These Cans and Jars, being perfectly simple in their ar-rangement, and requiring no cement or solder to make them Air-Tight, are the most reliable and convenient ves-sels for preserving fruits and vegetables of all kinds, that are in the market. THEY POSSESS THE FOLLOWING ADVANTAGES:

THEY FOSERSS THE FOLLOWING ADVANTAGES: lst. All that is required after the froit has been put in hot, is simply to screw the top down tightly. 2d. They can be opened by a single turn of the cover. and the contents taken out in one-fourth the time required by other cans. 3d. Bosides their simplicity and case of adjustment, and impossibility of stoppers blowing out, they show at all times the exact condition of the fruit, by simply looking at the top of the cover; if the gum is concare the fruit is good; if convex, the fruit is going to spoil, but will always show itself in time to be saved.

Directions. Directions. Heat the Jars or place an iron spoon in them while fil-ing, which will avoid cracking. After the Jars are full, take out the spoon or iron, and acrew down the cap tight. Care should be taken to replace the same cover on the same Jars from which they were taken. To restore the gums that have been used, to their origi-nal singe, put them in hot water for one hour.
