THE CENTRE COUNTY DRAGOONS.—This well drilled troop, under the command of Capt. R. D. Cummings, paraded on Monday last, in full uniform. Their appearance elicted general admiration—and their drill evolutions showed that they are under admirable discipline. They were accompanied by the Bellefonte Band, who enlivened the scene of drill with some very splendid national and military airs. This Band is one of the best in the State—indeed, so far as our judgment goes, we never heard a better organized company of musicians.

NEW ADVERTISEMENTS.—Our advertising columns will be found to be particularly interesting, and we refer our readers to many of them, as offering important business information.

The advertisement of T. R. Reynolds con-

TAKE A PAPER FOR YOUR WIFE.—A friend, says an exchange, told us a story in relation to one of our subscribers, which contains a good moral for husbands, and also furnished an example for wives which is not unworthy of imitation under similar circumstances:

The subscriber referred to, said it had been his intention to call at the office, pay up his arrears, and discontinue the paper.

His wife very promptly asked:

"Why do you intend to discontinue the paper?"

"Because," said the husband, "I am so much from home on business, and have so little time to read, there seems to be little use in my taking the paper."

"Yes," replied she, "it may be but little use to YOU, but it is great use to ME. I remain at home while you are gone. If you discontinue the paper I will go straight to town and subscribe myself."

EPILEPSY, OR FALLING FITS.—We believe we cannot do our readers a more important service, than by again calling their attention to that *most* remarkable preparation discovered by Dr Seth S Hance, of Baltimore, Md., which possesses the power of alleviating and curing that horrid visitation of man—Epilepsy, or Falling Fits. In recommending *this preparation* to our readers, we do so with a conviction that we are not degrading our columns to puff a common patent medicine, but are placing before them a discovery, which, if fully known, would probably do more to alleviate human suffering, than any invention of modern times Dr Hance, in asking us to notice his preparation favorably in our *editorial* department, has sent us for perusal a number of letters from persons who have used his pills and have been cured thereby All of them speak in the most grateful and eulogistic terms One great advantage this medicine possesses is the fact, that it can be transported through the mails, thereby affording every one an opportunity of dealing *directly with the inventor*, and also precluding all possibility of being imposed on by a counterfeit or spurious imitation. Dr Hance pays the postage on his pills to any part of the country, and will forward them by return of mail, on the receipt of a remittance. His prices are as follows: One box, $3; two do, $5; three do, $7. All orders for medicine should be addressed to Seth S Hance, 103 Baltimore st, Baltimore, Md

ap30 DANIEL DERR.

A TWIST CUT RIFLE, MADE AND for sale by DANIEL DERR.

A FARM WITHIN THE REACH OF EVERY MAN.—27,000 ACRES OF FARM and COAL LAND in Elk county, Benzingor township, Pennsylvania, for sale, giving a farm of 25 acres, for $200, payable in instalments of $1 per week, or at the same rate monthly. Farms of 50, 75, 100, or more acres adjoining in proportion. Each farm fronts upon a road thirty feet width.

THE SOIL is a rich limestone loam, and especially adapted to cultivation, as it is neither hilly nor stony, but gently rolling or fine table land. Around and through this property there are already some 20,000 acres under cultivation, and its fertility has been established from the crops produced. Upon this subject it is easy to be fully satisfied. There is a ready cash market for produce which is much better than trade. It is the CHEAPEST, as land of a similar quality is selling at much higher prices adjoining, and especially such as contains coal.

THE COAL.—This in particular is the Coal District, several veins underlaying the whole property, *and the attention of miners, and those acquainted* with coal lands, is specially called to it. It has the advantage of being the NEAREST to the great lake market, with which it will be connected by the Sunbury and Erie Railroad now under contract and in course of completion from Erie to Ridgeway, with descending grade the whole way. The *bituminous coal is the best, for instance England and* other countries. The drive per acre is trifling for the COAL ALONE, as it will certainly, in so favorable a location within a short time pay largely. This is important as an immense coal trade will soon open Four coal companies have already been started to work mines in the vicinity, and there are now fifteen openings *and St. Mary's.*

THE TIMBER, Stockholders also receive,—TIMBER or COAL. It is very valuable, and will pay for a great part of the land. On account of the excellence of streams there are fine opportunities for mills.

FOR HEALTH, the location is much recommended by physicians. The chills and fevers are unknown, also pulmonary complaints, being protected from the north-east winds by the Alleghanies. The water is pure and amongst the best, the land abounding in fine springs.

FOUR RAILROADS will shortly be completed connecting it by a DIRECT communication with New York, Philadelphia, Pittsburg, Erie, Buffalo, and all the cities on the Lakes They are Sunbury and Erie, the Allegheny Valley, the Pittsburg and Buffalo, and the Venango. Energetic exertions are also being made for the building of the Tyrone and Clearfield, which also passes through this property The effect of this upon trade, and general development, as well as the coal may be imagined.

The large and flourishing town of St Mary's in the centre of the tract, numbering near 3,000 inhabitants. It has hotels, good public schools, saw and grist mills, stores well stocked with everything desired There are 235 half-acre lots in the town of St. Mary's, which will be sold and the proceeds equally divided amongst those who buy farms. Ridgeway is the county seat, where an extensive business is done, adjoins the tract on the west The whole district is intersected by good turnpike, and other roads

This is a rare opportunity offered to those who wish to farm or have a good investment for the future. By making proper inquiries, and considering the advantages of good soil, an abundance of coal, healthfulness of climate, railroad facilities, and its location, a correct judgment may be formed of its present advantages and *ultimate increase*

By writing to the office directions will be given to those who wish to visit the land. A system of excursions will shortly be adopted There is an excellent opening for various branches of mechanical business, especially tanneries, wheelwrights, axe handle makers, shoemakers, carpenters and others

☞*Farms can be bought by enclosing the first instalment.* Ladies can hold shares in their own right Title is unquestionably good, and warrantee deeds given Address or apply to SAMUEL W. CATTELL, Secretary, 135 Walnut street, between Fourth and Fifth streets, *Philadelphia*

HONOR OF COUNCIL OF ST MARY'S TO THE PUBLIC

This is to certify that, having been over the tract owned by the Ridgway Farm and Coal Company, and given it a thorough examination, we find the representations of that Company to be correct We find the soil to be the most fertile—the Coal and Iron Ore to be in inexhaustible quantities through the whole district—the farms in excellent order, and the intelligence and prosperity of the people to be of the most gratifying character We know that there is no healthier location in the State, and we consider it a most desirable place of settlement. We make this declaration, as we believe there may be many persons who are unacquainted with these lands, and we are satisfied, from our knowledge of the subject, that information upon it will be a public benefit

I have purchased and used one of the Corn Shellers manufactured by Dan'l Derr, called the Rough and Ready Corn Sheller, and unhesitatingly pronounce it one of the best in use It runs very easy, and shells more corn in a short space of time than any other machine I have ever met with.

Having examined and tried the patent Rough and Ready Corn Shellers, manufactured by Mr. Daniel Derr, Bellefonte, I find them to be practical and useful in every respect. The corn which I shelled was green and full of milk, but the Sheller parted every grain from the cob in a manner which could not possibly have been done by hand I freely recommend these machines to the farmers of Centre county. A HUMAN LIFE SAVED

J. A. Rhodes Esq

Dear Sir—As I look upon medicine to sell on consignment, as one cure me pay, I take pleasure in stating the effects as reported to me by three brothers who live in this place, and their testimony is a fair specimen of all I have received

W. S. Conklin told me—"I had taken nine bottles of Christie's Ague Balsam, and continually run down while using it until my lungs and liver were congested to that degree that blood discharged from my mouth and bowels, so that all thought it impossible for me to live through another chill The doctors did all they could for me, but thought I must die Nothing did me any good until I got *Rhodes' Fever and Ague cure*, which at once relieved me of the distress and nausea at my stomach and pain in my head and bowels, and produced a permanent cure in a short time"

H M Conklin says "I had been taking medicine of as good a character as we have in our county, and taken any quantity of quinine and specifics without any good result, from the 25th of August to 17th of December But seeing how nicely it operated on my brother, I got a bottle of RHODES' FEVER AND AGUE CURE, which effected a permanent cure by using two thirds of a bottle"

I, S. M Conklin was not here, but both the other brothers say his case was the same as H. M's. I sold the medicine to both the same day, and the cure was as speedy from the same small quantity and I might so specify Yours with respect,

A HUNTINGTON.

The above speaks for itself Good proof as it is, it is of no better tenor than the vast number of like certificates I have already published, and the still greater amount that is continually pouring into me

One thing more Last year I had occasion to caution the public in those words "I notice one Ayre who have taken one of my general circulars, substitute the name of their institution for my medicine, and then with brazen impudence send their pamphlet with the exclamation, "Let the proprietor of any other medicine say as much if he dares" I think I can pleasure in saying that the caution referred to the name "Dr. Christie's Ague Balsam" that is mentioned in the above certificate,

There are several other industrious people who are applying to their poisonous trash all that I publish about my Fever and Ague cure, or Antidote to Malaria, except the certificates of cures, and the certificate of the celebrated Chemist, Dr. James R. Chilton, of N Y in favor of its perfectly HARMLESS CHARACTER, which is attached to every bottle Those will always serve to distinguish my medicine from imitations JAS A. RHODES, Proprietor,
