily have been done, and the pirate captured as she draws a foot more water than the Iroquois, but he would not hear to it saying it would be very unpleasant for him to capture her as he and Semmes had been his former superior officer; also that he did not want to break the neutrality laws.

The movements of the Sumpter were plainly seen from the deck of the Iroquois, the former taking a southerly course. The Captain of the Iroquois then gave orders to proceed to St. Thomas, not making the least effort to capture the pirate, after having been lying off the port several days for that sole purpose. On these facts becoming known at St. Thomas, the greatest indignation prevailed among Americans in port, and others friendly to the United States.

GEN. HUNTER'S POLICY.—A committee of the citizens of Platte county, Kansas, visited General Hunter on Monday, the 2nd. The General said to them: "Tell the Trustees of Platte county that unless they give up Gordon and his gang, and break up every rebel camp, that I shall send Colonel Jennison over there with orders to burn every house in the county. I am getting tired of this whole subject." Committee—"Will you put that in writing?" Gen. Hunter—"I will." That brief interview satisfied Platte County, and the policy indicated will satisfy Kansas and the country.

MILITARY EXPENSES.—There is, perhaps, no department of military business in which there has been a more marked improvement than in the clothing of soldiers. Not many years since, officers and privates were clad in garments which were almost skin-tight. They wore leather stocks, which were worthy of the name, for they kept the wearer in tribulation; while their padded breeches and tight breeches made walking a matter of great difficulty. During the present war, such of our volunteers as procure their uniforms at the Brown Stone Clothing Hall of Rockhill & Wilson, Nos. 563 and 605 Chestnut street above Sixth, Philadelphia, will find that they are supplied with comfortable and becoming. The firm named here goes largely into the business of making Military Clothing, and their facilities enable them to fill the largest orders in the shortest possible time.

A Card to the Suffering. The Rev. Wm. Congrove, while laboring as a missionary in Japan, was cured of Consumption, when all other means had failed, by a recipe obtained from a learned physician residing in the great city of Ohio. This recipe has cured great numbers who were suffering from Consumption, Bronchitis, Sore Throat, Coughs and Colic, and the debility and nervous depression caused by those disorders. Desirous of benefiting others, I will send this recipe, which I brought home with me, to all who need it, free of charge. Address: REV. WM. CONGROVE, 829 Fulton Avenue, Brooklyn, N. Y.
