### LOCAL INTELLIGENCE. -

A NORMAL SQUOL, The subject of eduostion in Contro county, is beginning to attract a deserved attention, and we are glad to ubserve that the expectations of their who have given the cause so much attention, are fast being realised. A Normal school, for teaching the higher branches, and for fitting teachers for duty, is now being agitated, and the prospects are that such an establishmen will be permanently located and . successfully conduated in this county. It will be seen by the fol-lowing letter, that the Superintendent gives the subject his hearty support. Ills views and sugges-tions are worth great consideration :

tions are worth great consideration : The toachers of Captive county have, doubtiess, heen jooking forward'us same arrangements being made by which thoy may have the advantage of some Normal establishment within the bounds of the county. Such an arrangement has been effected with Prof. J. J. Burnell, Prinalpal of the Aarons-hurg Acadamy; in consequences of which he is about to oper a Normal Department on the 16th of tae breard month, for the appress focus modation of tae breard month, for the appress focus modation of tae breard month, for the appress focus modation of tae breard month, for the appress focus modation of tae breard month, for the appress focus modation of tae breard month, for the appress focus modation of tae breard month, and how and being to qualify them-selves for the profession. Thes prangements are as computes as the time find means at command would simit of. The citizens of A vanaburg and visinity seives for the profession. These rangements are as complete as the time field means at command would admit of. The clickness of Aronsburg and visinity have entered with spirit into the matter, and are about crossing additions the biddings which will be pressed forward to completion with the less possible delay; and in the mean time, raitable itemporary accommodations have been procured. That special preparation is necessary for the im-portant and influential profession of teaching is not sufficient, but right matheds and feeling in communicating knowledge are also needed. Yet there is a vast idagioney in literary stalamments, to be supplied among a myjority of the teachers is would encouring an amjority of the teachers of centre county, and a still greater district schools. Academics, properly eminuted, are dowling the schools. Academics, properly eminuted, are dowlined to ald those who desire to quality thumshers for the em-glogment of teaching; in well as to accommendate tigose persons who may rish to give their zons a more theoreough education than is ordinarily attain-able in the Common Schools. Such add is train-able in the Common Schools and fight runshers in various ways. Pirst, the course of instruction pursued will carry them to a more advanced stage of scholarity et ally furthers is of descending in various ways. Pirst, the source of carbing the standard attain of what teaching ought to be, and thus ex-plicit to teachers a model worthy of their avid a sintened will nearly furths a good exemptifi-aation of what teaching ought to be, and thus ex-plicit to teachers an model worthy of the is and a sintened will mainly furths a good exemptifi-antion. Thirdly, this one is designed, besides the originary purposes of an Academy, to afford di-rect and specific justruction in the arts and a jence trator et al, cui fa. the ordinary purcety, this one is designed, besides the ordinary purpose of an Academy, to afford di-rest and specific instruction in the art and science of teaching, and he are taken aching, and be not only a model school, but a pal school.

rect and spacific instruction in the art and science of teaching, and be ugi only a model subcol, but a Normal school. If any teachers can make it convenient to attend the large Norm it establishment conducted by Prof. J Bioddard in Lungaster county, we most bearling commend it to their vegaria, as unitentify alapted to the sind proposed. Or if some of the teachers of our county, find it more convenient to spend the summer months at Pine Gröve Academy, as being more convention to their vedences, the Prinelpal of the Academy, J. E. Thomas, has assured me be will give them the advantage of a Normal depart-ment. That a majority of the teachers employed this year, but use some means, and make some special efforts to improve their literary attainment and obtain additional knowledge in the art and sci-ence of teaching, it hey would obtaid certificate. The exercised of the schoole conset is one another - school year, is perfectly evident; and I will add. Indispensible, if they would obtaid certificate. The exercised of qualified teachers, and the pres-ing naccasity of the schoole connect is onger be per-mitted to compet the issuing of cartificates. The teaching the schoole connect the schoole context to a contradient and down or all of the branches to he taught. The down or all of the branches to he taught. The down of all of the branches to he taught. The down of all of the branches to he taught. The down of all of the branches to he taught. The down of the of the branches to he taught. The down of all of the branches to he taught. The down of all of the branches to he taught. The barry of the branches to he taught. The barry of the bars, and the minister for the pulpit. Temporary livelihood. If the the bus the schoole consolition of teaching the always for the bars, and the minister for the pulpit. Temporary livelihood. If we who reserve to the occupation for a fow month as a matter of experiency, and to repletish exhauster funds, are only to be endured as a ne-cestary evil, till a hetter class of professional Wx J Ginson, Supt. Walkar, April 16, 1856

LEWISSING, CENTRE AND BEECH CREEK RALL ROAD COMPANY -The riger with which this Important improvement is being pushed forward, is maandable to those who have that work in bands, and cheering to the people of the country which the road will traverse. Immediate efforts are to be made for its gradation-and as all the supplements have been passed and approved. it will only require the energy of the Directory, and the liberality of people along the line, to socare its speedy com-tion One of these supplements extends the time for finishing the road at three years, and the other gives the Company power to issue \$200,000 in bon1s aid in its construction We congratulate our friends in that section, and trust that they will realously join in an improvement which promises 0885 to develope the great resources and beauty of that part of Centre county.

BURGLARY .- On Tuesday night or Wed-caday morning, the post office was entered, by forcing open the front window, and a package of letters for Philadelphia, eighteen in number, taken The package contained nothing of any value to the thief This has been the second time, within the last few months, that the office has been entered and robbed, and yet it is impossible to conjecture by whom No blame can be attached to the obliging post master, Mr Gook, as he takes every pre-caution to the sufficiential specify transmission of the
