lu order to secure funds to pay bounty to volun-In order to secure junce to pay bounty to volun-teers to fill the quota of Altoona, the Borough Council have prepared proper Bonds, in accor-dance with the Act of Assembly, approved March 25th, 1864, which they are now ready to fill up 25th, 1804, which, they are now leady to fill up to any amount from \$25 up to \$1000, or over. The Bonds bear, six per cent. interest and are redeemable in one, two and three years, and the interest and principal will be paid in legal tender. There can be no scruples whatever as to their security, the property of the town being

dged for their redention. Between \$12,000 and \$14,000 are yet required pledged for their red to pay volunteers to fill the quota, and now, while men ate offering, is the time to secure that end; these Bonds must be immediately

taken up, or the work already done will avail nothing, and the draft go on. Every man liable 19 the draft, married or single, property holder or not, should feel it his duty gle, property nonce or not, should be it his duty at once to contribute to this fund by taking up one of the Bonds, for whatever amount he uay, or even borrow. Alicona, Aug. 17th, 1864. The above so plainly presents the duty of every citizen liable to draft, that it seems scarcely

necessary that we should add anything thereto, ver we take the occasion to urge upon all an immediate and liberal response to the call of the Council. Especially should the young men of the town, who are enrolled, jump at such an offer to secure themselves from the liability of a draft .--They have scarcely any taxes to pay, and the taking of a \$50 or \$100 Bond, even though it should never be paid, is the cheapest possible way in which they can escape the draft. They should not flatter themselves that old men, not liable to the draft, who have property to be taxed, will submit to that tax and loan their money on these Bonds also, all for the accommodation of young men, liable to the draft, who have no taxes to pay, who give themselves little concern about it. A considerable portion of the money raised to pay bounty to avoid the last draft was contributed by men not liable to the draft, and if the young men

would be helped again they must evince a willingness to help themselves. THE QUOTAS .- We confess our inability to give an explanation of the wide difference between the quotas of the towns of Altoona and Hollidaysburg.
