MOORE'S WAGON .- Many of our readers have seen the elegant piece of workmanship on which our enterprising townsman, J. H. Moore, now rides. It was built by Mr. C. H. Starr. of Greensburg. Pa., and is certainly one of the best made and best finished wagons, for the notion buiness, that we have ever seen. There is none too much or too little work about it. Everything about it has something of neatness and usefulness. The springs, axles, etc., appear to be improvement over anything of the kind in general use, and all combine neatness with durability. It is pronounced a capital job by all who have examined it and Moore justly teels proud of the institution, as there is nothing on the road which can take him down in any style. He drives the best horses, has the handsomest harness and wagon, and carnes the most varied, cheapest and best assortment of notions, and does the heaviest wholesale business of any traveling notion dealer. Success attend him for he deserves it.

Now for a RUSH.—Of course, when we head an article after the above fashion, everybody knows exactly what's coming. They will say, "now the printer is going to puff somebody's new goods."-Too often he does head articles in that way, and then fool people to read them, only to find at the conclusion that somebody has received a lot of new goods, just like J. & J. Lowther. Of course, bugged, and say naughty things about the printer, but people who go to J. & J. Lowther's store, and examine the beautiful stock of goods which they have just received, will feel more like thanking the printer for telling them where to find a "leetle' the handsomest stock of ladies' dress goods which ever appeared in the place. Everybody knows that the figures are up, and everybody will find out by going to Lowther's that the style and quality is also up. If J. & J. can't suit the ladies this fall they are hard to please, that's all.

Quite a convenience—the fractional checks ssued by Wm. M. Lloyd & Co.

The drafting of negroes for military service strongly recommended in the South. It is stated that the cost of the Forrest di-

force case alone amount to 40,000. The suit was ommenced fourteen years ago. Rich—the triangular fight between the Hun-

tingdon editors. If they tell half truth about each other, they are a pretty set of poseys. The number of sick, wounded, convoles-

cent and paroled soldiers in and about Washington is 34,440. J. S. M. Young, editor of the Eric City Dispatch, was among the unfortunates who drew

ticket on the 16th inst. The official returns of the Ohio State election, give a Democratic majority for Supreme Judge of 8,740.

The Quakers of Illinois are to be subject the draft, and those who are drafted are to fall

The Indian country gets hold of the fashion after a while. Crinoline has been introduced among the Cherokees, and the Indian maidens now wear war-whoops.

"CONTABANDS."-It is stated that the whole number of negroes at Fortress Monroe is about 6,000, and of these, 600 of the men are in the employ of the government. At Hampton there are 1,500 to 2,000, and Norfolk 1,500.

The miners at Broad Top are on a strike. They have bern receiving fifty cents a ton for mining, and now demand sixty cents. At fifty cents a ton a good miner could make from fifty to sixty dollars a month. The owners of the mines refuse the increase in price. The Standard has it that the premium on

gold has gone down nearly ten per cent. since the Democratic victories in Ohio, Indiana and Pennsvlvania. We hope such may be the case, but the city quotations and the price demanded don't show it. The tendency appears to be the other way.

NEW EXPLOSIVE MATERIAL.—The latest explosive material consists of the flour of starch, which, boiled in a peculiar way with nitric acid, possesses it is said, a far greater projectile force than the gunpowder in ordinary use. It is probably somewhat similar to gun cotton.

Five dollar bills purporting to be issued by the Clinton Bank of Pennsylvania, are in circulation. The notes are altered from the broken Clinton Bank, of Marvland, are well engraved, and have a railroad train on upper centre. There is no bank of that name in Pennsylvania.

DRAFTED MEN ORGANIZED .- It is stated that five regiments of drafted men have been organized some people get mad when they are thus hum- in Camp Curtin, and the men are comfortable and contented. They are permitted to organize companies and elect their own line officers. Those thus selected will be commissioned at once. A new camp of rendezvous for drafted men has been established at Reading.

THE RESULT IN OHIO.—The official returns of Ohio give a Democratic majority for Supreme Judge of eight thousand seven hundred and forty. The democartic vote has increased thirty-five thousand over last year; the Union vote has decreased twenty-eight thousand. The total vote EXCELSIOR.— There's no use talking," or of the State has fallen off seventy-eight thousand

Curtis' headquarters, and immediately on his return resigned is position under the Richmond government, and gave his commission to Gen. Curtis for the latter to send through the lines. After subscribing to he oath of allegiance, he announced his determination to observe it in both letter and spirit.

STOWING POTATOES.—As many of our farmers and gardeners are now stowing away their winter supply of potatoes, the following hints on the subject rom a correspondent of the Scientific American may prove of use. The writer says he has tried it our years and it has proved a soverign remedy not having lost a bushel in that time after they were harvested, though in some cases they were aalf diseased when taken out of the ground. The receipt is as follows: "Dust over the floor of the bin with lime and put in about six or seven nches deep of potatoes and dust with lime as before. Put in six or seven inches more of potatoes, and lime again; repeating the operation till all are stowed in that way. One bushel of lime will do for forty bushels of potatoes, though more will not hurt them—the lime rather improving the flavor than otherwise.
