They have an army of 225,000, but will it not cost something to transport them? And will they not meet a foe? Our army already is over ball a million, and our navy 246 war vessels, which could easily be increased. memy. The British might sweep our commerce from the seas, and destroy our seaboard cities, and n doing so, destroy not a little British capital.-Meanwhile the Americans could prey upon the commerce of Great Britain in every sea and pierce r colonies; for while she is prohibited by treaty obligations from commissioning privateers, we could set affoat a fleet of thousands in six months. The strength of the British Empire in peacecommerce and Colonies—would be her weakness in war. The wants of Great Britain are corn and a sale for manufactures. War would shut up at great strength of the United States is within her own boundaries, and war would force their development. It would convert Pennsylvania into a great forge to supply us with iron and cutlery, and West with manufactories to supply its clothing and | considered a patriot. consume its surplus corn, while its southern portions would become white with gotton, and its interior green with sorghum, and when the war terminuted a protective tariff would forever shut Great Britain out from competition with its fires

As to the termination of such a conflict, it may be that the Union would be divided, and it may be, too, that the British Empire would be ruined. It is more probable that Canada would be ours side both the French and the American population would sympathize with us, while on the other the slave population could be freed and armed for us. Should the South anticipate us, we have free negroes enough to turn their arms in our favor.

But this is not all. While Britain was engaged with us in front she would be liable to attack on both flanks. Ireland, which may "be tracked through the crowd-by her blood," might practically illustrate the beauties of secession; France on the other side, would avenge Waterloo. In 1858 a British noble said to us, "We are at the mercy of Napoleon. He could steam over in a few ; hours with force enough to land; if he could land he could control the arsenals; if he could control the arsenals he could march to London; if he could march to London he could make his own terms. for no British ministry would take the responsibility of continuing the war while so large a part of the population and wealth of the empire lay at the enemy's feet." If that was was true in 1858, would it not be so when her navy should be on our waters?

to London!" Russia too might remember the Crimea; while Austria, Britain's ancient ally, would be kept busy by Hungary and Italy. God save us from such a war! If the Armageddon must come, let not Protestantism and civil liberty on opposite sides of the Atlantic take opposite sides in the battle.

Since Adam was placed in Eden human action was never more pregnant of results than it is now at Washington. Since Israel stood on the shore rod, and our Miriam her cymbals! Since Christ hung upon the cross never was there occasion for higher greatness than now. If God shall upheave the Calvary of man's political redemption here, may we not hope that our cross shall be the emblem not of death, but of resurrection.

Major Cameron, son of Secretary Cameron, was recently in Toronto, Canada, on a visit to his wife. On account of his wearing our army uniform, his visit he was attacked by the Toronto Leader all the comic papers, together with the best dailies but defended by the Globe. He wus entertained by the British officers of the Thirteenth Regiment, and also serenaded. He represents the feeling in Upper Canada as averse to a war with the United States. GENTLEMEN:—Your note of the 15th inst., has been received, saying that you had heard that I had been benefitted by the use of Wood's Hair Restorative, and requesting my certificate of the fact if I had no objection to give it.
I award it to you cheerfully, because I think it due. My
age is about 50 years; the color of my hair autoftn, and
inclined to curl. Some five or six years since it began to age is about 50 years, the color of my hair authath, and inclined to curl. Some five or six years since it began to turn gray, and the scalp on the crown of my head to lose its sensibility and dandruff to form upon it. Each of these disagreeabilities increased with time, and about 4 months since a fourth was added to them, by hair falling off the top off my head and threatening to make me bald. In this unpleasant predicament, I was induced to try. Wood's Hair Restorative, mainly to arrest the falling off for head for the fall of the color of the party hair. dyes. I was, however, greatly surprised to find after the dyes. I was however, greatly surprised to find after the use of two bottles only, that not only was the falling off arrested, but the color was restored to the gray hairs and sensibility to the scalp, and dandruff ceased to form on my head, very much to the gratification of my wife, at whose solicitation I was induced to try it.

For this, among the many obligations I owe to her sex, I strongly recommend all husbands who value the admiration of their wives to profit by my example, and use it if growing gray or getting bald.

Very respectfully,

BEN. A. LAVENDER.

JAYNE'S SANATIVE PILLS. MILD. PROMPT & EFFECTIVE REMEDY.

THERE is scarcely any disease in which purgative medicines are not required; and affect sickness and antering might be prevented were they shore generally used. No person can feel well white a costive habit of body prevails; besides, it soon generates serious and often fatal diseases, which might be avoided by the timely and judicious use of proper Cathartic medicines.

Convinced of the correctness of these views, JAYNES SANATIVE PILLS

Are recommended with the greatest confidence, experience having demonstrated them to be far superior to any other in use, being more mild, prompt, safe and uniform in their operation. While using them no particular care is required, and patients may est and drink as usual. Age will not impair them, as to always readily dissolve in the stomether. In small doses they are alterative and gently laxifitive, but in large doses are actively cathartic, cleansing the whole alignentary can if from all outrid, irritating and fecal natters.

For DYSPEPSIA, these Pills are really an invaluable

article, gradually changing the vitiated secretions of the Stomach and Liver, and producing healthy action in those important organs. In cases of long standing, a cure will be more speedily effected by using, in conjunction with the Pills, either JAYNE'S ALTERATIVE or TONIC VER-MIFUGE, according to directions. For Liver Complisher, Gont, Jaundice, Affections of the For Liver Complaint, Sout, Janudice, Affections of the Bladder and Ridneys, Fevers, Nervousness, Diseases of the Skin, Impurity of the Blood, Sik Headache, Costiveness, Piles, Fomale Diseases, and Billious Affections, these Pills have proved themselves eminently successful. All that is asked for them is a fair trial.

As these Pills have proved themselves so eminstly successful in removing diseases of the Liver, Dyspepsia and diseases of the Skin, I have thought it advisable to add the following remarks our

### LIVER COMPLAINT.

This is a disease much talked about, but at the same time very imperfectly understood.

Properly speaking, every derangement of the Liver or Billious system is a Liver Complaint, but the peculiar state of the Liver to which I now have reference is a Chronic Affection, and usually arises from a torpid or congentive state of that important organ. Sometimes the Blie is deficient in quantity, or vitiated in quality, or both these states prevail at the same time. Sometimes the disease is owing to obstruction in the duct or pipe which coaveys the bile from the liver into the bowels. This obstruction is very frequent, and is usually caused by the pipe being clogged up by thick tenacious slime or mucous, and sometimes by gall-stones. The bile is then thrown back into the gall-bladder, where it is absorbed by numerous small vessels which convey it into the Thoracic Duct, a pipe that runs up along the spine, and terminates in and emb-Affection, and usually arises from a torpid or congestive and no words can express my obligations to you in giving to the affilicted such a treasure. FINLEY JOHNSON.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds \( \frac{1}{2} \) a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for \( \frac{2}{3} \).

The bile in this manner being diverted from its proper course, and circulating in a part of the body where it never was designed by nathre, produces much evily and often disastrous effects upon the health of the individual—because, for want of healthy bile to mix with the half-digested food, a complete separation never takes place between the chyle (the milky liquor which forms the blood) and those portions of the food designed by nature to be ejected from the blowels—for the bile, when present, purifies and separates the healthy from the unhealthy portions, in the same manner that isinglass or white of eggs separate wine or cider from their impurities—and, consequently, the very fountain of life is vitiated and corrupted. Costiveness prevaile—or alternately costiveness or diarrhea—wind in the stomach and bowels, and the patient is often annoyed with worms, and frequently with the piles. The coarse particles of the bile thus mixed with the blood, more or less obstruct the pores of the skin and small bloodvessels, and hence give rise to various direases of the skin, such as crysipelas, cozema, itchings, small watery vessels, blotchess tumors, pimples, scurfiness, boils, sore eyes, soreef and ulcers of various kinds. The skin is more or less yellow, and (when the disease is of long standing.) often very dark, and has a disagreeable, dirly, areas arbearance. yerow, and when the unstate is on long standing, other very durk, and has a disagreeable, dirly, greaty appearance, and sometimes there is a perfect jaundice. MORE OR LESS bile is strained from the blood in fist passage through the kidneys, and, by its serimony, produces pains in the back, and scalds and irritates all the urinary passages. Some days the passage of urine is profuse, and natural in appearance; at other times it is scanty,

times the color is nearly white and milky, but stually is high colored, red or yellow, with a rank, offensive odder and sometimes it is bloody.

The tongue is usually more or less coated with a brown scurf. There is irritation, and frequently chronic infiammation of the inner surface of the stomach and bowels, with a tenderness on pressure, and a soreness along the lower edge of the ribs.

SOMETIMES THERE IS A LOATHING of food, and at other times there is a voracious anneative. There is often at the color of the color o ther times there is a voracious appetite. Coughs, Colds, CONSUMPTION, ASTHMA, BRONCHITIS, ETC.,

JAYNE'S EXPECTORANT Has been for Thirty Years the

STANDARD REMEDY. RECENT COUGHS AND COLDS, PLEURITIC PAINS, ETC., are quickly and effectually cured by its dispheretic, soothing and expectorant power. ASTHMA it always cures. It overcomes the spasmodie

contraction of the air-ressels, and by producing free ex-pectoration at once removes all difficulty of breathing. BRONCHITIS readily yields to the Expectorant. It subdues the inflammation which extends through the wind-tubs, producess free expectoration, and suppresses at once the cough and pain.

CONSUMPTION.—For this insidious and fatal disease no remedy on earth has ever been found so effectual. It subdues the inflammation, relieves the cough and pain, removes the difficulty of breathing, and produces an easy expectoration, whereby all irritating and obstructing matters are removed from the lungs.

WHOOPING COUGH is promptly relieved by this Expectorant. It shortens the duration of the disease one-half, and greatly mitigates the suffering of the patient. In all PULMONARY COMPLAINTS, in CROUP, PLEU-RISY, etc., it will be found to be prompt, mak, pleasant, and reliable, and may be especially commended to Missus, TERS, TRACHERS, and SINGERS for the reliaf of hospmasses, YES!
