managers of the two establishments are carrying out their plans. The outfit of the double concern Fast Line Mail Traiu is said to be magnificent in the extreme, a gorgeous chariot, new cages and harnsss, shperb horses, and spiendid trappings combining to produce a most brilliant effect as they move through the country. JUST --- We notice that quite a number of our merchants have agreed to close their establishments at 71 o'clock P. M., each evening of the week except Saturday. This is but a simple act of justice on the part of the merchants toward their clerks and salesmen. Men who are confined to salesrooms from early morning until 71 o'clock P. M., ought to have the remainder of Superior to any Hair Dressing in use. Oils and Colors the Hair at thesame time. Changes light and red hair to a beautral brown or black. Sold everywhere. the evening for recreation.

And, at best, it is but useless to keep stores open to a later hour than the one mentioned, for as soon asiour citizens discover the change, they will make their arrangements to lay in their supplies earlier in the day. We hope that every merchant in town will follow the good example of those gentlemen, who have taken the lead in this noble reform. : See advertisement in another column.

U. S. 10-40 Bonds

These Bonds are issued under Act of Congress of March 8 1864, which provides that all Bonds issued under this Act. shall be EXEMPT FROM TAXATION by or under any state or municipal authority. Subscript on to these Bonds are received in United States notes or notes of National Banks. They are TO HE BRDEEM &D IN COIN, at the pleasure of the Government, at any period not less than ten nor more than forty years from their date, and until their redemption FIVS PER CENT. INTEREST WILL BE PAID IN COIN, on Bonds of not over one hundred dollars annually and on all other Bonds somi-annually. The interest is payable on the first days of March and September in each year.

Subscribers will receive either Registered or Coupon Bonds, as they may prefer. Registered Bonds are recorded on the books of the U. S. Treasurer, and can be transferred only on the owner's order. Coupon Bonds are payable to bearer, and are more convenient for commercial uses.

Subscribers to this loan withhave the option of having their Bonds draw interest from March 1st, by paying the accrued interest in coin-(or in United States notes, or the notes of National Banks, adding fifty per cent. for premium,) or seceive them drawing interest from the date o

subscription and deposit. As these Bonds are and will keep on hand an assortment from which sny person will be able to select an article to pelase their face. EXEMPT FROM MUNICIPAL OR STATE TAXATION,

> their value is increased from one to three per cent. per annum, according to the rate of tax levies in various parts of the country.

At the present rate of premium on gold they pay OVER EIGHT PER CENT INTEREST in currency, and are of equal convenience as a perman or temporary investment.

It is believed that no securities offer so great induc ments to lenders as the various descriptions of U.S. Bonds In all other forms of indebtadness, the faith or ability o private parties or strck companies or separate communitie only is pledged for payment, while for the debts of the United States the whole property of the country is holden **1**ODFREY WOLF has achieved one to secure the payment of both principal and interest in coin.

These Bonds may be subscribed for in sums from \$50 u to any magintude, on the same terms, and are thus made equally available to the smallest lender or the largest capitalist. They can be converted into money at any moment and the holder will have the benefit of the interest.

It may b useful to state in this connectio that the tota Funded Debt of the United States, on which Interestis navable in gold, on the 3d day of March, 1861, was \$768. 965,000. The interest on this debt for the coming fisca year will be \$45,037,126, while the customs revenue in gold for the current fiscal year, ending June 30th, 1864, has

een so far at the rate of over \$100,000,000 per aunum. It will be seen that even the present gold revenues of the Government are largely in excess of the wants of the Treasurer for the payment of gold interest, while the recent increase of the tariff will doubtless raise the augual NOW IS THE TIME TO BUY YOUR receipts from customs on the same amount of importations. to \$150.000.000 per annum.

Instructions to the National Banks acting as loan agents vere not issued from the United States Trensury until March 26, but in the first three weeks of April the subscriptions averaged more than TEN MILLIONS A WEEK

Norming that is not wholfsome, genial and restorative in its nature enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no mineral of any kind; no deadly botanical element; so flery excitant; but it is a combination of the extracts of rare balaamic herbs and plants with the purset and mildest of all diffusive stimulants.

It is well to be forearmed against disease, and, so far as the human system can be protected by human mean against maladies sugendered by an unwholesome atmo phere, impure water and other external causes, HOSTET TER'S STOMACH BITTERS may be relied on as a main guard.

In districts infected with Fever and Ague, it has been ound infallible as a preventive and irredetible as a remedy, and thousands who resort to it under apprehension of an attack, setupe the scourge; and thousands who neglect to avail themselves of its protective qualities in attance, are cured by a very brief conse of this marvelous meni-cine.
