LOCAL ITEMS.

Flocal items are distressingly scarce this week, and besides, we have been so busy turning out job work and getting our new press in good running order, that we have not been able to give this department the attention it should hare. It will be all right next time if somebody vil clope with another body's wife, or a house run off and kill nobody, or something else.

NEW MODE OF COMPUTING INTEREST.—A new mode of computing interest at six per cent, has heen published, which appears simple. Multiply any given number of dollars by the number of days of interest required, separate the right hand figure, and divide by six, the result is the true rate of interest for such sum for such number of days at six per cent. This rule is so simple and so true, that every hanker, broker, merchant and clerk should past it up for reference and use. There being no and thing as a fraction in it, there is scarcely any liability to error or mistake. By no arithmetical process can the desired information be obtained with so.few figures.

WELL DONE .- We learn that the members of Captain Wavne's company, now at Port Royal, S. C., have sent home some \$1800, out of two month's pay lately received. Some \$1280 of this ammount was sent directly to W. M. Lloyd & Co., to be paid out by them to persons named on the list sent therewith. This speaks well for the members of the company. No doubt the money came very opportunely to many of the families of the soldiers who have nothing to depend on but the small pittance they may receive from this

FOR THE CHANGE.—The election held in West Ward, on Saturday last, on the question of the removal of the election polls, resulted in favor of the removal. No place has yet been selected to which to remove them. It will now be the duty of the citizens of the Ward to petition the Court to appoint a place for holding elections, they setting forth the name of the place in the petition. We have heard the "Altoona House" and West Ward School House named as suitable places for the location of the polls.

What ails the Whig !- Register. Why he wants a dose of "cash down" but can't get it. The doctor thinks he's only playing "makebelieve," and don't need such a powerful remedy vet awhile. In the meantime his brethren of the quill have volunteered to prescribe for him. If they don't effect a cure in less than a year, the doctor might be prevailed upon to give him a

A CAUTION.—The public are cautioned against a piece of villainy, by which the operator cuts the roupons off the \$50 7-30 treasury notes, and passes the note as a demand note in trade, thus pocketing \$10,95, the amount of the coupons for three years, which he may collect half-yearly upon presenting them at the Government offices. Traders should bear in mind that there are no \$50 demand notes, only \$58, \$10s and \$20s .- Peterson's Counterfeit

RAILBOAD ACCIDENTS .- By the report of the Auditor General, we find that the number of persons killed and injured on the railroads of the State during the last year was: Passengers, 6 jured; others, 58 killed, 34 injured; total, 118 killed, 88 injured.

REMOVAL.

H. Fettinger of the Literary Emporium No. 1 Altoona House, would respectfully announce to his friends and patrons and the public in general, that he has removed to No. 7 Main St. a few doors above his old stand

I would just remark in this connection that I feel justly proud in having been compelled to seek for more extended and ample accommodations, my old stand having become entirely too small to accommodate my vast and constantly increasing business. I therefore had a new place of business fitted up at considerable expense, in city style, especially adapted to the news, periodical, book, stationery and variety business. I have laid in a large stock of new goods, such as Peterson's new publications, in great variety, Toy Books, Dolls, Tops, Marbles, Balls, Jumping Ropes, in short a general variety of Toys, and Notions for Children,

suited to the season. I hereby return my sincere thanks to my numerous friends and Customers of Altoona and vicinity, for their very liberal patronage since I have been in this place. When I started business here, some five years ago, I was poor, very poor, having to borrow money to begin with. But having entered into a new experiment, I was determined to succeed, and by persevering industry, and constant. application to business, I may sarely assert (without fear of being considered egotistical) that I have succeeded beyond my most sanguine expectations. But I have already said more than I intended in this communication.

In closing I would say, inasmuch as everything has a name in these progressive times, I have concluded to christen my new stand, OAK HALL LIT-ERABY EMPORIUM. My store will therefore be known to the pacific by the above designation.-Finnally I invite all my friends and customers, and the public in general, to visit my Palatial establishment and he convinced, that I have not exaggerated, for the place must be seen to be appreviated. Yours Respectfully,
H. FETTINGER.

"Tribune" Power-Press Card and Joh Printing Office!

Neatness! Cheapness! Despatch!

We take pleasure in announcing to "all the world and the rest of mankind," that we now have all the appliances of a first class job printing office, superior to many and equal to the majority of the offices of the same kind in the cities, consequently we are enabled to execute work in as good style, at equal rates, and with the same despatch as our city cotemporaries. We believe that "some things can be done as well as others," and that country printers can do just as good work as city printers, when they have the material and presses. These we have, and all we ask is a trial.

Above we present an engraving of a large Power-Press, recently added to our establishment, on which we can print books, posters, handbills, &c., of any size, in the very best style and in any quantity, at short notice.

We have also a smaller, but equally fast, Power-Press for executing cards, circulars, bill-heads, cards on envelopes, invitation, visiting and wedding cards, ball tickets and everything in that line. In addition to the above, we have one of Hickok's Patent Ruling Machines, on which we are enabled to get up blank work of every description, such as check rolls, manifests, reports, bill-heads,

day books, ledgers, journals, dockets, assessment blanks, and everything in the line of rule work, in a style equal to any city office, and at city prices. Our office is stocked with an excellent assortment of job type, suitable for any style of printing, nd to keep constantly on hand a large supply of paper and be able to give the patrons of the "Tribune" job printing establishment just what they want,

even if they don't know that themselves. CALL AT THE "TRIBUNE" OFFICE FOR NEAT JOB WORK.

A FEW WORDS TO CASH BUYERS.—The "Panc Store" being the only one in this section of the prices, the proprietor wishes to impress a few facts and figures upon the minds of cash buyers:

1st, That he has but one price on his goods, and that price only five per cent, advance on cost. 2d, That by doing a strictly cash business he can and does sell cheaper than any house which does a credit, because, 1st, parties buying at a credit store, even though they pay cash for their purchases, pay credit prices, for the reason that the proprietors of credit stores are afraid to sell to cash customers at lower figures than they do to their credit customers, lest their credit customers should find it out and withdraw their patronage: and, because 2d, by selling for cash only he gets no bad accounts on his books and loses no money, consequently he is not compelled to tax paying customers to make up his losses on non-paying

SPECIAL NOTICES.

MILITARY UNIFORMS.—There is, perhaps, no department of military business in which there has been a more marked improvement than in the clothing of soldiers .-Not many years since, officers and privates were clad in garments which were almost skin-tight. They were leather stocks, which were worthy of the name, for they kept the wearer in tribulation; while their padded breasts and tight sleeves made volition a matter of great difficulty. During the present war, such of our volunteers as procure their uniforms at the Brown Stone Cothing Hall of Rockhill & Wilson, Nos. 693 and 605 Chestnut street above Sixth, Philadelphia, obtain clothing that is perfectly easy substantial and becoming. The firm named have gon Donelson, from Fort Donelson and Bowling Gree n largely into the business of making Military Clothing to Clarksville, from Clarksville to Nashville, from and their facilities enable them to all the largest orders in

Cosgrave, while laboring as a missionar in Japan, was cured of Consumption, when all other mean State that sells exclusively for cash, and at cash had failed, by a recipe obtained from a learned physicia residing in the great city of Jeddo. This recipe has cur great numbers who were suffering from Consumption, Bronchitis, Sore Throat, Coughs and Colds, and the debility and nervous depression caused by these disorders. Desirous of benefitting others, I will send this recipe,

which I brought home with me, to all who need it, free of REV. WM. COSGROVE. 439, Fulton Avenue, Brooklyn, N.Y. BLOOD RENOVATOR.

BLOOD RENOVATOR.

Is precisely what its name indicates, for while pleasant to the taste, it is revivifying, exhidarating and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular forms on as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted so as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet it is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly condining powerful tonic and soothing properties, and consequently can never injure. He treats all diseases that flesh is heir to. He invites all females that may be suffering with diseases peculiar to their sex, to call and examine his new mode of treatment, as thousands have been restored to health who have been abandoned by others. He is in possession of perfect instruments for sounding the lungs and chest, and is therefore able to determine the exact condition of the vital organis—consequently can treat such complaints with greater safety and certainty than it is possible for those who guess at the disease and experiment for its cure. He believes that for every malady, there is found in our soil a sure and never-failing remedy.

Patients can receive treatment for \$5 per month, except in cases of Cancers and Tumors, they varying from \$10 to \$100. Examinations free. See handbills.

BILLIOUS AFFECTIONS,

LIVER COMPLAINT. SICK HEADACHE, DYSPEPSIA, &C., &C. JAYNE'S SANATIVE PILLS.

MILD. PROMPT & EFFECTIVE REMEDY. HERE is scarcely any disease in which purpative medicines are not required; and much rickness and mid-rickness and mid-rickness and mid-rickness and mid-rickness and mid-rickness and mid-rickness which might be prevented were they more powerally used. No prevente, it soon generates serious and often fitted finesses, which might be avoided by the timely and judicious use of proper Cathartic medicines. Convinced of the correctness of these views, JAYNES SANATIVE PILLS

matters.

For DYSPEPSIA, these Pills are really an invaluable article, gradually changing the vitiated secretions of the Stomach and Liver, and producing healthy action in these important organs. In cases of long standing, a cure will be more streedily effected by using, in conjunction with the be more speedily effected by using, in conjunction with the Pills, either JAYNE'S ALTERATIVE or TONIC VER-Pills, either JAYNE'S ALTERATIVE or TONIC VER-MIFUGE, according to directions.
For Liver Complaint, Gont, Jaundice, Affections of the Bladder and Kidneys, Fevers, Nervoueness, Diseases of the Skin, Impurity of the Blood, Sik Headache, Cestiveness, Pilles, Female Diseases, and Billious Affections, these Phils have proved themselves eminently successful. All that is asked for them is a fair trial.
As these Pills have proved themselves so eminetly suc-cessful in removing diseases of the Liver, Dyspepais and diseases of the Skin, I have thought it advisable to add the following remarks on

LIVER COMPLAINT.

This is a disease much talked about, but at the same time very imperfactly understood.

Properly speaking, every derangement of the Liver or Billions system is a Liver Complaint, but the peculiar state of the Liver to which I now have reference is a Chrowic Affection, and usually arises from a torpid or congestive state of that important organ. Sometimes the blie is deficient in quantity, or vitiated in quality, or both these states prevail at the same time. Sometimes the disease is owing to obstruction in the duct or pipe which conveys the bile from the liver into the bowels. This obstruction is very frequent, and is usually caused by the pipe being clogged up by thick tenacious slime or mucous, and sometimes by gall-stones. The bile is then thrown back into the gall-bladder, where it is absorbed by numerous small vessels which convey it into the Thoracic Duct, a pipethat runs up along the spine, and terminates in and empties itself into the large vein of the left-shoulder, near its junctin with the veins of the head and neck, and thouge the bile is conveyed to the heart and becomes mixed with the blood. The bile in this manner being diverted from its proper course, and circulating in a part of the body where it never was designed by nature, produces muchavil, and often disastrous effects upon the health of the individual—because, for want of healthy bile to mix with the half-digested food, a complete separation never takes place between the chyle (the milky liquor which forms the blood) and these portions of the food designed by nature to be ejected from the bowels—for the bile, when present, purifies and separates the healthy from the unhealthy portions, in the same manner that singlass or white of eggs separate wine or cider from their impurities—and, consepurifies and separates the healthy from the unhealthy portions, in the same manner that isinglass or white of eggs separate wine or cider from their impurities—and, consequently, the very fountain of life is vitiated and corrupted. Costiveness prevails—or alternately costiveness or diarrhea—wind in the stomach and bowels, and the patient is often annoyed with worms, and frequently with the piles. The coarse particles of the bile thus mixed with the blood, more or less obstruct the porces of the skin and small bloodvessels, and hence give rise to various diseases of the skin, such as erysipelas, cozems, itchings, small watery vessels, blotchess tumors, pimples, scurfiness, boils, sore eyes, sores and ulcers of various kinds. The skin is more or less yellow, and (when the disease is of long standing,) often and ulcers of various kinds. The skin is more or less yellow, and (when the disease is of long standing,) often very dark, and has a disagreeable, dirty, greaty appearance, and sometimes there is a perfect jaundice. The white of the eyes also has a green or yellow tinge.

MORE OR LESS bile is strained from the blood in its passage through the kidneys, and, by its acrimony, produces pains in the back, and scalds and irritates all the printry passages. Some days the passage of urine is pre-

duces pains in the back, and scalds and irritates all the urinary passages. Some days the passage of urine is prefuse, and natural in appearance; at other times it is scanty, and the desire to evacuate is frequent and urgent. Sometimes the color is nearly white and milky, but swally it is high colored, red or yellow, with a funk, offensive odor and sometimes it is bloody.

The topue is usually more or less ciented with a brown sourf. There is irritation, and frequently chronic inflammation of the inner surface of the stomach and howels, with a tenderness on pressure, and a soreness along the lower edge of the ribs.

SOMETIMES THERE IS A LOATHING of food, and at other times there is a voracious appetite. There is offen a

other times there is a voracious appetite. There is often a feeling of chilliness, and coldness of the feet and knees, and along the inside of the thighs—sour or bitter cructa-tions, and sometimes a spitting or throwing up of the food

tions, and sometimes a spitting or throwing up of the food after eating.

There is a feeling of oppression across the atomach and chest, as if pressed down by a weight; troublesome and often frightful dreams, low spirits, languor, want of energy, melancholy restlessness and discontentedness, dreaminess of mind—timorousness and a great deal of trouble, and a disposition to magnify everything, sometimes great watchfuliness and an inability to sleep—at others great drowsiness, weariness, and disinclination to motion.

AT TIMES THE FACE is flushed, with more or less fever, especially at night or in the afternoon. Sometimes AT LESS HAN FLANNEL at 33 cts. per yard.—worth 40.

RED at 20 cts. per yard.—worth 25.

In fact, we will sell everything we have at a Reduced body. Frequently there is a short backing cough, with a huskiness of the throat, and sometimes a very severe, dry, and hard cough, which is often mistaken for consumption. This cough often commences in the latter part of the night or early in the morning, and lasts for hours, frequently producing nausea and vomiting. If there be any expectoration, it is a tough, ropy, tenacious, phlegm, which adheres to everything it touches. There are also frequently chronic plenrisy pains in various parts of the chest, which shift about from one part of the breast or side to the other. Sometimes abscesses form in the liver, and pressing upward on the lungs, produce constriction and cough, and breaking, discharge their contents into the lungs, whence it must be ejected by expectoration, or the patient is destroyed. Some persons are troubled with spasmodic twitches in various parts of the body, sometimes faintness and sighing, difficulty of breathing: reading or talking producing weariness. THERE IS A BEATING ENSATION near the pit of the stomach, with palpliation and fluttering of the heart; profusion of dandruff and loss of the hair; indeed, to sum up in a few words—a yellow, dirty, greasy appearance of the skin, a pellow or green tings of the white of the eyes, an aching pain agrees the kidneys and hips, with irritation or heat in discharging urine—a sensation of fullness or distension agross the abdomen, with tenderness on pressure—lowness of spirits, frightful dreams, acidity of stomach, with other dyspeptic symptoms, billious fevers, billious coiles and billious diarrhea and dysenteries, obstinate costiveness, intermittent and remittent fevers, jaundice, fever and ague, i.e., all originate from the same cause—a, deranged saits of the liter. Violent remedies always do more harm thus good; but, by a persevering use of theme pills, all that can be desired will be accomplished.

THE MOST SUCCESSFUL TREATMENT is to give the patient, every night on going to bed, from two four thans two pulls; or enough of them to insure one and

Coughs, Colds, CONSUMPTION. ASTHMA, BRONCHITIS, ETC.,

JAYNE'S EXPECTORANT Has been for Thirty Years the

STANDARD REMEDY. RECENT COUGHS AND COLDS, PLEURITIC PAINS, ETC., are quickly and effectually cured by its diaphoreus, soothing and expectorant power.

ASTHMA it always cures. It overcomes the spannedte contraction of the sir-vessels, and by producing free enpectoration at once removes all difficulty of breathing. BRONCHITIS readily yields to the Expectorant. It subdues the inflammation which extends through the wind-tubs, producess free expectoration, and suppresses at once the cough and pain.

CONSUMPTION.—For this insidious and intal disease no remedy on earth has ever been found so effectual. It subdues the infimmation, relieves the cough and pain, removes the difficulty of breathing, and produces an easy expectatation, whereby all irritating and obstructing matters are removed from the lungs.

WHOOPING COUGH is promptly relieved by this Ex-pectorant. It shortens the duration of the disease one-half, and greatly mitigates the suffering of the patient. In all PULMONARY COMPLAINTS, in CROUP, PLRU-RIST etc. it will be found to be prompt, sale pleasant, sale reliable, and may be especially obstaced to finishesses, tractures, tractures, and Stucture for the relief of heart-side, and for strengthening the organs of the voice. This Experiorant and all of DR. B. JAYNE'S Family Medicines are sold by C. JAGGARB and Q. W. Missa L. Altonia, and by Agente overywhere.
