CARD & JOB  
**PRINTING OFFICE.**  
Having within the past two years made considerable additions to our establishment in the way of new heavy type, screw press, paper cutter, card cutter, ruling machine, card power press, and large newspaper power press, (a cut of which we give above) we are now prepared to execute anything in the line of printing or ruling in a style equal to any establishment in the state, and at prices equally low. We can execute, on short notice, all styles of wedding, invitation, visiting, ball and business cards, circulars, programmes, **MAMMOTH POSTERS, SALE BILLS, BILL AND LETTER-HEADS, Pamphlets, Fay and Check Rolls, BLANK BOOKS, MANIFESTOS, AND BLANKS OF ALL KINDS.** Office in Lowther's building, corner Virginia and Adams streets, opposite Superintendent's Office.

**LOCAL ITEMS.**  
**DEATH OF CAPT. P. T. KEYS.**—Shortly after the battle of Pittsburg Landing we were paired to learn that our late townsman, Capt. P. T. Keys, of the Regular Army, had been badly wounded. He was removed, as soon as possible, from the scene of conflict to the hospital at Evansville, Ind., where he received every medical attention. But the wound would have been given, medical aid was not so available, and on Saturday night last, the spirit of another generous, noble and brave representative of "little Blair" passed into that undiscovered country, to which all are journeying, a martyr to the cause of right and justice, whose blood cries from the gory field of Shiloh for vengeance upon the heads of those who inaugurated this fratricidal conflict.  
Martial life was Keys' delight, and on the outbreak of the rebellion he endeavored to get up a company for the war, but partially failing in this, and being determined to do something for his country, he secured a lieutenantcy in the 16th Infantry, U. S. A., his regiment rendezvousing at Chicago. Pretious to going into active service he was promoted to the office of junior captain. The regiment was quickly filled up and marched with Gen. Halleck's army through Kentucky and Tennessee, and participated in the fight at Pittsburg Landing, where he received his death wound. Report says that no braver officer than Capt. Keys unhealed his sword in that terrible conflict, and we believe it. Fear entered not into his composition. Blair county has furnished her full share of victims, in officers and privates, to the cause of the Union. They willingly gave their lives to sustain the best form of government the world ever saw, and their memories will be cherished. Peace to their ashes.  
P. S.—The remains of Capt. Keys arrived on the Mail Train (Thursday) morning, and now lie in state in Logan Hall, which was neatly fitted up by Messrs. Elmer E. Eppler, Geo. London and others, to receive them. A neat canopy is erected in the center of the room, decorated with small flags, nicely draped, on either side of which hang the photographs of Gen. McClellan and Col. Wm. G. Murray, and at the head the photograph of the deceased, all draped. The coffin (metallic) containing the remains is covered with an American flag, over which is crossed the sword and scabbard of the deceased. On the coffin is a silver plate containing the following inscription:  
Capt. P. T. KEYS,  
16th Infantry, U. S. A.,  
Died May 3rd, 1862.  
Aged 26 years, 6 months.

At the head of the coffin stand three drums, one on the other, in pyramidal style. The walls of the room are decorated with large likenesses of Gen. Washington and Scott, and small photographs of Gen. Thomas Francis Meagher, Col. Corcoran and others, and with flags, wreaths and rosettes trimmed with evergreens and cranberries.  
Capt. Keys was severely wounded by a Minnie ball, in the right arm, near the shoulder, from the effects of which he died, after amputation had been performed. In appearance he looks stout and hearty, and it is sickening to think that one who promised so fairly, in the prime of life, should be thus early called from the stage of action, a victim of the vile conspirators of this unholy rebellion. They will yet reap the "deep damnation" of his taking off. He leaves a wife and one child to mourn the loss of an affectionate husband, kind father, and brave soldier.  
His remains will be interred in the Catholic Cemetery, at this place, this afternoon, at 5 o'clock. The funeral procession will move from Logan Hall at 2 o'clock, and proceed to the Catholic Church, where the usual funeral ceremonies of that denomination will be performed.  
**ELECTION.**—The election for officers of the Altoona Gas and Water Company, was held on Monday last, and resulted as follows:  
President—Wm. H. Wilson.  
Treasurer—Benjamin F. Rose.  
Managers—Wm. M. Lloyd, Charles J. Mann, John F. Bowman, George W. Kessler, Louis C. Brastor.  
From the report of the President of the Board we learn that the present number of gas metres in use, is 183, and of water takers, 204. During the past year 3450 feet of water pipe and 400 feet of gas pipe have been put down, and one fire plug put in.

**CHANGE OF SCHEDULE.**—A new Schedule—Summer Arrangement—went into operation on the Pennsylvania Railroad on Monday last. The remaining of trains is about the same as last summer. The Express Westward leaves this station at 8.10 A. M., Eastward at 8.20 P. M. The Fast Line Westward leaves at 8.40 P. M., Eastward at 1.00 A. M. Fast Mail Westward leaves at 7.00 P. M., Eastward at 7.45 A. M. The Way Passenger Train between Hollidaysburg and Huntingdon passes East at 10.50 A. M., and returns at 3.45 P. M.  
**COMMITTED.**—A colored girl named "Topsy," of Hollidaysburg, was recently committed to jail in that place, for appropriating to her own use and behoof sundry articles of finery which were not given her, and for which she did not pay. The magistrate intimates that there was a "black squall" at that vicinity about that time.

**STARTLING EVENTS.**—The last few days have been really prolific in strange and surprising events, that will form an interesting epoch in the history of the times and country. First, we have the surrender and subsequent occupation by our troops of the city of New Orleans; then come, in quick succession, the taking of Baton Rouge, the capture, after a short but effective struggle, of Fort Macon, the retreat of Gen. Beauregard's army from Corinth, the advance into the enemy's country of Gen. Halleck, the capture of three of the enemy's largest steamers, the evacuation by the rebels and the occupation by the Federal troops of the formidable entrenchments at Yorktown; and now we have to record the second arrival of an immense stock of Spring and Summer Goods at Murphy & McPike's Cheap Store, corner of Virginia and Caroline streets, where almost everything imaginable in the way of Dry Goods, Fancy Goods, Groceries, Provisions, &c., have just been received in immense profusion, and are now offered at the most appalling low prices. The stock is, in fact, large, fresh and complete, and the proprietors are determined not to be undersold by any similar establishment in Altoona, come they under the guise of "Models," "Panics," or whatever other shape they may see fit to assume. So bear this in mind, buyers, all, and your purses will suffer the less for it.

**AGENCY.**—Andrew Claibough of this place has been appointed agent for the sale of Parson Brownlow's Book, now being published by Mr. Childs of Philadelphia. The book will contain about 400 pages and will be sold at \$1.25 per copy. It will be ready for delivery about the middle of this month. This book will rank among the wonderful things of the age. It will be a startling narrative of facts, and will lay bare the persecutions and cruelty which marked the development of the secession conspiracy in Tennessee, the disasters and ruin with which it devastated communities once prosperous and sun-drenched families once happy, and expose the reckless ambition, and relentless blood-thirstiness, by which the ring-leaders of the conspiracy were stimulated to their work of crime and treason. Mr. Claibough is now prepared to take subscribers for the book. If you want an early copy, call on him at once, and give him your name.

**IRON BALLS VERSUS IRON SHIPS.**  
Experiments have been made at Shoeburyness, near London, of the resisting power of iron-clad ships against cannon balls. A twenty feet long by ten feet wide, exactly of the dimensions and strength of the Warrior's broadside, was fired at the 8th instant, with a new gun made by Sir Wm. Armstrong, fourteen feet long, twelve tons weight, and ten and a half inches in diameter at the muzzle. If fired for the Armstrong shot, which is two and a half times the length of its diameter, it threw a round solid shot of 156 pounds. Long Clarence Fagot, in the House of Commons, said "the first experiment was with a shot of 150 pounds, and 40 pounds of powder. It was fired at the Warrior target, at the distance of 200 yards, but he was bound to say that the target had had a good deal of shanking by previous experiment. The first shot struck the target on a part which had been thought, rather more shakily than the other parts of it. The shot entered, made a hole in the armor plating, and passed through eighteen inches of backing, being stopped by the inner skin of the ship, but it was not there. The next shot, with forty pounds of powder, nearly on the same spot. It went through plating, backing, skin, and all, and there were proofs that it must have created frightful devastation inside the vessel. The third shot, Sir Wm. Armstrong requested might be fired with ten pounds of powder additional; but some doubts as to the complete selection of the gun would stand such a charge, but whether so large a charge would be burnt to give the shot greater velocity. The third shot was fired with fifty pounds of powder, and fired at that particular part of the target which represented the strongest part of the ship. It went through the armor plating, and buried itself, he believed, at a considerable distance inside. It went clean through the plating, backing, and skin, and he believed, buried itself in the opposite side of the ship. It was not very easy to say whether the whole charge of powder had burnt, but evidently a good deal more powder had burnt, because the effect was much greater. The fourth shot took place under the same circumstances. It went through the plating and a great deal of backing; it went entirely through one side, and possibly through the other side also.  
The Warrior, against the new gun, even unfired, the Warrior would have no chance. The London Times says:—"The Warrior's armor is not complete resistance—the only four armored frigates which we have yet afloat—are coated with 4 1/2-inch plates of iron, with two layers of 10-inch thick gun-iron, and with an inner skin of wrought iron nearly as thick as the outer. Wrought iron of this powerful combination of materials is the 156 pounder gun was tried on Tuesday last with such complete success. The new frigates—the Achilles, Hector, Valiant, Agincourt, Northumberland, and the others—all to be coated with 5 1/2-inch iron plates, with ten inches of backing, and the same inner skin of wrought iron." But a 600-pounder will be ready at midsummer, and we are making two wrought-iron guns, unfired, each to carry 1100-pound shot. The size and power of the guns, and the thickness of the armor, are augmented, but six-inch iron plates are the heaviest armor a sea-going ship can carry with safety; whereas, plates a foot thick can be shat-tered, even to a third of their weight. Here, then, is a new difficulty. Iron-clad ships, which cannot be counted as impregnable. Modern science has wholly changed the art of naval warfare."  
**Capture of Fort Macon, N. C.**  
The New York Tribune's special correspondent telegraphs to that paper, under date of the 3rd inst., the following account of the bombardment and capture of Fort Macon:  
"The preparations for the bombardment of Fort Macon were complete on Wednesday night but the order to fire was not given till 5 o'clock on Friday morning, when a shot was fired from one of the 30-pounder Parrotts. The shot struck the mortar batteries followed, and the firing on our side at once became regular and uninterrupted. The fort replied with the first gun at six o'clock, and continued until 11 o'clock, when it was silenced by salvoes of three or four at a time, until four o'clock in the afternoon, when a white flag was hoisted.  
"The gun-boats' Daylight, State of Georgia, Chippewa, and Gemshook took part in the engagement, sailing in an ellipse and firing by turn, the heavy sea prevented them from doing any service, and they soon withdrew.  
"Gen. Burnside arrived on Thursday with two armed barges and witnessed the bombardment. The fire of our batteries dismounted thirteen guns and tore up the glacis and ramparts in the most effective manner.  
"Of 1100 shot and shell thrown at the fort, 560 struck the work.  
"The guns at the fort were worked with skill and courage, but the sand hills afforded a complete protection to our men. The hoisting of the white flag was followed by a conference with General Parke and a suspension of hostilities until the following morning. During the night, a proposition for the surrender of the fort was communicated to agreement were signed, and in the morning, the articles of the surrender were read.  
"The garrison surrendered as prisoners of war, and were released on parole, and allowed to take their private effects with them. The officers retained their side-arms. These were the terms originally proposed by General Parke, but refused by Col. White, the commander of the fort.  
"Fifty guns, 20,000 pounds of powder, and shot and shell in proportion, and 400 stand of arms, etc., were taken.  
"General Burnside, in a General Order, congratulating General Parke on his victory, announced that the name of 'Fort Macon' be inscribed on the colors of the Fourth and Fifth Rhode Island, and the Eighth Connecticut regiments.  
"The command of the Fort was offered to Captain Morris, of the First Artillery, after the surrender, but he declined, and Col. Rodman, of the Fourth Rhode Island, was placed in charge."  
**GOOD AS EVER.**—We have been using Joseph De Young's India Rubber Coated Platina Pointed Steel Pens for some time and find them good ever. Price \$1.50 per gross. For sale at Andy Claibough's.

**APPOINTED.**—The Court has appointed Samuel Jones, Esq., of Tyrone City, Director of the Poor for Blair county, to fill the unexpired term of Wm. Burley, Esq., deceased.

**OAK HALL.**—Fet. has on hand all the late Pictorials, such as Harper's Weekly and Frank Leslie, together with the comic monthlies and Weeklies. Also, all the best dailies from New York, Philadelphia, and Pittsburgh. He has also received a large assortment of balls for all kinds of games.—Regulation balls, for base ball clubs, at prices ranging from 12 1/2 cents up to \$1.00 per ball. Goats to Fets. for anything in the neck tack line. Plenty of fishing tackle on hand.  
**GIVE EAR.**—Reader, give attention to the card of our young friend, Percival, in another column. Although his establishment is small, he has it well filled with a good assortment of everything in his line. He has just received a lot of 100 bushels of as nice potatoes as we have ever seen in the place. We have sampled them, and find them just as good as they look.

**PLANTS.**—By reference to the advertisement of Mr. Rutherford, in another column, it will be seen that he is prepared to furnish the people of this place and surrounding country with a variety of plants, such as cabbage, tomato, bean, egg, celery, pepper, &c. If you want anything in his line, give him a call.  
**WHERE YOU CAN GET THEM.**—A. Roush, Druggist, has just received a large and complete assortment of D. Landreth & Son's Garden Seeds. Also, a good stock of sweet briar pipes, and a superior quality of smoking tobacco, which he will dispose of at the lowest rates. Give him a call.

**THE TAX BILL.**—Since the report of the tax bill published, several new amendments have been made to it, as follows:  
For kissing a pretty girl, \$1.00.  
For kissing a homely one, \$2.00—the extra amount being added probably as a punishment for the man's folly.  
For ladies kissing one another, \$10.00. The tax is placed at this amount in order to break up the custom, altogether—it being regarded by our M. C.'s as a piece of inexcusable absurdity.  
For every young man who has more than one "girl" is taxed \$5.00.  
For counting in the kitchen, 25 cents.  
For counting in the sitting-room, 50 cents.  
For counting in a romantic place, \$5.00, and 50 cts. for each offence thereafter.  
Seeing a lady home from church, 25 cents for each offence.  
Seeing her home from the dime society, 5 cents—the proceeds to be devoted to the relief of disabled army chaplains.  
For wearing low-necked dresses, \$1.00.  
For each curl on a lady's head, above ten, 5 cents.  
For every unfair device for entrapping young men into matrimony, \$5.00.  
For wearing boots larger than ten feet in circumference, 8 cents for each ten feet in circumference. Old backs over thirty are taxed \$10.  
Over fifty, \$20, and sentenced to banishment in Utah.  
Each pretty lady to be taxed 25 cents to see to it that she is not overdone on her own beauty. It is thought that a very large amount will be realized from this provision.  
Each baby baby, 50 cents.  
For every child over 10 years of age, 10 cents. Families having more than eight babies are not to be taxed; and for twins, a premium of \$40 will be paid out of the funds accruing from the tax on old ladies.  
Each Sunday lazier on street corners or about church doors is to be taxed at his full value, which is just about 2 cents.
