LOCAL ITEMS.

INCOGNITIO.—On Wednesday morning last about the time we had given up all hopes of rewiving a Christmas turkey, and had become recactiled to a printer's every-day dinner, who should saking Valley friend, "Old Joe" Metzgar,-While it gave us pleasure to get a sight of his rated two monster turkeys. They were none of our small fry turkeys, kind reader, as the weight convince you. Now remember, they were ing from carelessness.—Register. iressed in market style, and weighed respectively 15 and 17 pounds, consequently were worth, at the market price, (9 cents per pound) \$1.35 and \$1.56. our Christmas dinner was not turkeyless. Part the story remains to be told. On questioning ar old friend as to the name of the donor, he inaned us that "mum" was the word, consequently are unaware who played us this last "fowl" -par him, if we have not already done so.

ANOTHER. - "It never rains but it pours," is an ad saving, and was verified in our case, on Wedesday last. Shorfly after the departure of our sinking Valley friend, another friend, not far out town, but who insists upon remaining incog to the public, left with us a fine young turkey, fatened expressly for the printer. He has our manks and a place in our memory. Printers never forget those who do not forget them about

STILL ANOTHER .- A young friend, whose name sall be nameless at present, called upon us the ame day, and inquired whether we would carry some a small package. Always willing to oblige, ane big turkey. We were taken aback-could andly credit our eyes. On being assured that all as right, we accepted the package, done up in tathers instead of paper, and got it home-on a an probably, and probably we walked-anyhow se got it home; but all the above was e'en a most to much for one day. We are not now in a fit endition to sympathize with our brothers of the

A NEW YEAR'S PRESENT .- We are indebted our young friend, William McDowell, of Lolan township, for a fine slice of venison from the and quarter of a white deer, shot by George B. lickson, (who was hunting in company with Mr. McDowell) Chistmas day, in the "Kettle," near his place. White deer are sometimes seen by anters in this region, but they are very scarce. fae one from which our slice was cut was a three ear old buck-all white but his feet and ears, which were of the common greyish color. We ad not preserve the treat for our New Year's unner, but sampled it yesterday, and now conounce it the best venison we ever tasted.-May the donor always be lucky in his hunting exarsions and the printer ditto.

We feel, while penning these lines, as though e were not forgotten, and our labor, often hard, supply our patrons with a readable paper, not diogether in vain; and we are encouraged to burn the midnight oil" a few minutes longer each night. It is not the gift so much as the pint which prompts it, that we value.

LARCENCY.—On Tuesday night last, some unnitigated scoundrel, who is evidently opposed to aronizing storekeepers while goods are high, aprepriated a well filled clothes-line of sheets, tableshs, pillow-cases, towels, etc., which Mrs. Munnad injudiciously left out in her yard, corner Annie and Claudia streets. Not satisfied with e clothes-line operation, he coveted and then xized upon a couple of turkeys and half-a-dozen dickens which were roosting on the arbor. The in clothes and fowls amounts to about \$40pretty fair night's work for the scoundrel, but ther too heavy a draft on Mrs. Mundoo. We out wish the thief any particular harm, further an that he may find a thorn in every pillow-case, emetic in every table-cloth, and more bones

an meat in the fowls. ANOTHER SOLDIER GONE.—George London, of Mr. Loudon, of Logan township) a memof Co. K, 125th Regt. P. V., died at Harper's erry, in the early part of last week. His rear View Cemetery. When we saw him last, hending to his sick and wounded comrades, at of the field hospitals, at Antietam, he was the Acture of health and bid fair for long life; disease, more fatal and less easily guarded inst than the bullets of the enemy, has done work upon that stout frame, and George now that sleep from which the bugle call or long never awake him. Peace to his ashes.

AT HOME.—It is with unfeigned pleasure we A BABE IN THE WOODS.—The Cambria Trib- RAIL ROAD AND MAIL SCHEDULE. | LLUSTRATED 125th Regt., has so far recovered as to be able to visit his many friends in this place. He arrived here on Friday night last. His wound (through the right hip), has healed up, but he is still lame, and will not be fit for duty for some time to come. Barring his lameness, he is otherwise well and hearty, and expresses his desire to return to his command as soon as his physician shall pronounce it safe for him to do so. When we met him in Hagerstown Hospital, after the battle of Antietam, we scarcely hoped to see him on our streets again, but Providence has ordered otherwise, and we are thankful. Should he be able to resume his command again, we hope he may come out of future battles more safely than he did at Antietam, and with equal honor.

LOSSES IN THE SIXTY-SECOND.—We learn that the 62d Regiment, Col. Hull, lost sixty-nine in killed and wounded at Fredericksburg. The regiment numbered 600 men. We find, in the Pittsburg Chronicle, the following list of the killed and wounded, in Company M, Captain Crozier, which is from this neighborhood:

mounce that Capt. C. R. Hostetter, of Co. D, une of the 26th ult., says that a little girl, twelve years of age, belonging to the family of George Page, residing near Mineral Point, started from her home one evening last week to visit her grand-parents, a couple of miles away. Ascertaining the next morning, by chance, that the child had not reached her destination, a search was institu-ted for her, and after considerable scouring of the woods, she was found at the residence of Martin Funk—an uncle. Upon inquiry of the girl, it was learned that she had missed her way the evening before, and after wandering through the woods for several hours, crossing a small stream several times on the ice, which broke with her, by which means her feet and the extremity of her clothing were wet, she took shelter under a projecting rock on the farm of Mr. Samuel Leidy. In the morning she came to the house of Mr. Leidy, and without intimating that she had been in the woods all out intimating that she had been in the woods all night, started in company with a young womanher aunt—for her grand-mother's. When near Mr. Funk's, however, she fainted, when she told what had happened, when she was taken into her uncle's house and properly cared for. Upon examination, it was found that the poor child was badly frozen, and was also considerably bruised by falls and other mishaps during her night wanderings. Fortunately the night was moderate, or had it been as severe as some which immediately preceded or followed it, she would undoubtedtly have pershed. At last accounts she was still at the residence of Mr. Funk, and was recovering.

> REBEL! PRISONERS REFUSING TO BE EXecently brought from LaGrange to Cairo, Illinois. declared their unwillingness to be exchanged.— Some of them affirmed they would rather die than go back to rebeldom. They were forced into the rebel army in the first place, and expect to be forced into it again if they returned. Among them were some two hundred Germans, who expressed a desire to join the armies of the Union. who do not join the army wish to go north and find work. Gen. Tottle has written to Gov. Yates on the subject, and it is presumed that those wishing to join the army, at least would be permitted to do so. There would seem a peculiar hardship in forcing them back into the rebel ranks. Their case had excited much interest, and there is a strong probability, says the Illinois State Journal. that Gov. Yates' answer would be favorable. The Caire correspondent of the St. Louis Democrat as serts that many of the prisoners taken to Vicksburg and exchanged, have expressed a desire to remain here, but the policy had been to send them down and redeem Federal soldiers with them.

> LOYAL INDIAN BRIGADE.—The Secretary of War has authorized the Indian bureau to raise two additional Indian regiments, for service as a Physician to the Troy Lung and Hygienic 'Home Guard," in Southern Kansas and the In-Fresh Tomatoes, Quinces, Peuches, Pears and dian Territory. These regiments, when organized. will be incorporated with the three loyal Indian regiments already in the field, and the whole force consolidated into a brigade, which will probably be commanded by Judge Ewing, who at present is colonel of a Kansas regiment. The command will be further augmented by the addition of two regiments of white troops. With this force the Commissioner of Indian Affairs thinks the Indian Territory may be cleared of armed rebels, and the supremacy of the government again restored among the Indian trabes in that region of country. The Indian regiments all be officered by white officers; Captains of companies will also be white men, the subordinate company officers to be chosen from among the chiefs.

A Word of Solemn Conscientious Advice to those who will reflect.

A class of maladies prevail to a fearful extent in the community, dooining at least 100,000 youth of both sexes annually to an early grave. Those diseases are very imperfectly understood. Their external mani extation, or symptoms are Nervous Debility, Relaxation and Exmansion. perfectly understood. Their external mant estation, or symptons are Nervous Debility, Relaxation and Exhaustron; Marasmus or wasting and consumption of the tissues of the whole body; shortness of breathing or hurried breathing on ascending a hill or flight of stairs; great palpitation of the Heart; Asthma, Bronchitis and sore Throat; skaking of the Hands and limbs; aversion to society and to business or study; dimness of eye sight, loss of Memory, dizxiness of the ifead, Neuralgia, Pain in various parts of the body; Pains in the back or limbs, Lumbago, Dyspepsia or Indigestion, irregularity of the bowels, deranged secretions of the Kidneys and other glands of the body, as Leucorthea or Fleur Albus, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now in ninety-nine cases out of every one hundred, all of the above named disorders, and a host of others not named, as Consumption of the Lungs and that most insidious and willy form of consumption of the Spinal Ferves, known as Tabes Dorsales, and Tabes messent-rica, have their seat and origin in diseases of the Pelvic Viscera. Hence the want of success on the part of old school practice in treating symptoms only.

Dr. Andrew Stone, Physician to the Troy Lung and Hygienic Institution, is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new; it is based upon scientific principles, with new discov red remedies; without minerals or polsoms. The facilities of cure are such that ratients can be cured at their homes, in any part of the country, from accurate descriptions of their case, by letter: and have the medicine can be visited.
