

LOCAL INTELLIGENCE.

BELLEVILLE GAS COMPANY.—By an act of the last Legislature, a company has been incorporated for the establishment of a Gas Company in the Borough of Belleville. The following is the bill, to which we direct the attention of the reader:

An Act, to incorporate the Belleville Gas Company in the County of Centre.

Section 1.—Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania, in General Assembly met, and it is hereby enacted by the authority of the same, That James Irvin, Andrew C. Curtis, Harvey Mann, James Burnside, James T. Hale, Jacob V. Thomas, E. C. Humes, D. L. Pinner, Henry Brereton, H. N. McAllister, William Harris, David Valentine, Abraham Valentine, George T. Tait, George Livingston, John D. Tait, George Potter, and Edmund Blanchard, and all others who may associate with them, are hereby made and constituted a body politic and corporate by the name, style and title of the Belleville Gas Company, and by the same time that they shall have and exercise all the franchises and powers, and be subject to all the restrictions, limitations, and restrictions of an act to incorporate the Lock Haven Gas and Water Company, passed the eleventh day of January, one thousand eight hundred and fifty-four, and every act, law, or ordinance, now in force, or hereafter to be passed, relating to corporations, and to be liable to the Company hereby incorporated as fully and surely as if the same were incorporated in this act, except the names of corporators, and that the word Belleville be in all cases substituted for the word Lock Haven in and after "Provided that" it is enacted, that the said Company may freely avow, prior to the first Monday of January, one thousand eight hundred and fifty-seven, shall be at such times and places as a majority of the corporators above named shall determine; And, Provided further, that nothing in this act shall be construed so as to enable the said Company to intrude its water in the said Borough of Belleville, or of the inhabitants thereof, without consent of a majority of the officers qualified to vote at any Borrough Election thereof.

[Signed by the Speakers.]

Approved the eleventh day of April, one thousand eight hundred and fifty-six.

The men connected with this movement will be seen by the names mentioned in the act of incorporation, have a reputation for judgment and integrity—and the manner in which they have brought their enterprise before the public, deserves more than a passing notice. Belleville is a growing borough. We possess more of the elements of greatness than any other part of the State—that is, natural greatness, which may be developed by our own genius and industry. The bituminous coal which lies unused at around us, is admitted by scientific well to be the best agent for the manufacture of gas in the county. The rapid communication of the factories, mills, and increasing population, promising to be augmented by the contemplated railroad improvements, will soon render the erection of Gas Works in Belleville a matter of necessity than profit.

To show the cost, and the convenience to be derived from the introduction of gas, we publish the following letter from one of the first architects in the country. His letter speaks for itself;

PHILADELPHIA, April 24th, 1859.

I received your favor last evening requesting the cost of Gas Works.

The cost of the Gas Works (Lancaster County) Gas Works cost \$75,000, with three miles of street pipe of 12" diameter, 70 feet by 32 feet wide, coal and lime shells, 22 feet by 56 feet, storage holder 49 feet in height, and will contain 20,000 cubic feet of gas. There are about 200 houses, each holding about 20 cubic feet of gas in 24 hours. In the above cost no houses are 100 feet included. We have had since their erection 1700 feet additional in and put in 50 additional metres, which cost \$100,000. So that the whole cost invested is about \$100,000 which is now yielding 7% per cent., and is gradually increasing.

Good works for four returns which would be effected from 12,000 to 14,000 cubic feet in 24 hours, and one mile of street main of suitable size, besides 55 metres and service pipe from the street to the house, will cost from \$12,000 to \$15,000 of gas, could be made for the sum of nineteen thousand dollars.

With such an exposition of the cost, and a knowledge of the natural advantages by which the borough surrounded, it is to be hoped that there is sufficient enterprise and liberality in our midst to "give us light."

TESTIMONIAL OF RESPECT.—At a called meeting of the Bald Eagle Lodge, No. 410, I.O.O.F., held at Milesburg, Pa., April 10, 1859, a committee was appointed to draft resolutions expressive of the sense of the Lodge, upon the death of one of its members, Brother Sam'l M. Lush, who departed this life the 14th inst. The committee presented the following:

Whereas, it has pleased Almighty God, the Great Author of our being, in his almighty providence, to remove from our midst our well beloved brother, Samuel M. Lush, who was one of the most zealous members of the order in this place, and one who never deviated from his obligations as an Old Fellow. The cause to which he was so firmly attached has lost a true advocate, the community a worthy citizen, his aged parents a dutiful son, his brothers and sisters a devoted brother, his friends a dear relative, one whose place cannot be filled; but what appears to be an insuperable loss to us, is indeed to him everlasting gain. Therefore:

Resolved, That while in deep humility we bow to the dispensations of our Heavenly Father, possessing in ourselves no power to avert the fatal hand of death or disease, we may yet emulate the virtues of the dead, whom it was our pleasure in time past to greet as a brother and friend; one who in all the varied relations of life, so truthfully exemplified those noble principles of our order, "Friendship, Love, and Truth," all around him.

Resolved, That the members of Bald Eagle Lodge, No. 410 by this means express our deep and heartfelt sorrow at the mournful bereavement which has vacated the place of a warm hearted brother, whom the bloom of youth was called from this world of trials and troubles to one of certain and continued happiness, beyond the vale of death.

Resolved, That the Secretary cause a copy of these resolutions to be forwarded to the bereaved relatives; and also to the papers of the county, with a request to publish.

JAS. S. HALL,
A. S. DAVIDSON,
E. LIPSON,
Committee.

For the benefit of Col. May, and the enlightenment of our readers, we publish in our advertising columns, a dialogue reported by a key-hole besieger. We can touch for the truth of the conversation, and hope that our reporter will continue to furnish us and our readers with similar useful information.

New Clothing Store.—J. Montgomery & Son, have opened a ready made clothing establishment at the north-east corner of the Diamond. Their practical experience as tailors and tailors, and the large stock which they offer to the public, will make their establishment popular and profitable.

Tay Rock's Ice Cream.

A DARING OUTRAGE.—On the 19th of February last, a most daring outrage was committed upon the person of Rev. William Gilian, a German priest, while travelling in the Kurhaus stage, which for malignity and brutality, exceeds any assault which we have heard of. While riding peacefully in the stage, and while in the act of reading his breviary, the book was struck from his hands, and he himself thrust from the stage. He was seized, thrown to the ground, and a bottle of whiskey held to his mouth, and the liquor literally poured down his throat. After the scoundrels had accomplished their work, they compelled their victim to pay a dollar for the drink, and then shouted for what they called "a Know Nothing triumph." One of the parties concerned was the driver, Jeremiah Winsworth, who has since made his escape. The names of the others, four in number are unknown to us, but we hope they will be speedily brought to severe punishment.

The new store of Reynolds & Co. will be opened in a few days with a large and splendid assortment of goods suitable for the season, which will be sold at such prices as will command the attention of buyers.

PROMISES TO FARMERS.—The New York State Agricultural Society offer a premium of \$75 for the most satisfactory experiments in the application of all the recognized fertilizers to five acres of Indian corn, each specified fertilizer being applied to a carefully measured rod of land, and a full record of the tillage and its results submitted to the Society before the 1st of February next.

Also, \$50 for the best, and \$30 for the second best cultivated farm of not less than 50 acres, (excluding wood and waste,) devoted mainly to grain growing.

Also, \$50 for the best, and \$30 for the second best farm of like dimensions, devoted mainly to grazing and the dairy.

Learn in mind that simply growing a great crop, without keeping accurate notes of the process and expense, will not secure a premium, as it will not agree to show others how such crops may be grown.

SATORI DODGAS.—The Washington correspondent of the Baltimore Sun says:

"Hon. Judge Douglas has arrived to the Baptist congregation of Chicago, Illinois, ten acres of land—a grave—beautifully situated within the city limits, for the purpose of erecting thereon a university—with a condition that the trustees shall lay the foundation of the edifice during the approaching fall, and spend annually toward the building \$25,000 until completed. The value of the land is estimated at \$50,000. The Judge has also made a handsome donation to the new Tenth street Baptist church in Washington city."

We have a rumor that Senator B. P. of Tennessee, will resign his seat in the United States Senate, during the month of June next, on account of impaired health, thereby giving the Legislature an opportunity to elect his successor.

DIED.

On Thursday, April 17th, in Indiana town ship, Mr. DAVID MILLER, in the 73rd year of his age.

E. W. WINSWORTH, Lawyer and Minister of Religion, by Dr. L. H. C. Gaskins, Gaskins' Warranted not to suffer injury to the skin. Price \$1.00 per Package, or for \$2.50 sent to any part of the country, by mail, or in a remittance. At Fred St. L. & Co., Box 739 Post Office, Baltimore, Maryland.

MEN'S INVESTIGATIONS.—We know of no reason that deserves or is destined to occupy a high place in the temple of fame than the discovery or invention of the Vegetable Lipotic Pill, for curing Liposarcoma, Falling Fists, Sprains, Cramps, and all the various maladies of persons. See Dr. H. C. Gaskins, 102 South Main Street, Baltimore, Md., the inventor, is as lately entitled to the best, width of all the benevolent portion of mankind, who experience a physical ease by the assistance of human suffering. When Dr. Hance first prepared these Pills, he tried them on many, and they did not succeed, but he did not give up, and after a dolorously proved to him, that in addition to their remarkable curative properties, in this class of disease, they exerted a positive control over the entire nervous system. He was then induced to try them in cases of Neuralgia, Tremor, Epilepsy, Paroxysms, Hydrocephalus, Menier's Disease, and a host of minor diseases, sprained ligaments, lack of nervous energy, in all of which his application were crowned with the most singular success. Persons at a distance, by writing and sending a letter to Dr. H. C. Gaskins, 102 South Main Street, Baltimore, Md., in their post office address, by paying the postage. The prices are for a single box, \$2, two boxes, \$5; or three per dozen.

WE HAVE A RUMOR THAT SENATOR B. P. OF TENNESSEE, WILL RESIGN HIS SEAT IN THE UNITED STATES SENATE, DURING THE MONTH OF JUNE, AND THAT THE LEGISLATURE WILL ELECT HIS SUCCESSOR.

BY INDUSTRY WE PROSPER.

ATTENTION FARMERS, AND ALL

ATTENTION SHIELERS.
