by special causes. Norming that is not wholesome, genial and restorative in its nature enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no mineral of any kind; no deadly botanical element; no fiery excitant; but it is a combination of the extracts of rare balsamic herbs and plants with the purest and mildest of all diffusive stimulants. It is well to be forearmed against disease, and, so far as

Persons of feeble habit, liable to Nerrous Attacks, Lowness of Spirits and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is most conclusive, and from both sexes.

The agony of Bittiots Collo is immediately asse aged by a single dose of the stimulant, and by occasionally resorting to it, the return of the complaint may be prevented. As a General Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated. In cases of Constitutional Withness, Premature Decay and Debility and Decrepitude arising from Old Age, it exercises the electric influence. Have you a Cough? Have you a Sire Throat? Have you any of the promonitory symptoms of that most fatal disease, Consumption?

Those who should be warned by those symptoms generally think lightly of them until it is too late. From this fact, perhaps more than any other, arises the sad prevalence and stality of disease which sweeps to the grave at least "one-sixth" of death's victims.

Consumption has destroyed more of the human family than any other disease, and the best physicians for many years have despaired of a cure, or a remedy that would heal the lungs, but for more than two hundred years the whole medical world has been impressed that there was a mysterious pwer and efficiency in the Pine Tree Tar to heal the lungs; therefore they have recommended the use of Tar Water, which in many cases had a good effect; but how to cambine the medical, properties so as to heal the lungs, has ever been a mystery until it was discovered by Dr. L. Q. C. WISHART, of Philadelphia, Pa., the proprietor of "Wishart's Fine Tree Tar Cordial."

Many not only of the people, but physicians of every school and practice, are daily asking me, "What is the principal or cause of your success in the treatment of Pulmonary Communition?" My answer is this:

PHES OF

TWENTY YEARS STANDING

CURED.

Dr. Gro. H. Krysen :-- Thecame afflicted with the Piles

about twenty years ago, and every year they were growing worse, so as to trouble me very much, so much so at times as to unfit me for work. Sometimes I was so bad that I could not do anything on account of them, they came out on me as large as a bickory nut. I had tried a great deal of medicine for them. I used to buy and take whatever I could hear of or read of in circulars and pamphlets that fell in my way, but I could not get cured, sometimes they would do me some good for a little while, but afterwards they would return again as bad as ever. I also applied to two Doctors who visited me at my house and gave me ome medicine but it would not do, I could not get well. Over a year ago I got an advertisement of your Lindsey's Blood Searcher, made by yourself-when you sold it to me you told me one bottle would not cure me, and that my whole system would have to be renewed by the medicine before I got well. I bought one bottle and took it home with me and used it according to your directions. I then called to see you again, when you said I could not expect much benefit from one bottle. I bought it on, one bottle at a time, until I had used five bottles. After this quantity had been used, I was entirely well of the Piles, which The invigoration of the digestive organs, the strengthening of the debilitated system, the purification and exrichment must expel from the system the corruption which scrouls breeds. While this is effected by the powerful alternative (changing from disease to health) properties of the Tar Cordial, its healing and renovating principle is also acting upon the irritated surfaces of the lungs and throat, penetrating to each diseased part relieving pain, subduing inflamation, and restoring a healthful tendency. Let this two-fold power, the healing and the strengthening, continue to act in conjunction with Nature's constant recuparative tendency, and the patient is saved, if he has not too long delayed a resort to the means of cure.

WOULD SIMPLY ANNOUNCE that two twenty years. In other respects my health is filiproved, and I am as well as could be expected ior one of my age, being sixty years past. I have been well now for six months, and there is no appearance of a return of the disease. I can do any kind of farming work now without the Piles coming down and hurting me bealthful tendency.
