LOCAL INTELLIGENCE.

A Branch of one of the Pittsburg banks has been opened in Hollidaysburg. If it winds up as did the one we had in this place, the Bellefonte folks will have good reason to wish it in a smokier place than that where the mother bank is located.

We clip the above from the Hollidaysburg *Standard*, the editor of which is either moved by malevolence, or is ignorant of the firm to which he alludes, either of which is a sad defect in a controller of a newspaper. "The branch of one of the Pittsburg banks" located in Bellefonte, is in the hands of known respectable and responsible business men, while the cashier, Mr. Murray, has an unsullied reputation for intelligence and integrity. Thus far the "branch" has not only been appreciated, but has proved a benefit to the people.

A LARGE MEETING of the friends of the Tyrone and Clearfield Railroad was held at *Clearfield on the* 20th ult. Hon. J. P. Hoyt was chosen President, John Patchin and Jas. E. Graham, Vice Presidents; and D. W. Moore and S. B. Row, Secretaries. Hon. Jas. T. Hale addressed the meeting, and urged the people along the line to make up the amount yet wanting to secure the charter. Before the meeting closed $8000 was subscribed, which, with that before raised, is sufficient to obtain the charter. The prospects for the making of this road are very fair, and the probability is that it will be put under contract during the coming summer.

THE FUSIONISTS, or those who hope to harmonize the turbulent elements of Know-Nothingism, Black-Republicanism, with the shattered remnants of Whiggery, are to hold a Convention in Bellefonte, on the 19th inst. What the result will be, can easily be anticipated—and before the assemblage convenes, we suggest our friend of the *Whig* as usher.

SEVERAL new advertisements appear in our columns to-day among them that of Jos. Schnell, who offers some very excellent cherry tables. He is a good workman and deserves encouragement.

TO THE EXECUTIVE COMMITTEE OF THE CENTRE COUNTY AGRICULTURAL SOCIETY.

The Committee on field crops constituted by the appointment of John Hosterman, of Haines township, and John Bailey, of Ferguson township, to fill the places of Francis Alexander, James Gordon, and Jacob Fisher.

That they have awarded to Amos Alexander, of Penn township, *the premium of two dollars, for "the best one acre of corn"—having produced one hundred and eighty-two* bushels of ears of corn from one acre. The *certificate of the measurement is herewith* presented. No statement of the mode of culture was furnished by Mr. Alexander, as required by the regulations of the Society. The Committee have awarded to Christian Dale, of Harris township, the premium of two dollars for "the best one acre of wheat"—Mr. Dale having produced, as appears from the accompanying certificates on 3A 33p. an average of 11 8-10 bushels per acre.

They have also awarded to Christian Dale, a premium of two dollars for the best one acre of oats having produced them from, as appears by the accompanying certificate 86½ bushels. Mr Dale states that he sowed the oats on corn stubble at the rate of two bushels of seed per acre.

The Committee have awarded to Samuel Gilliland, of Harris township, the premium of two dollars for "the best and *most* timothy hay on one acre of ground," having produced as appears by the accompanying certificate, upon 3A. 47p of land, eighteen tons. Mr *Gilliland's statement of the mode of cultivation* is here presented and made part of this report.

The Commitee would also state that James Gordon, of Walker township, was also a competitor for the premiums on timothy hay, and presented evidence of an amount of product highly creditable to him as a good farmer. Had a second premium been offered, it would have afforded the Committee pleasure to have awarded it to Mr. Gordon. All which is most respectfully submitted.

JOHN BAILEY,

Bellefonte, Jan. 27, 1856.

I hereby certify that I measured a piece of land on which Christian Dale raised oats the past season, containing one acre, no more nor less. WM. G. WARING.

Oct. 9, 1855.

I certify that I assisted Christian Dale, to take in the oats from the measured acre, and to thrash them, and that the quantity of grain was sixty-six bushels and one peck, and I believe that the whole field of twelve acres would have averaged as much and probably more. JOSEPH EVY.

This is to certify that we were present at the measuring of one acre of corn, raised on the farm of James Alexander, and also helped to measure the corn, that came off of said acre of land which was one hundred and eighty-two bushels, (182) Witness our hands at Penn township, Centre co., Pa,

I hereby certify that I measured a piece of land on which Christian Dale raised a crop of wheat the past season, and the quantity of land was three acres and thirty-three perches, and no more. WM. G. WARING.

Oct. 9, 1855.

We certify that we assisted Christian Dale in harvesting, threshing out and measuring his crop of Genesee wheat, grown on the measured three acres and thirty-three perches, and that the quantity of grain was at the rate of forty-one and one-eighth bushels per acre. WM. J. DALE,
JOSEPH EVY.

I hereby certify that I measured the field on which Samuel Gilliland grew a crop of timothy hay the past season, and that the whole content is five acres and forty-seven perches. WM. G. WARING,

Jan. 25, 1856.

We, the undersigned, certify that we assisted Mr. Gilliland in cutting and taking in his timothy hay, and that it grew upon the field measured by Wm. G. Waring and found to contain 5 acres, and 47 perches, that the whole amount of the crop was eighteen tons, or nearly 3¼ tons per acre.

ISAAC TRESLER,
JOSEPH R. BAIRD.

The manner in which the above named lot of ground was farmed, is as follows:—In April, 1853, it was sowed with oats, at the same time I sown half bushel timothy seed, and one peck clover seed. The first week, July, 1854, I cut about two tons hay to the acre. As soon as the hay was taken from the ground, I gave about one-half of the lot a heavy dressing of barn-yard manure, the first and second weeks of July, 1855, I cut and housed 18 tons of hay. The lot was sown with plaster in the month of April of each year.

REPORTED WEEKLY FOR THE DEMOCRATIC WATCHMAN, BY WM. J. KNISLEY.

BELLEFONTE, March 4

In corroboration of the statement in the *Democratic Watchman* of last week, the following extract from the New York *Herald* of February 28th, is given:

"At home, every thing points to good times. Since the month of February 1853 we must have received from California full one hundred and fifty millions of gold, of which we have exported little over one hundred millions. Fifty millions have remained here; swelling the stock of specie to that amount.

"The heavy fall of snow which has extended from Canada to south of Mason and Dixons' line, ensures us—unless some unforseen disaster should occur—a bountiful crop. Farmers are confident that this year's crop will be even greater than that of last year."

In the face of the large amount of gold in the country, we are still overrun in this section with relief bills, and foreign small bills. Is it not time that something was done? Every shop-keeper must be a walking counterfeit detector. The time has gone by when it can be said that we cannot do without this kind of money. It is not a new argument to say, that for every dollar of such trash as we are now troubled with, driven out of circulation, we will have a gold dollar. We are flooded with foreign money, hailing from Maine to Wisconsin. Why? Because some person or persons are interested in its circulation, and get it cheap. A foreign note is not good to pay a tavern bill on the other side of the seven mountains. It will not be taken in payment of freight or passage on the Pennsylvania Railroad, and is looked on with distrust in Lewistown.

Our relief bills are good to pay taxes and ought to be good for their face, but there is so much danger from counterfeiters, and the majority of them are in such a dilapidated condition that it is time some thing should be done to relieve the community of this medium.

J. R. Snowden, treasurer of the Mint, recommends gold as a substitute for small bills.

—The markets has been exceedingly dull for all kinds of breadstuffs for the past week, owing to the state of the roads, and the dealing in prices. Farmers do not seem willing to take the prices offered, and a large quantity of grain has been received in store, and to be settled for on the presentation of receipts.

Flour has been selling at $8.00 to $9.00 per bbl. Wheat $1.00 to $1.65 as to quality. Rye—small lots sold as low as 62½cts. cash, and as high as 75cts. Corn sold at 45cts. in the car, oats 28 to 31cts. Eggs 15 cents per dozen. Tallow 11cts. cash. Lard 10 cents

There is a still further decline in breadstuffs in the Philadelphia and New York markets since last week's report.

☞ FITS! FITS! FITS!—Persons laboring under this distressing malady will find Dr Hance's Epileptic Pills to be the only remedy ever discovered for curing Epilepsy or Falling fits. These Pills possess a specific action on the nervous system; and although prepared especially for the purpose of curing Fits they will be found of especial benefit to all persons afflicted with weak nerves, or whose nervous system has been prostrated or shattered from any cause whatever. The dyspeptic patient, whose stomach has lost the power of duly converting food into a life-sustaining element, is relieved by a single course of the extraordinary Pills. The gastric fluid re-acquires its solvent power, and the crude nutriment which was a load and a burden to the sufferer, while his digestive organization was paralyzed and unstrung, becomes under the wholesome revolution created in the system, the base of strength, activity and health

☞ Notice. Because of a modification of the plan of the College Building for the Farmers' High School of Pennsylvania the time for allotting the work has been postponed until THURSDAY, the 13th day of March next, up to which time proposals will be received for its erection, including all the materials. Bidders are invited to predicate their bids upon the use of brick as well as stone for the building. The plan and specifications, as finally adopted by the Committee, may be examined at any time after the 20th of February, last., at the office of the State Society in Harrisburg, by application to Henry Gilbert or A. STEAM UP IN MILESBURG.—THE Marble speculators at Lock Haven are in a great panic about my invention of enamelling letters on marble; they are satisfied it will make all botch work more conspicuous. That is a fact; for all lettering out mush be engraved in the finest style and well formed. It has outstripped the fiddling agents, and given them the fever and ague. Be cool, gentlemen. Don't flurry; for your malady may turn into something worse. I can cure you, if you follow my instructions.

My improvement in lettering marble cannot stop; it has taken root, and is blossoming like a rose—There will be erected in the spring in the Bellefonte Cemetery, three sets of Marble Tablets with the enamelled lettering. This is the first of the kind in existence, or in the world, that has ever been heard of.

My steam apparatus is in full operation, and my all orders will be attended to as soon as possible. The people of Centre county can appreciate their own article, and they always do. In purchasing their tombstones. A PARTERAGE,

EMPIRE DAGUERREAN GALLERY.

The blushing flowers fade from earth,
Youth's beauties pass away,
But Earnhart's pictures ever bloom,
To mock at Time's decay.

This Gallery is now opened to the public under the *control of*

J S BARNHART,

With facilities for Daguerreotyping rarely equalled in the country, to secure speed in taking cases; a soft, mellow *tint*, beautifully blended in pleasing tones; a perfect delineation of features and drapery, and the pleasing effect incident to a judicious arrangement of the attitude, are truly objects worthy of no small consideration. Like many other branches of science, the most important requisites can only be *attained by years of practical experience and close* observation. Of such we have had the advantage.

Those who have friends they fondly cherish, should remember disease may soon lay its withering hand upon them. The vital spark of life, that to-day imparts bright anticipations of the future to-morrow may be waning amid the last gloating embers of *mortality*. Why *not secure your* pictures when it is both expedient and economical to do so? We wish not to be under the necessity of transferring your image to a polished surface, in the icy embrace of death. We are often called upon to perform this sad act in memory of the departed but hereafter in no case, will our charge be less *than $10, nor will the pictures of such* as have died of contagious diseases be taken for any inducement whatever.

Pictures inserted in cases of almost every variety of size shape or finish. Also GOLD and GILT LOCKETS kept constantly on hand

A TALE OF THE PURITAN TIMES

By *one of her Descendants* 1 vol. 12mo Price $1.25.

The scene of this Domestic Tale is laid during that religious persecution of the Quakers, which is so deep and sad a stain upon the bright fame of the Puritans. To the charm of absorbing interest as a tale, it adds the attraction of historical accuracy

We have never announced new books with greater *satisfaction* than in the present instance. These are not sensation books. They do not in any respect belong to the "gutter literature" of the day. Though differing widely in plot, purpose and style, they may alike lay claim to fascinating interest, and in adaptation to improve both head and heart

ATTENTION FARMERS, AND ALL OTHERS INTERESTED!

CORN SHELLERS!

The undersigned respectfully informs the Farmers and the public generally of Centre county, that he is now manufacturing the

ROUGH AND READY CORN SHELLER,

One of the best, most convenient, durable, and at the same time, the most *easy* running sheller ever offered to the public. It will shell green and dry Corn, cleaning the cobs from dirt to end, and separating them from the Corn

☞ Warranted to run easier than any other Sheller in the United States or elsewhere, for the quantity of Corn shelled per day. It is constructed with two cranks, so that two persons can turn it, and shell from 300 to 500 bushels per day. It can also be attached to horse power.

Call and see them before purchasing any other, as I am certain you will be satisfied with this

SAINT LAWRENCE HOTEL,
CHESTNUT STREET, PHILADA

This new Hotel is located in Chestnut street, between Tenth and Eleventh, running back to George street, an entire square, with ample room and accommodations for 250 persons.

This Hotel has much to render it attractive to the Traveller, Sojourner and Citizen, being directly opposite the Academy of Fine Arts, Peale's Garden and Saloons, and in one of the most pleasant and fashionable places on Chestnut Street, also in the immediate neighborhood of the Theatres, and other places of amusement

The Rooms are large, airy, and well ventilated—many of them have communicating doors suitable for Families and Parties travelling together. The Furniture is entirely new, and of the most improved style, embracing all the late modern Hotel improvements

Its close proximity to the different Railroads diverging from the city, being only one square distant from the great Pennsylvania Railroad Depot and its central and pleasant location, renders it as desirable for the Merchant, as the Traveller for pleasure. Coaches will always be in readiness to convey passengers to and from the Hotel

The proprietor would also beg leave to give notice, that he will be assisted in the management of this New Establishment, by Mrs M. L. Neely, the late popular Proprietress of the Yellow Springs, Penn., who will have the whole and entire charge of the Ladies' Department, and by Mr George W Mullen, late Superintendent of the St. Charles Hotel Pittsburg, Penna.

Under this arrangement, the Proprietor flatters himself that he will be able to provide for every want, and establish the character and reputation of the House as strictly a first class hotell.

MILESBURG MARBLE WORKS.

M. A. PARTERAGE, SCULPTOR, informs the public that he has now on hand two kinds of Marble work at the shortest notice and on the most reasonable terms. Those who favor him with their orders may rest assured that all work from his establishment will be done in the best style of workmanship. Likenesses will be executed in statue or in bust, as large as life, either in marble or plaster. Likenesses will be carved on Monuments, Tomb Stones, &c., from daguerrean likenesses; also a brilliant discovery of Enamelled Lettering with lava, on Monuments, Tombstones, Door Plates, &c., in every variety of color. The lava is put in by 250 degrees heat, warranted to stand any kind of weather. As I am the inventor of this work, it cannot be performed in any other establishment in Pennsylvania than at Milesburg. There are many orders finished of this brilliant lettering, persons had better call and examine for themselves, and be satisfied that it is the greatest piece of mechanical art that was ever placed in a cemetery off monument or tomb stones, and which will be a fit testimonial to the memory of a departed friend

Any gentleman desirous of having a marble bust I will warrant a most perfect likeness as large as life. There will be no charge if not a perfect piece of sculpture. The operation of the work is, 1st The likeness will be taken by observation in clay, 2d. A cast of plaster Paris. 3d. Then in marble. A mask can be taken after death of any person so that a perfect likeness can be had any future time

Ladies and gentlemen desirous of procuring a good piece of marble work had better send their orders to Milesburg for good work. I have no occasion to send to Philadelphia to bring lambs and figures. I can make them myself.

I will challenge any person in this neighborhood, to execute a better piece of sculpture than Bean for $100. This what the marble Know-Nothing at Lock Haven cannot reach

Premiums at the Centre County Fair for Marble work, Milesburg $200, Lock Haven $200. If the judges had been men of the Marble business, Lock Haven would have been found wanting

As the country has been flooded with an inferior article by persons peddling them round, consequently those who are not judges of sculpture and engraving have been imposed upon, I therefore desire persons who wish to procure durable work to call and examine my workmanship, and satisfy themselves will not prove an eyesore in after times

Thankful for past favors, I hope by strict attention to business, and moderation in charges, to continue to receive a liberal patronage.

Persons desirous of any other style of work, I would highly recommend Mr Sunderland at Lewistown, as I have been thirty years in all the fine art of marble work, he is esteemed one of the best judges

I will bind myself to furnish every description of work 25 per cent better and cheaper than Lock Haven. A. PARTERAGE, Sculptor,

MOSES D. WELLS' HORSE RAKE. Patented August 15, 1854. The subscriber having purchased the manufacture of these celebrated Rakes, in four townships, in Centre county viz: Bonner, Walker, Miles and Spring, is prepared to supply all who may desire the article, at fair and reasonable prices

The operation of these improved Rakes are as follows. The machine is driven forward, and will move on the inclined runners *c*, the governing letter *D*, which is held by the operator, rests on the roller *m*. The rollers *m* rest on the teeth *e e* so that any *vertical movement of the lever D, will cause a move*ment of the main shaft in its bearings, and a corresponding elevation or depression of the front teeth. The rear teeth of the rake are held up by the spring bolts *c*, of the governing lever, consequently a movement of the said lever *D*, causes a revolution of the rollers in reverse directions and a regulation of the elevation of the points of the front teeth

These machines are both time and labor saving, the simplicity of their construction is such, that they can be easily repaired, and all who have used them, speak of them as being the most practical and useful farming utensil they have ever used

☞ The price of a complete rake, finished with a view to strength and durability, is TWELVE DOLLARS

Persons desirous of purchasing any of these Rakes will please call on, or address
