THE DELAY. In consequence of three of our on; on time. Each call for men draws upon our types all of whom appear to be patriotic.

BOROUGH BOUNTY.-We learn that the Town Council of this Borough, in answer to a petition of the citizens, have agreed to pay a local bounty to volunteers, as follows: To one year men \$100; two year men \$200; three year men \$300. Three hundred dollars is the highest bounty that can be paid by corporations, the law authorizing them to lay a tax for that purpose, having fixed that sum as the minimum: This bounty, with the addition of the Government bounty, will give to every person going into the service to the credit of Altoona, the following sums :- for one year \$200; for two years \$400; for three years \$600. We have heard some of our citizens express a willinguess to add to these bounties by individual contributions, where veterans, or persons not liable to conscription, present themselves and agree to go as substitutes. It would be to the interest of the country, as well as the pockets of the veterans who are now returning, should all our citizens of means, who are liable to draft but who do not wish to shoulder a musket, at once to offer an additional individual bounty to veterans, who will re-enlist as their substitutes. This will entirely relieve the person paying the bounty to veterans, who will reenlist, and the army would, most fikely, receive follows: a more valuable accession than if the person had gone himself. In such cases, however, a person not hable to draft must be presented. A number of monied men in the cities are putting in from three to six vereians each, by adding to the local and government bounties, and in one place we hear of the ladies putting in substitutes in the same manner. Let the citizens of Altoona go to work at once and the number of men yet to be secured to

What is the difference between a representative recruit and a substitute furnished before the draft? LET THE SOLDIERS VOTE.

We hope that the friends of the soldiers will not but the ignorant, as those who are using it well know that it is untrue, and that if presented to well informed men would insure them a merited rebuke. The Amendments contemplate no such change in the election laws of the State, and those who are using such arguments to deter the ignorant from conferring a just privilege on meritorious men, are not the friends of the soldier.

our soldiers the right to vote in the army. It may be said that fraud will be practised. Is not fraud practised at home? The men who will hold the election in the army are sworn to perform their duty correctly, and we are loth to believe that their oaths will not be held as sacred as those of cirizens at home. Other than this there can be no objections. All other arguments are in their favor, and we hope our citizens will turn out on that day and fence of their own and our homes and liberties. that we are not disposed to deny them the dearest right for which they are now making so office. great a sacrifice.

1864, which provides that all Bonds issued under this Act shall be EXEMPT FROM TAXATION by or under any state or municipal authority. Subscription to these Ronds are received in United States notes or notes of National Banks. They are TO BE REDEEMED IN COIN, at the pleasure of the Government, at any period not less than ten nor more than forty years from their date, and until their redemption FIVE PER CENT. INTEREST WILL BE PAID IN COIN, on Bonds of not over one hundred dollars anunally and on all other Bonds semi-annually. The interest is payable on the first days of March and September is each year.

Subscribers will receive either Registered or Coupon Bonds, as they may prefer. Registered Bonds are recorded on the books of the U. S. Treasurer, and can be tamaserred only on the owner's order. Coupon Bonds are payable to bearer, and are more convenient for commercial uses.

Subscribers to this lean will have the option of having their Bonds draw interest from March 1st, by paying the accrued interest in coin-(or in United States notes, or the notes of National Banks, adding fifty per cent. for premi um,) or reseive them drawing interest from the date o subscription and deposit. As these Bonds are EXEMPT FROM MUNICIPAL OR STATE

TAXATION. their value is increased from one to three per cent. pe annum, according to the rate of tax levies in various parts

of the country. At the present rate of premium on gold they pay OVER EIGHT PER CENT INTEST in currency, and are of equal convenience as a permane

or temporary investment. It is believed that no securities offer so great induce ments to lenders as the various descriptions of U.S. Bonds In all other forms of indebtedness, the faith or ability of private parties or stock companies or separate communities only is pledged for payment, while for the debts of the TER'S STOMACH BITTERS may be relied on as a major United States the whole property of the country is holden guard. to secure the payment of both principal and interest in

and the holder will have the benefit of the interest.

It may b useful to state in this connection that the total Funded Debt of the United States, on which interest is payable in gold, on the 3d day of March. 1864, was \$768,-965,000. The interest on this debt for the coming fisca vear will be \$45.937.126, while the customs revenue in gold for the current fiscal year, ending June 30th, 1864, has been so far at the rate of over \$100,000,000 per annum. It will be seen that even the present gold revenues the Government are largely in excess of the wants of the Treasurer for the payment of gold interest, while the recent increase of the tariff will doubtless raise the annual receipts from customs on the same amount of importations to \$150,000,000 per annum.

Instructions to the National Banks acting as loan agents were not issued from the United States Treusury until March 26, but in the first three weeks of April the subscriptions averaged more than TEN MILLIONS A WEEK

HOSTETTER'S **CELEBRATED** STOMACH

STOMACH, LIVER AND BOWELS. Cures Dyspepsia, Liver Complaint, Headache, General Debility, Nervousness, Depression of Spirits, Consti-ation, Colic, Intermittent Fevers, Cramps and Spasms, and all Complaints of either Bex. arising from Bodily Weakness, whether

inherent in the system or produced by special causes. Norming that is not wholesome, genial and restorate its nature enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains

o mineral of any kind; no deadly botanical element; no flery excitant: but it is a combination of the extracts of rare balsamic herbs and plants with the purest and mild-It is well to be forearmed against disease, and, so far as the human system can be protected by human means

against maladies engendered by an unwholesome atmoound infallible as a preventive and irresistible as a reme-

dy, and thousands who resort to it under apprehension of These Bonds may be subscribed for in sums from \$50 up to any magnitude, on the same terms, and are thus made equally available to the smallest lender or the largest capitalist. that dangerous alkaloid, are not unfrequently restored to nealth within a few days by the use of HOSTETTER'S BITTERS.

BITTERS.

The weak stomach is rapidly invigorated and the appetite restored by this agreeable Tonic, and hence it works wonders in cases of Dyspresia and in less confirmed forms of Indostrion. Acting as ; gentle and painless apperient, as well as upon the liver, it also invariably relieves the Constitation superinduced by regular action of the digestive and secretive organs.

Persons of feeble sabit, liable to Nerrous Attacks, Losens; of Spirits and Fits of Languar, find prompt and permanent relief from the Hitters. The testimony on this point is most conclusive, and from both sexes.

The agony of Billious Colic is immediately ascuaged by a single dose of the stimulant, and by occasionally resorting to it, the return of the complaint may be prevented.

As a General Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed below they can be fully appreciated. In cases of Constitutional Weakness, Premature Decay and Debility and Decrepticate and acting from Old-Ass, it exercises the electric influence. In the convalencent stages of all diseases it operates as a delightful invigorant. When the powers of nature are relaxed, it operates to re-enforce and re-establish it.

Last, but not least, it is The only Safe Simulant, being manufactured from sound and inaccuous materials, and entirely free from the acid elements present more or less in all the ordinary tonics and stomachics of the day.

No family medicine has been so universally, and, it may be truly added, descreedly popular with the intelligent portion of the community, as HOSTETTER'S BITTERS.
