FOURTH OF JULY PROGRAMME.—After having patiently waited in vain for the "leading men" of the town to make some movement in regard to the proper celebration of the coming National Anniversary in Altoona, we have concluded to take the responsibility of announcing the following pro-

Those of our citizens who have not been on a spee the night before, will arise on the morning of he 4th, wash their faces, comb their hair, and then eat their breakfast. After this important ceremohas been performed, various little household chores" will be in order and should be promptly attended to. Young America will then be at libenv to sally forth with his pockets full of squibs and a cigar in his mouth, to join his comrades and indulge in any kind of recreation or amusemen which his fertile imagination may suggest.

"The boys" all being out, of course the "old falks" will be tempted to follow the bent of their an inclinations, thus reversing an old couplet: "When the mice are away The cats will play."

Of course, many of them will "dine out" in the mods, where different denominations and associaions will hold pic-nics; and for this purpose they will be seen forsaking the town like rats do a sinking ship. Gal-lant lovers and their pretty lasses will either assemble in crowds of two, and repair to ome secluded spot, there to squeeze each other's ingers, and talk soft nonsense to their heart's conent; or, attend some one of the numerous rural parties, there to "trip the light fantastic toe" until the perspiration oozes from every pore and the pulations of the heart keeps time to the music of the

In the meantime, "fast young men" and "old oakers" will imbibe freely of those popular beverages known as "lager," "rot-gut," etc., when those of this class who are not too heavily loaded will swagger about the streets, informing quiet people that "this is a free country," and that "the tourth of July comes but once a year." In all that our good old friend, Uncle Sam, can give em-After the day has been spent in the manner

above stated, evening will be at hand, and all who teel inclined can take their suppers. After which the events of the day can be talked over and discussed until twilight, when it will be in order to light a few roman candles—those who can't afford these, may use tallow candles. The youngsters, after having bought out Fettinger, Clabaugh, Percival, Heslop, Weis, Rossi and others, can touch of their fire-wheels, spit-devils and chasers, and hen retire to bed, there to dream of the happy lays when they shall be men and take the places the selfish "old fogies" who cannot get up a grand mited celebration on that day, which of all the days in the year, should be appropriately honored verery true American citizen.

VAN AMBURGH'S MENAGERIE. - According to previous announcement, this institution visited our own on Friday last, and gave two of the grandest coological exhibitions that it has ever been our rivilege to witness. This is the only real Menagene in the United States; it contains some of he rarest and most splendid specimens of the aninal kingdom that have ever been exhibited on this outinent; and, unlike many other travelling hows, every man connected with it appeared to be perfect gentleman. All were willing and anxous to answer, satisfactorily, the hundreds of quesions propounded to them concerning the animals. Ir. Frost, the Manager, is the personification of politeness, and was even on the alert, finding seats or the ladies and children, and otherwise conributing to the comfort of all-high and low, rich nd poor-alike. thing concerning it. Vive la Van Amburgh! REMEMBER THE SOLDIERS .- We are requested announce to the charitable citizens of this place and vicinity, that a large box is now being filled with things necessary for the comfort and welfare of the sick and wounded soldiers at Reading, Pa. Anything useful to persons in their distressing ondition will be thankfully received at the store of Mr. R. A. O. Kerr, and promptly forwarded to thuse for whom it is intended. We hope that this box, and many others, may soon be on their way relieve the sufferings and cheer the hearts of glorions Stars and Stripes and our common common the Southern seas. ry. er issue of our paper, the corner-stone of the new resolution was unanimously adopted : derman Lutheran Church, in the East Ward, will be laid on Sunday, the 29th instant, at 2 o'clock M. There will be preaching in English and German at 10 A. M. and at 2 P. M. The public e respectfully invited to attend.

ticularize, when similar cases are of almost daily and act accordingly. nightly occurrence, and just such man-trans are to be found in almost every street in town. Nearly all the pavements are made of boards-many of them laid down lengthwise and in a careless manner. The weather has warped the boards, the nails have drawn out, and the whole fabrics have become so "rickety" that to travel them is more like climbing the slab-pile at a saw-mill, than anything else we can liker it to. Again, many of these cheap, economical pavements are so narrow, that when one couple meets another, all must go tandem, (like auts up a tree,) or else one party must step off and let the other pass. This is so very convenient (?) when different denominations are assembling at, or returning from, their different places of worship, on Sunday. Oh! shame, ye "Borough Fathers." Why do ye not see to these attention of property-holders to the existing state complain on this score. That the citizens of Alyou do; therefore, "we humbly pray" that these (and other evils which we do not wish to publish to the world) may be remedied, and that speedily, for your own sakes, for civilization's sake, for de-

cency's sake, and for shame's sake, if nothing else. STEALING FRUIT, &c .- Now, that the season for fruit and vegetables has commenced, it may be well to call attention to the legal penalty prescribed for trespassing upon gardens, orchards or other fairs of the kind promised for the occasion. Evprivate grounds-stealing fruits, flowers, vegetables, etc. Everybody knows it is wrong to take a single berry, or pluck a single flower, without the consent of the owner, but from time immemorial there has to pass the day in innocent recreation and at the been a laxity in this respect, until boys and men even think it a small matter to trespass upon the better than attend the Pic-Nic in McCartney's property of others, and appropriate whatever suits Grove. them. Boys have become particularly troublesome in this respect, and in the cities and boroughs especially, it is next to impossible to prevent depreda-

the punishment of this class of offenders. It is only necessary for the injured party to make information before a magistrate, and have the offender arrested and held for trial-when the testimony of the owner or occupant of the premises shall be admitted as evidence.

Another method of procedure is by civil action before a magistrate, against any person who shall damage any garden, orchard or field of growing crops in any manner whatever. Judgment shall be given by the magistrate for double the amount of the damage proved to have been done, together with costs of suit; one-half of the damage or penalty to go to the use of the poor of the district in which the premises lie; and in default of payment, the party may be committed to jail for not less than one or more than twenty days.

BOYS OUT AT NIGHT.—We publish the following which is going the rounds in the papers for the benefit of boys who are in the practice of spending their evenings in the streets.

"It is one of the most ruinous, dangerous and nischievous things possible. Nothing so surely marks their course downward. They acquire, under cover of the night, an unhealty state of mind, vulgar and profane language, obscene practices, criminal sentences, and a lawless bearing. Indeed, it is in the streets, after nightfall, that boys generally acquire the education and capacity for becoming rowdy, dissolute criminal men. Parents, do vou believe it? Will you keep your children home nights, and see that their home is made pleasant and profitable?"

COULDN'T RESIST THE TEMPTATION .- On Thursday last, at Tyrone, after Van Amburgh's pavilion loys, darkies and fools, ever visited an animal had been erected, a couple of "country gentlemen," how," should have been there. > Too Soon.—The near approach of the Fourth of July has started the boys, as usual, ahead of time in the way of exploding torpedoes, parlor matches and such other pyrotechnic productions as the state of their finances will admit. It is scarcely necessary to say that this is a dangerous practice, and should be discountenanced, as many accidents have previously resulted from this cause? On the 4th everybody is expected to be on his guard against these projectiles and the casualties therefrom proceeding; but previous to that time the practice of firing them is certainly a nuisance, and a dangerous one, too. Wait until the day comes, boys, and then make all the noise you

> To PRESERVE STAWBERRIES .- The Scientific American gives the following receipt for preserving strawberries:-To two pounds of fine large strawberries, add two pounds of powdered sugar, and put them in a preserving kettle, over a slow fire, till the sugar is melted; then boil them precisely twenty minutes, as fast as possible; have a number of small jars, and put the fruit in boiling hot. Cork and seal the jars immediately, and keep them through the summer in a cold dry cellar. The jars must be heated before the hot fruit is poured in, otherwise they will break.

> NARBOW ESCAPE. On Monday evening last. a young lady by the name of Margaret Green, of this place, was caught in a shower of rain, and, on arriving at home, she turned her back to the fire for the purpose of drying her dress, when by some means the fire was communicated to her skirts. and for some moments her position seemed to be one of imminent danger; but assistance being at hand, the flames were soon extinguished, and the young lady escaped without sustaining any personal injury, although her dress was totally ruined.

CASE OF DANIEL A. BOYD.

PITTSBURGH, December 31, 1861. DR. G. H. KRYSER:-I take pleasure in making this volintary statement in favor of a medicine prepared by you called "Lindsey's Blood SEARCHER." I had suffered for five years with Scrofula which broke out on my head and forehead so as to disfigure me very much, and took off the hair when the disease made its appearance; it also broke out on my arm above and below the elbow, and eat into the skin and flesh so as to expose a fearful sore. The disease on my head went so far that several small pieces of bone came out. I was very week and low spirited, and had given up all hope of ever getting well, as I had tried several skillful physicians and they did me no good. In September last, 1861. I was induced to try." Linnser's In-PROVED BLOOD SEARCHER." I must confess I had no faith in patent medicines, but after I had used three bottles of Blood Searcher, the ulcers on my head and arm began to heal. I have now taken eight or ten bottles, and my head and arm are entirely well except the scars remaining from the sores. I will also state that I had the rheumatism very bad in my arms and legs. The Blood Searcher als cured the rheumatism. I am now a well man, over forty years of age, and I feel as suple and young as I did when was twenty, and have increased in weight twenty pounds. would also state that the disease in my foreheard was so had that when I stooped and lifted anything heavy, the blood run out of the sore. Dr. Keyser had a photograph taken of me by Mr. Cargo, the artist, after I began to get well. It does not show my appearance as bad as it was before I commenced taking the medicine. You can se the photograph, one of which is now in my possession and also at Dr. Keyser's 140 Wood street. I would also state that I took the Blood Searcher which was made before Dr. Keyser commenced making it. Although it helped me some, I did not recover fast until I got the kind made by Dr. Keyser himself. One bottle of his did me more good than two of the old. I believe it is a great deal stronger and better. I have recommended the Blood Searcher to a great many of my friends for various dis eases and I believe it has helped the whole of them. You may publish this if you wish, and I am anxious that all who are afflicted as I was may be cured. I live in this city, No. 4 Pine street, and am employed at Coliville & Anderson's Union Marble Works, 54 Wayne street.

A BLIND MAN CURED.

DANIEL A. BOYD.

I live in Sligo, at Clinton Mill, and have been nearly blind in both eyes for nearly four years. I called on Dr. Keyser about three months ago and asked him to give me directions to the Institution for the Blind in Philadelphia, He told me that I need not go to Philadelphia to get well. as he had medicine that would cure me, as he said my disease was in the blood. I was treated for it two or three times in the hospital in this city, and was relieved, but my disease always returned after a month or two after I came out of the hospital. I found my disease was re turning and I called, by the advice of a good friend of nine, on Dr. Keyser, who has restored my sight, and my eyes are nearly as well as ever. The Doctor gave m 'Lindsey's Blood Searcher" and a wash.

DAVID KINNOLLY. Clinton Mills, Sligo Pittsburg, July 5, 1861.

A BAD SORE LEG CURED.

PITETBURGH, September 18, 1861.—I hereby certify that I have had a sore leg for over a year. It was covered with ulcers and sores so that I could not work for nearly a year. My leg swelled so that I was unable to do any thing for a long time, for at least six months. I tried several of the best doctors in the city, but without any benefit; finally I called on Dr. Keyser, at No. 140 Wood street, who only attended me about two weeks, and gave me but two bottles of medicine, and I am now entirely well and have contined so for six months. I am employed at the Eagle Engine House, on Fourth street, where any

CANCER CURED.

A LETTER FROM ENGLAND.-Mr. John Pope, of Blacua von, near Montypool, Monmontshire, England, writes as

write you respecting LINDSET'S BLOOD SEARCHER, from which she found great benefit, and wishes to have a little more. She has been suffering from a disease of a cancerous nature for the last six or seven years. Her; daughter, who is living in America, obtained it for her, and sent her eighteen bottles. She is now quite out of it, and I have written to her daughter twice and have received no answer; of course she is anxious to get more, to get completely cured. I told her I would write to you for the agency in this country, and she felt very much pleased to hear me say so. I now beg to sak you on what terms you will supply me; you will please bear in mind the carriage, and supply me as cheap as possible. The carriage on the one dozen bottles was £1 8s 6d. The medicine was a present from her daughter. I would like to have the Blood Searcher in a jar or small cask, if you can send it in that way, or in pint or quart bottles. I will send a bill through bank or registered letter, which ever will be most convenient to you, if you will send me carrier's receipt of the parcel as security. I would send you a stamp to answer this, but as it is uncertain of this reaching you, on account of the country being in six and sevens, a term which is commonly used, you will be kind enough to charge me with the postage.

Yours, respectfully. JOHN POPR. [We have seen the letter which is published in to-day's ispaich, from John Pope, and believe it to be gonning. litors Dispatch Pittsburgh.
