ARRESTED .- Our readers will remember that on e morning of the 20th of October, 1858, an unsnown man was found lying on one of the railand tracks, at the lower end of the yard, in this siace. When discovered life was entirely extinct. There were no marks or bruises about him, other an a fracture of the skull, which had evidently een inflicted by a slung-shot or some other round blunt instrument. It was thought by some that had received the wound by attempting to get on the Express train while in motion, but others nclined to the opinion that he had been murdered and placed on the track. Some \$39 in money and ticket from Chicago to New York were found in possession. His name was supposed to be D.

This (Tuesday) morning, Nicholas Ehringer, coprietor of the Eagle Hotel, in North Ward, was rested, on oath of Martin Harman, charged with the murder of the man above referred to. We believe Harman made oath that he saw Ehringer have the man on the track the night verious to the morning on which he was found. hat he told Harman that he had killed him, and that he gave, or promised to give, Harman money say nothing about it. As the case will undergo full investigation at the next term of Court, we all not refer to the different reports now in cir-

Sometimes on our railroads a switch is neglected, and as the heavy engine flies swiftly alongdrawing a heavy train after it, it dashes quickly aside on the wrong track. The engineer sees the danger in a moment, and "whistles down breaks." and makes use of every other effort in his power to stop. Then reversing the movement, he passes back to the right track again, and when everything s properly adjusted moves forward.

Why did he stop? why not pass on? Both racks lead in the same direction. Ah we are fold that is only a side track, and terminates just beyond the switch a short distance, and had the engineer not stopped—if he did not meet some obstruction which might be the case—he surely rould run his train off at the end of the track, and dash all to pieces.

CASE OF DANIEL A. BOYD.

PITTSBURGS, December 31, 1861. Dr. G. H. KEYSER: - I take pleasure in making this vol untary statement in favor of a medicine prepared by you called " LINDSEY'S BLOOD SEARCHER." I had suffered for five years with Scrofula which broke out on my head anforehead so as to disfigure me very much, and took off the hair when the disease made its appearance; it also broke on on my arm above and below the elbow, and eat into the skip and flesh so as to expose a fearful sore. The disease on my head went so far th t several small pieces of boncame out. I was very week and low spirited, and ha given up all hope of ever getting well, as I had tried nev eral skillful physicians and they did me no good. In September last, 1861. I was induced to try "Lindser's la PROVED BLOOD SEARCHER." I must confess I had no fait! in patent medicines, but after I had used three bottles of Blood Searcher, the ulcers on my head and arm began to heal. I have now taken eight or ten bottles, and my hear and arm are entirely well except the scars remaining from the sures. I will also state that I had the rheumatisn very bad in my arms and legs. The Blood Searcher also cured the rheumatism. I am now a well man, over forty years of age, and I feel as suple and young as I did wher was twenty, and have increased in weight twenty poundwould also state that the disease in my foreheard was a bad that when I stooped and lifted anything heavy, the blood run out of the sore. Dr. Keyser had a photograph taken of me by Mr. Cargo, the artist, after I began to get well. It does not show my appearance as bad as it was before I commenced taking the medicine. You can see the photograph, one of which is now in my possession and also at Dr. Keyser's 140 Wood street. I would als state that I took the Blood Searcher which was made be fore Dr. Keyser commenced making it. Although it helped me some, I did not recover fast until I got the kine made by Dr. Keyser himself. One bottle of his did re more good than two of the old. I believe it is a great dea . stronger and better. I have recommended the Bloo Searcher to a great many of my friends for various discases, and I believe it has helped the whole of them.
