The regiment was negroes, and that Gen. Johnson is determined if mustered for pay, previous to leaving Harrisburg, and hey fail into our hands to show them no mercy, and each man received about \$73 bounty and advance pay .-f the Yankees retaliate on our men who fall into After being payed off, the members of company D, present their hands, to hoist the black flag at once. Heny says that the question was put to vote in his brigade, whether they preferred to give negroes no quarter and take the risk of being retaliated on, or to treat them as prisoners of war, and every man voted to give them no quarter. I hope Gen. Johnson will keep his word. I

would like to see the black flag hoisted at once.— I love my husband as fondly as a wife can love, but I would rather he should die under the black flag than that the insults of the detestable Yankee in sending negro soldiers against us should not be resented by putting every one to the sword who may fall into our power. I wish Mr. Davis and his Cabinet would resign in favor of their wives, and leave the direction of affairs for one year to the women, and, my word for it, the pusillanimous Yankees would soon have no negroes, and would have to get Hessions to fight for them, or give up the war. Wouldn't you and I make good generals, Mary? If the wretches make an attack on this citye I will show you what I can do; you will hear of another Joan of Arc.

UNION CAVALRY VERSES REBEL CAVALRY. -It is now demonstrated beyond the shadow of a doubt, writes a correspondent with Sheridan, that the rebel cavalry are no match for ours. I heard a rebel Captain, whom we captured, say at the commencement of the war they would whip us, but that now we whipped them every time, no matter how they fought us. Gen. Sheridan is achieve great things with them during the Sum-mer campaign. If the Government could furnish horses for the number that are dismounted, he would have the finest command in the army.

On being asked if he was satisfied with h command, and with the conduct of the Eastern cavalry, the General quietly replied, "Perfectly perfectly. They have done splendidly. I could have wished for nothing better." General Sheridan is eminently the right man in the right place He is, without exception, the best cavalry commander the Army of the Potomac has ever had. He is quick to perceive and bold to execute, and should be the pride of our citizens to encourage this Assohas already won the entire confidence of his comciation and we feel assured that one concert will awaken mand. them to a true sense of its merits. 10-40 Bonds

These Bonds are issued under Act of Congress of Marsh 8 1884, which provides that all Bonds issued under this Act shall be EXEMPT FROM TAXATION by or under May state or municipal authority. Subscription to these Bonds are received in United States notes or notes of National Banks. They are TO BE REDERMED IN COLN. at the pleasure of the Government, at any period not lies them ten nor more than forty years from their date, and until their redemption FIVE PER CENT. INTEREST WILL BE PAID IN COIN, on Bonds of not over one hundred dollars annually and on all other Bonds semi-annually. The interest is payable on the first days of March and September in each year.

Subscribers will receive sither Registered or Coopen Bonds, as they may prefer. Registered Bonds are recorded on the books of the U. S. Treasurer, and can be transferred only on the owner's order. Coupon Bonds are payable to . bearer, and are more convenient for commercial uses.

Subscribers to this loan will have the option of having their Bonds draw interest from March 1st, by paying the accrued interest in coin-(or in United States notes, or the notes of National Banks, adding fifty per cent. for premium.) or receive them drawing interest from the date of subscription and deposit. As these Bonds are EXEMPT FROM MUNICIPAL OR STATE TAXATION,

their value is increased from one to three per cent. per CEDAR and WILLOW-WARE, anuum, according to the rate of tax levies in various parts of the country."

At the present rate of premium on gold they pay OVER EIGHT PER CENT INTEREST in currency, and are of equal convenience as a permanent

or temporary investment. It is balleved that no securities offer so great induc ments to lenders as the various descriptions of U.S. Bonds In all other forms of indebtedness, the faith or ability of private parties or stock companies or separate communities only is pledged for payment, while for the debts of the United States the whole property of the country is holden to secure the payment of both principal and interest in

These Bouds may be subscribed for in sums from \$50 up to any magnitude, on the same terms, and are thus made equally available to the smallest lender or the largest capitalist. They can be converted into money at any moment and the holder will have the benefit of the interest.

It may b useful to state in this connection that the total Funded Debt of the United States, on which interest is payable in gold, on the 3d day of March. 1864, was \$768.-965,000. The interest on this debt for the coming fisca year will be \$45,937,126, while the customs revenue in gold for the current fiscal year, ending June 30th, 1864, has been so far at the rate of over \$100,000,000 per annum. It will be seen that even the present gold revenues of the Government are largely in excess of the wants of the Treasurer for the payment of gold interest, while the recent increase of the tariff will doubtless raise the annual receipts from customs on the same amount of importations. to \$150,000,000 per annum.

Instructions to the National Banks acting as loan agents were not issued from the United States Trensury until March 26, but in the first three weeks of April the subscriptions averaged more than TEN MILDIONS A WEEK Subscriptions will be received by the FIRST NATIONAL BANK OF ALTOONA. First National Bank of Philadelphia, Pa. Second National Bank of Philadelphia, Pa. Third National Bank of Philadelphia, Pa., AND BY ALL NATIONAL BANKS which are depositaries of Public money, and all
