IMPROVED CAR BRAKES.—Our townman, John P. Levan, Foreman of the Car Shop of the Penn. R. R., in this place, has just received a patent for an improvement in attaching the cast iron rubbers to the wooden part of the brake. On the brakes now generally used, the rubbers are fastened to the wooden part by means of bolts and screws, and considerable time is required to remove a worn rubber and put in a new one; and the rubber also comes so close to the wood that when the former is heated by coming in contact with the car wheel, the wood is more or less injured by being burned, and by the time the rubber is worn out the wooden part is so much injured that it must be renewed also. Mr. L.'s patent entirely does away with the renewing of the wooden part of the brake, inasmuch as the rubber stands off from the wood, allowing a free current of air between them, thus preventing the wood from being injured by the heat of the rubber. The arrangement is very simple, and this adds to its merit. To the wooden part of the brake is attached a small casting, dovetailed, to admit a corresponding dovetail on the back of the rubber. The dovetail having been entered (they are not made to fit tight) a bolt is passed through the wooden part of the brake and through the small casting, and enters a recess in the dovetail attached to the rubber. This holds the rubber in its place. It requires but two or three turns of the bolt to fasten the rubber. When the rubber is worn out it can be removed and a new one put in in less than three minutes, if the brakes are applied to the outside of the truck wheels. The merits claimed for the invention are that it is a saving of metal, (wearing the rubber down to an eighth of an inch in thickness,) a saving in time taken to replace, and that it does not injure the wooden part of the brake, all which will be admitted by those who inspect it. It is now in use on all the new passenger cars on the P. R. R., and also on a number of freight cars, and will be put upon all built hereafter.

PHILHARMONIC ASSOCIATION.—We are truly gratified to announce that the initiatory steps have been taken to form a Philharmonic Association in Altoona. There is scarcely a town in the State, indeed we doubt whether there is any place outside the cities, where so much musical talent can be found. We have a number of first class teachers and many superior vocalists and musicians, and we feel sure that the Association will be a success. A meeting of the Association was held on Friday evening last, and organized by electing the following officers: President—John Shoemaker. Vice President—D. Boller. Secretary—Robert P. Pitzer. Treasurer—Thos. L. Caldwell. Male Managers—David Bell, Andrew Clabaugh and Jeremiah Day. Female Managers—Maria Shoemaker, Ella Hump and Matilda Longnecker. Musical Director—Herman L. Delo. The design of the Association is to encourage and cultivate the art of music. Much time and money is now spent to obtain education in music, yet it profits but little when a number of musicians are suddenly thrown together, unless they have had practice in associations.

One of the articles of the constitution provides for the admission of Honorary Members, on the payment of \$2 per annum, which payment secures a ticket admitting a gentleman and lady to all rehearsals and to four concerts per annum, which the Association designs giving.

The meetings are held on Friday of each week. The lecture room of the M. E. Church will be the place of meeting until a suitable hall can be rented. Those who love music and desire to encourage the art have now an opportunity to show that love and their liberality, by becoming honorary members. All the officers are authorized to receive subscriptions of persons desiring to become honorary members.

YOUNG MEN'S CHRISTIAN ASSOCIATION.—The Young Men's Christian Association, to which we have already referred, is now fully organized and ready to move forward in the work of such societies. Already more interest has been taken in it, by the young men of the town, than we imagined would be, yet there are many whom we know, whose influence, if thrown in this direction, could accomplish more good than they have any idea.

There is nothing denominational about these Associations. The members of all churches are found in them, and also those who are not church members. We think that no young man can spend one evening in a week more profitably than by attending the meetings of this Association. True, it imposes restrictions upon its members, but they are only such as will keep them in vice and elevate them morally and socially, in the estimation of the good, whose esteem alone is worth seeking.

The meetings, for the present, are held in the lecture room of the M. E. Church, every Friday evening. The officers for the present quarter, elected on Friday evening last, are as follows: President—E. B. McCrum. Vice President—A. H. Sombower. Sec. Secretary—J. H. Hicks. Financial & Cor. Sec'y—R. DeClarus. Treasurer—Jasper Benshoff.

"COME AGAIN."—Smiling, budding May, with its maddest, merriest days, is with us once again, and albeit winter's storms have scarcely yet bidden us a final adieu, the warm and genial sunshine will ere long dispel the chilly blasts, and reinvigorate the animal and vegetable world by the gladdening influence of its generous rays. May is the month above all others that we would have linger with us always. Its balmy breezes, its budding promises, are ever welcome; and what more joyous and exhilarating can be conceived than those pleasant May parties which invariably mark its fleeting progress. In this respect, at least, we are pleased to know that the present month is to be no exception to the general rule. Even now our Catholic friends are busy making the preliminary arrangements for one of those agreeable May parties which they know so well how to get up. When the time and place are fixed we shall take pleasure in making the announcement.

ELECTION.—At the election for officers of the Altoona Gas and Water Company, held on Monday last, the following gentlemen were chosen: President—Wm. H. Wilson. Treasurer—Wm. M. Lloyd, Chas. J. Mann, Jos. M. Wilson, Geo. W. Kessler, John F. Bannan.

UMBRELLAS NOT COMMON PROPERTY.—The person who picked up an umbrella, in front of Eckel's Tobacco Store, on last Saturday evening, is known, and my advice is he had better return it before Joe Ely is sent after it. May 4th, 1884. M. THOMPSON.

BLACK VALLEY RAIL ROAD.

GREAT CENTRAL THROUGH ROUTE!!

QUICK TIME! ACCOMMODATING CONDUCTORS! LOW FARES!

THROUGH PASSENGERS WILL ARRIVE AT OR ABOUT MIDNIGHT!

Trains Move by the Following Progressive Time-Table.

Accidents from collisions are entirely avoided, as no UP-TRAINS are run over the Road.

Stations	6.00 A.M.	Debauch Slough	Screech Owl Forest
Tippleton	7.00	Kill-Conscience Cut	Dumal Swamp
Topeville	7.30	Prisonout	Holobolin Woods
Medicine Bog	7.45	Begganstown	Battlement Lodge
Guzzler's Junction	7.50	Pauper Desert	Dark Tunnel
Drunkard's Curve	8.00	Murder Hollow	Whirlwind Crossing
Rowdsville		Idiot Flats	Thunderland
Quarrelville		Delirium	Black Valley
Fightington		Demonland	Dead River, arriving at
Blood Gully		Hornetsteepest Thicket	DESTRUCTION!

TICKETS SOLD AT ALL LIQUOR SHOPS THROUGHTOUT THE COUNTRY!

DAILY PATRONS of the Road, above TIPPLETON, supplied with THROUGH TICKETS at REDUCED RATES.

SPECIAL NOTICE TO PASSENGERS.

From DRUNKARD'S CURVE the Train is an Express—all TAKING IN being done above that station, and principally of respectable people. Passengers for all the places beyond are THROWN OUT without stopping the train. Passengers not allowed to stand on the platform, or put their heads out of the windows below Rowdsville—the Corporation not wishing to alarm persons who are not patrons of the Road. Persons desiring to leave the Train will find the stages of the TEMPERANCE AND NERVOUS DRUGS, and all the Stations above, ready to convey them from any of the villages upon DRUNKARD'S CURVE, and the Company disclaim all responsibility for damages. Persons employed below Drunkard's Curve, and the Company disclaim all responsibility for damages. All Baggage at the risk of the owners. Widows and orphans in pursuit of baggage lost by friends, on this Road, are informed that the Corporation will adhere strictly to the usages of the Road, and positively will not restore lost baggage. Passengers in the sleeping cars, especially Stockholders, will be waked up at Screech Owl Forest, Thunderland and at the End of the Road. Stage from TOBACCOLAND connected with all the Trains.

NOTICE.—There will be a Business Meeting, by-and-by, of the Stockholders and Conductors of the Road, to hear a Report concerning Liabilities Under the Higher Law!

For the Altoona Tribune.

ALTOONA, April 21st, 1884.

The Lady Managers of the "Soldiers' Aid Society" take this method of returning, thanks to the P. R. R. Company for the use of the buildings in which to hold their Concert; to Mr. Boller, (as leader), and to the different Choirs, Brass Bands, Glee Clubs, &c., for their trouble and kindness; to Mr. Price, and fellow members of the Committee of arrangements, for the able manner in which they conducted the business entrusted to their care, and to all the public generally for their kind appreciation of our effort to further the interests of a good cause. Our proceeds are sufficient to accomplish much good, notwithstanding the imposition of a number of freight tickets, palmed off as genuine, by some persons who must certainly have forgotten the respect American ladies have been accustomed to have shown them by gentlemen—and particularly the cause for the benefit of which we are engaged—that of making comfortable those who are wounded and dying in our hospitals—having perished their lives to protect our lives and homes. May they have returned unto them good for the evil they have done.

Proceeds of the Concert.....\$190.15
Expenses incurred.....12.05
\$178.10

BY ORDER OF THE MANAGERS.

Will He Do It?—Old Winter has lingered so long in the lap of Spring that it begins to be a question whether or not the old chap designs vacating the position at all. It is to be hoped, however, that for shame's sake, if for no other reason, he will soon forego the luxurious luxury and betake himself to a more congenial climate. In fact, he will confer a special favor on all, and more particularly upon those who are waiting the advent of pleasant weather before purchasing the large and superb stock of dress goods with which Harry McKie has just crowded to overflowing the old store room, corner of Virginia and Caroline streets, if he will "vanish the muck" at the earliest possible moment. But in the meantime let it be borne in mind that Mac has made ample arrangements for meeting the wants of all in the way of dry goods, dress goods, groceries, notions, etc., and is still determined to sustain the reputation the establishment has earned of being the cheapest store in town. Go, see, and be convinced.

The "Devils Recruits" have been receiving accessions to their ranks, judging from the increased length of the column ranked on the outside of the pavement, in front of the Methodist church, every Sabbath evening, at the close of services. Some of them evidently feel ashamed of the company they have got into, as they take the rear rank and cautiously peep over the shoulders of their companions. A number of them, however, are "bully boys," facing the congregation boldly, sniggering and laughing, passing remarks upon ladies and acting the blackguard generally, just as their chief officer would have them do. No young man who has any respect for the female sex, or for himself, would be found in such a party, and the lady who accepts the company of one of these curb-stone gallants can have but little respect for herself.

Boos.—Who has not, oft in the still night, e'er slumber's chains have bound him, been tormented by hungry bugs crawling round him? and what housewife would not pay something handsome to know just how to banish from her premises the pestilent vermin? The Country Gentleman gives the following recipe, which, we are assured, will have the desired effect: "Take two pounds of alum, bruise it, and reduce it to powder, dissolve in three quarts of water; let it remain in a warm place till the alum is dissolved. The alum water is to be applied, by means of a brush, to every joint and crevice. Brush the crevices in the floor, whitewash the ceiling, putting in plenty of alum, and there will be an end to bugs dropping them."

Pen and Scissors.—Ohio's deficiency to be drafted for 17,000 men. At the Irish dog show in Dublin some prize dogs were valued at \$50,000. The Hon. Simon Cameron has been appointed Chairman of the Union State Central Committee of this State. The Cavalry Bureau has been placed under the immediate control of Major-General Halleck, by order of the War Department. They are building an opera-house in Paris, which covers seven and one-half acres of ground. It has been building three years, and is yet only twenty feet above the ground. A lady, in issuing invitations to a few select acquaintances to a supper party, after expressing the usual compliments, instead of ending with "No Quack," ironically concluded her invitation with "No Butter."

A very singular and fatal disease has appeared in Westbury, Vt., which latches the skill of physicians. It commences in the lower limbs, and advances rapidly through the spine to the brain, when severe spasms and death rapidly follow. John Minor Bette gave a dinner last Thursday, at which Gen. Grant, Sedgwick, Hancock, Birney, Humphreys, Robison, Williams, Ingalls, Rawlins, Matt, Carr, Webb, O'Brien, Easton and Morris were present. The affair was the most sumptuous character. The tax on matches by the new bill, is one cent per box. Mr. Carlton has three establishments in Boston, in which are consumed twenty cords of wood and 500 lbs. of bromine per day. He employs 200 girls and a number of men, paying the Government \$1,400 taxes per day. The ladies of Indianapolis are volunteering in large numbers to supply the places of clerks who enter the banishment service. They engage to serve for \$15 a month, the merchants being required to pay the clerks their salaries during their absence, with this deduction. We would advise ladies to be cautious about answering advertisements from soldiers who desire to open correspondence with young ladies for amusement. Much evil has already resulted from such correspondence, for a sample of which see an article of first page.

Table talk or knocking may sometimes lead to embarrassing results, as proved by the following gossip: A party met the other night and formed a chain, and when the "gossip" was in movement, a married lady present put the question, "How many children have I?" "Tap, tap, tap, tap," or four replied the table. Presently her husband came in and asked the same question, "Tap, tap, tap," or two was the answer. The effect produced by this may be better imagined than described.

Somebody has styled circus shows the "Devil's Camp Meetings." If they be such, we think the same Majesty is determined to favor his flock in this neighborhood, at an early season, with many opportunities of improving in his hands. It is believed at Richmond that Gen. Grant wishes to make the Army of the Potomac do something. Meantime his plans are unknown to both superiors and subordinates. No commanding officer knows more at the present than the part he himself has to execute. There is now a case in the United States Supreme Court involving the title to the site of the city of Keokuk, Iowa. It has been in court twenty years and involves a large estate valued at \$15,000,000. The parties are Charles Mason vs. Messenger & May. A colored preacher within our lines recently felt constrained to preach against the extortion of the sutlers, from which his flock had suffered. After much deliberation, he announced the text as follows: "Now do ye repent, ye who are extortioners, of every beast of the field, which the Lord God hath made!" Eight dollars per hundred weight was formerly paid between Philadelphia and Pittsburgh, whereas fifty cents is now the usual charge. It occupied eight days, in the old stage-coach fashion, to travel between these points, and now four hours is the usual time of transit, at an expense diminished in proportion. The chapters on "The American Church of Christ," or America as foretold by prophecy, now being published on our first page, are attracting considerable attention. The chapters yet to publish are more interesting than those already published, from the fact that they refer to later times and exciting events. The quinquennial meeting of the General Conference of the Methodist Episcopal Church, met in Philadelphia on Monday last. Among the questions which will come before that body for consideration will be the extension of the ministerial term of service, a lay representation, and the questions relative to the policy of the church.

In Chicago, a few days ago, a man caught a rat that three years had been in the city and landed in Albany, N. Y. There was no mistaking the thing; it was the same old rat, whose tail had been amputated and who jumps three years ago, seven hundred miles from Chicago. We do not blame the rat for traveling, after being served in that manner.—Union Traveler. An order has just been issued from the War Department prohibiting the use by generals and other officers, in the coming campaign, of the numerous four-wheeled carriages, furnished by the Quartermaster's Department at the expense of the Government. General Grant, while riding in the rain to the front the other day, met General Ingalls coming into town in one of those equipages. It is said that they were mutually surprised. A Newburyport sugar merchant heard, a few days since, that sugar had gone up two cents, and, telling no one what he was going to do, immediately rushed off and bought the whole stock of another merchant at 21 cents. He was so delighted with the operation that he treated the clerks all round on his return and then learned that a man as clever as himself had bought all his stock at 21 cents while he was away.

U. S. 10-40 Bonds.

These Bonds are issued under Act of Congress of March 3, 1864, which provides that all Bonds issued under this Act shall be EXEMPT FROM TAXATION by or under any State or municipal authority. Subscriptions to these Bonds are received in United States notes or notes of National Banks. They are TO BE REDEMPTED IN COIN, at the pleasure of the Government, at any period not less than ten years after their date, and until their redemption FIVE PER CENT. INTEREST WILL BE PAID IN COIN, on Bonds of not over one hundred dollars annually and on all other Bonds semi-annually. The interest is payable on the first days of March and September in each year.

Subscribers will receive either Registered or Coupon Bonds, as they may prefer. Registered Bonds are recorded on the books of the U. S. Treasurer, and can be transferred only on the owner's order. Coupon Bonds are payable to bearer, and are more convenient for commercial uses. Subscribers to this loan will have the option of having their Bonds draw interest from March 1st, by paying the accrued interest in coin—or in United States notes, or the note of National Banks, adding fifty per cent. for premium—or to receive their drawing interest from the date of subscription and deposit. As these Bonds are EXEMPT FROM MUNICIPAL OR STATE TAXATION, their value is increased from one to three per cent. per annum, according to the rate of tax levies in various parts of the country.

At the present rate of premium on gold they pay OVER EIGHT PER CENT INTEREST in currency, and are of equal convenience as a permanent or temporary investment.

It is believed that no securities offer so great inducements to lenders as the various descriptions of U. S. Bonds. In all other forms of indebtedness, the faith or ability of private parties or stock companies or separate communities only is pledged for payment, while for the debts of the United States the whole property of the country is held to secure the payment of both principal and interest in coin.

These Bonds may be subscribed for in sums from \$50 up to any magnitude, on the same terms, and are thus made equally available to the smallest lender or the largest capitalist. They can be converted into money at any moment, and the holder will have the benefit of the interest.

It may be useful to state in this connection that the total Floating Debt of the United States, on which interest is payable in gold, on the 31st day of March, 1864, was \$78,965,000. The interest on this debt for the coming fiscal year will be \$4,507,125, while the customs revenue in gold for the current fiscal year, ending June 30th, 1864, has been so far at the rate of over \$100,000,000 per annum.

It will be seen that even the present gold revenues of the Government are largely in excess of the wants of the Treasury for the payment of gold interest, while the recent increase of the tariff will doubtless raise the annual receipts from customs on the same amount of imports, to \$150,000,000 per annum.

Instructions to the National Banks acting as loan agents were not issued from the United States Treasury until March 26, but in the first three weeks of April the subscriptions averaged more than TEN MILLIONS A WEEK. Subscriptions will be received by the First National Bank of Philadelphia, Pa. Second National Bank of Philadelphia, Pa. Third National Bank of Philadelphia, Pa.

AND BY ALL NATIONAL BANKS which are depositaries of Public money, and all RESPECTABLE BANKS AND BANKERS throughout the country, (acting as agents of the National Bank of Commerce), will furnish further information on application, and AFFORD EVERY FACILITY TO SUBSCRIBE.

JOHN H. HAWATHA Hair Restorative.

The standard preparation for the hair, warranted in all cases to restore faded and gray hair, and whiteness of the scalp. It does not claim to make the hair grow where it has once fallen out; nothing will do that whatever may be advertised to the contrary, but it will prevent it from falling out, make it soft and silky, cleanse it and the scalp from impurities and humors, and entirely overcome bad effects of previous use of preparations containing sulphur, sugar, or lead, &c. It requires no washing of the hair, and is as easily applied and wiped from the skin as any hair dressing. It restores the natural shading of one hair with another, which gives it a lively appearance instead of the dull uniform color of dyes.

HOYT'S IMPERIAL COLORING CREAM. Superior to any Hair Dressing in use. Oils and Colors the Hair at the same time. Changes light and red hair to a beautiful brown or black. Sold everywhere. JOSEPH HOYT & Co. No. 10 University Place, New York. March 30, 1884-ly
