At one o'clock the polo was raised.—It is one hundred and forty-seven feet in length. The hundred feet of the stouter pine, and the forty-seven feet, a hickory sapling, which is handsomely decorated with a steamer, flag and banner.

PANORAMIC VIEW OF A FILMORR DEMONSTRATION.—On Saturday evening last, the prismatic friends of Millard Fillmore assembled in mass meeting in Spring Township...

Like the jackal which followed the lion, they were on the spot to hold their councils where the honest Democracy of the same township met a week before.

Their councils were held by the smouldering light of a Democratic fire, and their number was swelled by spectators who came to laugh and not to listen.

For a whole week the adherents of Millard Fillmore had been drumming up their friends and using every possible means to gather a large crowd, and we cheerfully give them credit, more for their industry than their success.

The delegation from Bellefonte was beautifully motley, interspersed with shaggy pants and the predecessors of liquid lard.

After the books and notes had been presented, the following order was made by Dr. Wm. Underwood, viz: To grade the road for thirty miles from Tyrone, and place the ties on the line of the road, for the sum of one hundred thousand dollars, twenty thousand dollars of which shall be taken in the Stock of the Company; provided the location is made on the Plank Road, so far as may be practicable.

On the part of Gen. James Trjvn the following order was made: To furnish all the iron required for the Road, for the sum of seventy-five dollars per ton, delivered at the Millburg Works, made of good charcoal iron, one-fourth of which shall be taken in Stock, provided a rail not exceeding forty-five pounds to the yard and being sufficient.

A meeting is proposed to be held at Bellefonte, on Tuesday, the 26th inst., at 3 P. M. On motion, Dr. Wm. Underwood and James T. Hale were appointed a Committee to correspond with the President of the Road, and request his official attention to the placing of an engine on the line, and to call a meeting of the Board of Bellefonte, at an early day.

We are authorized to report one hundred thousand dollars of Stock raised.

Equilibrium.—The gallants of Bellefonte are showing their courtesy to the stranger ladies who are visiting the county from a distance, by requesting excursions to the beautiful resorts by which we are surrounded.

Every evening, parties are sent leaving and entering the village—and if the bright eyes bespeak the thoughts of the heart, more than one couple has been made.

A few evenings since a lady attached to one of these parties was thrown from her horse and barely escaped with a broken limb. This is not a laughing matter for those who are in attendance as cavaliers, who, because they were obliged to remain in bachelorism with their hearts, are not justifiable in permitting a lady to be thrown from her steed.

LOCK HAVEN AND TYRONE.—At a meeting of the friends of the Lock Haven and Tyrone Railroad, held at Lock Haven on the 12th day of August, on motion, Wm. Thomas was elected President, and Edmund Blanchard, Secretary.
