mit m ther simplicat. Daniel Bartages We and all suitment not to "near spectral. Daniel Servers, We and all suitment man; and the object of Philip Muser, its meeting was to give point to the feeling Prederick Hickman, gittle subject, and as there had been talk Charles Smith, of its for the last three years it will high John Grove. business action way takon. One George Bus biect now is to appoint treasurers in for now is to appoint treasurers in John Rishell, ant counties to collect a sufficient Peter Wilson, smount of money to organize under the act George Durst, and to take out the charter. He therefore Peter Huffert, Henry Witmer.

Mr. Miller in reply said, that Now York capitalists wanted a party to bargain with. We see not and cannot be a responsible party yet. When we go there, they ask us who we represent. Whether we are officers, all out movements idle, and not worth serious attention. We must go like a farmer, derd in hand, and tell them what we will do. They won't bits at a pin host, or will do. They won't bits at a pin host, or wold be sufficient if a note payable at the Lewisburg Savings Institution or some other-bace of easy access, be given for the ten per Leviaburg Savings Institution or some other products to pass place of casy access, be given for the ten per place of casy access, be given for the ten per is not necessary to pay the five dollars on the whole amount of stock proposed \$600,000, Mr. Dun-the whole amount of stock subscribed. It is not necessary to pay the five dollars on the whole amount of stock and the stock of the stock proposed \$600,000, Mr. Dun-the stock subscribed but can thought that amount could not give cen-squander this sum, but it will be perfectly safe, and more of it expended until there phat the, whole will be raised and the work completed. Orranisation, by thus giving of the Ohurb.

completed. Organisation, by thus giving is charter, will enable to raise the means otherwise. An act incorporating the Lewisburg, Cenand Spruce Creek Railroad, refers back to the general law passed in 1845, regulating all rail roads in this Commonwealth. The sec

tion providing for organization reads as follows: Scruos 2. "When ion per centum on the capital stock, as provided by any special act of incorpora-tion, chall have been salactibed, the completion for the completion of the complet follows: ing constituted the upberibers, and if the subarrip-for he not full at the time, those who shall there after subarribe to the number of there a doreant). Beir moments and are give, into a body politic and e, in deed and law, by the name, style, and ignated by the special act of amountly."

Mr. Van Trics, of Potters' Mills, said he thought that every question as to prganiza-tion aught to be postponed. A great number af farmers, owing to the backwardness of the scason could not be present, and there was a feeling of dislike towards electing a Board nutil there was a probability of a com-pletion of the work, and it would be gratifring to many if action on this subject be not far distant, when we will be not only fying to many it action on this surgers with the geographical, but the agricultural, me-postponed until a fuller meeting. New York the geographical, but the agricultural, me-can be approached as well without a charter chanical and industrial centre of Pennaylmight be sent to see what could be done

Col. Slifer, remarked, that at all times and in undertaking all good works, there must be some risk. If we don't do it now when will we. Any further delay will let our day of Grace pass away. We can and count raise enough slowy the line to grade the FGAT the whole way. Then we easily, and with an easy prospect, go in to any market with our Bonds. Mr. Miller, remarked, that the meeting

in whom you have confidence. Any man who pays his five dollars and cames to the an organization. If we delay, our railroad or property, we are not disposed to complain A certain amount of trust must | - but would it not be as well for Miss May,

of serious consideration, how this vast in-crease of agricultural wealth is to find an dere for the modigine soid should be addressed. crease of agricultural wealth is to find an ders for outlet. Every year augments the power of the farmer, and increases the enterprise of

manufacturer-every day admonishes the people that we need some channel, through which to pour the abundance of the crops of Centre county-and we hope that the day is vanis.

THE WIND AND WEATHER .--- We are not disposed to complain, but there is something loose in the machinery of May-something which has considerably injured her reputation as the month of birdling music, and harbinger of flowers perfume. May has been roating, for the jast few days, as rudely as hoarse March, and instead of giving us golden mornings, and gentle twilight, she was called to make arrangements to organize. We came at a dissidvantage. Those not coming must depend on us to do right. Moetings are wearisome. There is no dan-ger of speculation. Electmen along the line once lighted with sunshing and gladness, solemn frown upon the paths which she holder Truly, there is something wrong. From Saturday last until Sunday, the wind blow election can vote, and can vote out all apec-ulators. Notice must be given to all subcribers. The gentleman proposes a com-fury-and with its chilling blasts drove dust, aitce to New York. It will do us no good. durt, and even man before its name. dirt, and even man before its power. As They won't subscribe, nor will they give any serious attention to us until we have effected long as we hear of no injury to man, beast

The Couvention then adjourned, after a short but will occupied business session.— Union Argus. LOCAL AND BUSINESS APFAIRS. THE CROPS—One of the pleasing boasts of the people of this county, is their genial climate for the raising of harly staple pro-ductions. In the immediate vicinity of Bellefonte, the grain fields are in admirable order, and present a cheering and encoura-ging prospect to the husbandman. A friend from the ridges, assures that the average of a good crop was never better—while from the different yelftes south-west of the moun-tains are affiost fabulous, but nevertheless true. With such abundant evidences of a scrous consideration, how this rast in of scrious consideration, how this rast in-crease of agricultural wealth is to find an EPILETST, OR FALLING FITS .--- We believe
