PALLAND WINTER ANUMENERS, The Springfald Republican to which we are indebted for many a good thing-makes the following sugrestions in regard to fall and winter amusements, which we make use of for the benefit of our amusement loving readers. The people of the Northern States are not going to forego their usual cold weather amusements the coming season, on account of the war, and even if such a thing were possible, it would not by any means he desirable. Those who labor physically or mentally, will need their usual relaxation and recreation as much as ever, and surely we are not yet so much reduced by the war that our usual amusement must be deemed ill-timed or in had taste. But at the same time it would be well if the balls and parties and sleigh rides might be merged in some other form of amusement, which would be equally pleasant, and at the same time have a patriotic intent, to furnish our soldiers with clothing and other needful articles. This double object might be obtained by the introduction of social meetings, "sociables," into every village or every school district, where young and old might come together and work for the soldiers and have a social time. A series of such meetings, held every one or two weeks during the winter, would be productive of much good to the brave fellows who are fighting our battles for us, and would be the source of much national enjoyment besides. Such sociables might be started in any village if some patriotically inclined individual would take hold of the matter, and if balls and such costly amusements could be dispensed with this winter, and all classes devote their surplus funds to the good of the soldiers, and at the same time have all their customary enjoyment by carrying into effect some plan like the above, it would be a consummation vary much to be desired.

THE CANAL .-- Some time ago petitions were numerously signed by the citizens along the canal to the Pennsylvania Railroad Company, calling their attention to the bad condition of the canal, eastward to Hollidaysburg, and requesting them to place it in good repair. The petitions, we believe, were presented by Judge Gardner of Hollidaysburg, and that gentlemen, a few days ago, received from Mr. Thompson. the President of the Company, the following letter, which assures him that the canal will be at once rebuilt and placed in thorough repair : PHILADELPHIA, Dec. 6, 1861 .-- Dear Sir:--Your letter of yesterday covering petitions in relation to the canal has been received. The Engineer and Superintendent of the Company for the canal department has had full instruc-

tions upon this subject.

These repairs would have been made during the past summer, but for the desire expressed by the most influential citizens along the line of Canal that a Railroad should be substituted for the canal, in which project we would have co-operated and furnished means to the extent the iron, chairs and spikes. As this has fallen through, orders have been given to proceed with the repairs and rebuilding of the canal.

Yours Truly,
J. Edgar Thomson.

After the lecture, the pupils were briefly addressed by James Lowther, Esq., (one of the Directors,) and S. M. Woodkok, Esq., in complimentary

Prof. Miller is a finished scholar, as well as a highly reputable disciplinarian; and his practi- from cal system of teaching, with his experience and his knowledge of the human mind, will most surely soon build up a school, in our town, equal in discipline and thorough training to any in the State.

The school, certainly, opens with the most brilliant and encouraging prospects, and, as it is under the pecuniary control of the School Directors of the Borough, and their succersors. it bids fair to become a permanent institution. "The heights of Altoons," fanned by the pure zephyrs, fresh from the summit of the Allegheny, is a most healthy and beautiful location for such a school. And as boarding can be procured, in private houses, as reasonable as in any other town in the country, parents from a diately embrace this opportunity to educate their children, cheaply but thoroughly.
