"FOXEY" CAUGHT AT LAST,-Most of our citizens doubtless remember an individual called, and calling himself "Foxey," who was in the habit for years past of visiting this place. They will also remember that generally, about the date of his visits a store was robbed, a dwelling entered. and goods, jewelry, or money taken therefrom. Everybody said "Foxey" did it, yet no proof sufncient to convict him could ever be obtained Last week he was tried in Lancaster for murdering the keeper of a Lager beer saloon, by the name of Brady, living in Marietta. He was convicted of murder-in the second degree, and sentenced to imprisonment in the Eastern penicentiary for a term of ten years and four months. From the

The list of maladies in the next draft will be o closely restricted, that many who in the last draft were exempt, will find themselves "the next time, able bodied." Fat men, however, are 0. K. AS SHAKE AND BURN! Shake and Burn! Shake and Burn !!! This is the life of agony endured by the sufferer from Fever and Ague. He wanders like an uncertain shadow, never knowing at what moment he may be prostrated,

and therefore disinclined to give any serious attention to business. This is the condition of thousands in town and Bonds may run for 20 years, yet the Government has a right to pay them off in Gold, at par, at any time after 5 years. The interest is paid half-yearly, viz; on the first days of November and May. Superiters can have Coupon Bonds, which are payable to bearer, and are \$50, \$100, \$500, and \$1000; or Hegis-tered Bonds of same donominations, and in addition, \$5-000, and \$10,000. For Banking purposes and for invest-ments of Trust-monies the Registered Bonds are preferable. These 5-20's cannot be taxed by States, cities, towns, or counties, and the Government tax on them is only one and a-half per cent., on the amount of income, when the income of the holder exceeds Six Hundred dollars per an-num; all other investments; such as income form Mort-gues, Railroad Stock and Bonds, etc. must pay from three to five per cent. on the income. Banks and Bankers throughout the Country will con-tinue to dispose of the Bonds; and all orders by mail, or otherwise, promptly attended to. The inconvenience of a few days' delay in the delivery of the Bonds is unavoidable, the demand being so great; but a sinterest commences from the day of subscription, no loss is 'occasioned, and every effort is being made to di-minish the delay. PAYABLE IN GOLD. Prudence and self interest must force the minds of those contemplating the formation of National Banking Associ-ations, as well as the minds of all who have idle money on their hands, to the prompt conclusion that they should lose no time in subscribing to this most populat Loan. It will soon be beyond their reach, and advance to a hand-some premium, as was the result with the "Seven Thirty" Loan, when it was all sold and could no longer be sub-scribed for at par. It is a Sir per Cent. Loan, the Interest and Principal pay-able in Coin, thus yielding over Nine per Cent. per annum at the present rates of premium on coin. The Government requires all duties on imports to be paid in Coin; these duties have for a long time past amounted to over a Quarter of a Million of Dollars daily, a sum nearly three times greater than that required in the payment of the Interest on all the 5-20's and other permanent Loans.
