We have received the following Card from Pleasant Gap, which we publish for the benefit of Mr. Edmund Blanchard. The signers are some the most respectable men in Spring township, and they are perfectly able to think and act for themselves without the aid of political speculators, or store loungers:

Pleasant Gap, August 18th 1856.

To the Editors of the Watchman—Gentlemen—Believing as we do, that our resolution, and its objects, was much abused at the meeting held in Harrisonville, August 9th by the friends of Fillmore, we ask of you as a favor to reply in an article in the *Democratic Watchman*. We have heretofore at all times respected Mr. Blanchard; but knowing as he does, that what he then read was false, and a misrepresentation throughout, it would almost appear that he had forgotten that which belongs to a gentlemen, and we hope that he will in future learn not to misrepresent his friends, and particularly those who have heretofore respected him as a political opponent.

Job Printing.—We have great facilities for executing with promptness, in excellent style, and upon the most reasonable terms, all orders for Job Printing entrusted to us, and solicit from our friends a share of their patronage.

Contemptible Conduct.—A correspondent from Gregg township informs us that the Know-Nothings attempted to take down the Democratic pole erected there. On last Sunday morning, three of them dug around the pole to the depth of three feet and commenced boring it, when they were discovered by some of the citizens coming home from camp meeting, who gave the alarm, and the Know-Nothing blackguards took to their heels, and disappeared through a corn field. The Democrats of Gregg township will be prepared to defend their pole, if it should be necessary.

A similar thing was attempted in this town on Saturday evening, by three persons who attempted to take down the Buchanan flag, which was erected by the mechanics working on the Court House; but they came down themselves sooner than they expected, by the advice of some Democrats. The poor Know-Nothings are getting desperate.

Delegate Elections.—The Democratic citizens of Centre County, are requested to meet at the usual places, in their respective townships and election districts, on next Saturday, the 23d instant, for the purpose of electing delegates to the county convention, to be held in Bellefonte, on Tuesday next, August 26th (court week) to nominate candidates for the several county offices, and to appoint Congressional, conferees to nominate a candidate for Congress.

In the advertisement of J. S. Barnhart in the last week's *Watchman*, a most important typographical error occurred, which, in justice to our young friend, we feel in duty bound to correct. The amount offered in premiums is $20, instead of the enormous sum of $20,000, as appeared in a portion of last week's issue. Success to his enterprise.

Camp Meeting.—A Camp Meeting was held near Centre Hill, which was largely attended by the people of the surrounding country.

Democratic Meetings.—Under the editorial head will be found the announcement of a number of Democratic meetings.

Bloomer's Costume still in Use.—At the recent marriage of Mr. John W. Hasbrouck, editor of the *Whig Press*, Middletown, New York, with Drs. Lydia Sayer, editor of the *Sybil*, of the same place, the bride was dressed in the reform costume—skirt of white India book, with pants of white satin, a basque of brocade silk (color ashes of roses) trimmed with deep lace. No ornaments except a simple breast-pin. The ceremony was performed by themselves. The bride ignored that part of the accustomed marriage ceremony which demands of woman undue subjection and obedience, yet promised equally with the groom to stand true to his side in all the duties of life, each appealing to the other for their approval, and each consenting to the terms adopted by themselves. A short and very appropriate prayer was offered by the elder brother of the bride.

In the Wrong Box.—On Tuesday afternoon, as Mr. Charles M. Wilson, in company with a friend, was passing by a residence in Coates street, below Twenty first street, his attention was attracted by the cries of a woman. He opened the doors of the house from which the cries issued, and discovered an individual engaged in the interesting occupation of beating his wife. Mr. Wilson seized the meddled husband, and endeavored to impress him with the enormity of the offence, when the wife without any ado turned upon *her* rescuer, and demanded to know what business he had there, and at the same time enforcing her remarks with a punch, about one inch and a half below the ear. This exhibition of base ingratitude satisfied Mr. W., who showed the better part of valor (his coat tail) in a brilliant style, by making his exit from the premises. *Phila. Times 16th inst.*

Struck by Lightning.—The Mercer *Whig* of Thursday, says, a barn on the farm of Adam Hoffacker, of Perry township, was entirely consumed by fire on the 28th ult. Mr. Hoffacker had erected, this summer, a new barn, and on the evening referred to, had just finished pitting into it his harvest, when a thunder storm coming up, it was struck with lightning and it with its entire contents was consumed—except a wagon which was removed from the burning building.

Old-Line Whigs should read the speech of Hon. Josiah Randall, of Philadelphia, published on the first page of to-day's paper. It is an able effort, and will repay an attentive perusal.

☞ Whiskers, Beard and Mustachios forced to grow in six weeks by Dr Lapont's Caloric Compound. Warranted not to stain or injure the skin. Price $1 00 per Package, or three for $2 50. Medical Impossibilities.—For a long time a certain class of diseases has baffled the skill and practice of the most eminent members of the regular medical faculty. Foremost among these we might instance epilepsy or falling fits. Happily now by the skill and inventive genius of an eminent chemist of Baltimore, Md., this disease has been brought within the means of a cure. We allude to the preparation called the *Vegetable Extract Epileptic Pills*, invented and prepared by Dr Seth S. Hance, of 108 Baltimore street, Baltimore, Md. Since their discovery many persons who had given up all hope of ever being cured, have been restored to the full enjoyment of health. Prominent among these we might enumerate Mr Harrison Lightfoot, of Huntsville, Alabama. Mr L. has suffered as much from Epilepsy as any other person in the world, never knowing what it was to pass a week without having an attack, and often falling in the streets of Huntsville. He is now fully restored and has not had an attack for more than a year. Dr. Hance's Pills have been the sure cause of this cure. These pills also cure all modifications of Fits, Spasms, Cramps, &c., and are very serviceable for persons of weak nerves. Dr Hance sends them to any part of the country on the receipt of a remittance. Price, one box, $3, two, $5; twelve, $24. Address Seth S. Hance, 108 Baltimore, Md

Died,

On the 4th inst., at the residence of her father near Milesburg, Rebecca Ann, daughter of Robert and Rebecca Williams, aged 13 years, 4 months and 3 days

In Eagleville, this county, on Saturday, August 16th, Margaret, wife of William Snyder, aged 47 years.

On Sunday last, at her residence near Bellefonte, Mrs. Elizabeth Simpson, in the 83d year of her age.

Mrs. S. was well known to the people of this borough, and we suppose was one of the oldest, if not the oldest inhabitant of the county. She lived a secluded and peaceful life, and will be remembered for her stern attachments of the customs and usages of the past.

☞ **Lock Haven and Tyrone Railroad Meeting!**—A meeting of the friends of the Lock Haven and Tyrone Railroad favorable to the immediate commencement of the road from Bellefonte to Tyrone will be held in the Court House, Bellefonte, on TUESDAY AFTERNOON, August 26th, Court week, at 2 o'clock. A full attendance is requested, as it is the desire of the Company to commence the road immediately, by placing an Engineer on the line. By order of

The Markets.

Reported Weekly for the Democratic Watchman, by Wm. H. Rhoads.

August 19, 1856.

In Wheat in the Eastern markets there is a downward tendency, owing to the reported abundant crops in Europe.

One of the great causes of high prices in this country for Wheat is the foreign demand. Another is the cheapness of money at present. We have the prospect of a very small foreign demand compared with last year, and not shipping wheat to meet our importations, we must ship something else and that must be money. The very same causes that have made the high prices will in turn depress the prices, for there will be a scarcity of money to operate in grain and in everything else, and less of it will be given. These two facts are given to show that a decline must be expected if the production is left to find its natural level, without the interference of speculative movements.

There has been contracts made in this locality for the delivery of old wheat twenty miles from this place at $1.10 per bushel. Flour still continues to sell at last week's quotations, and we hear of no material change in the prices of wheat. We are so situated that change in prices do not effect our prices immediately; the home consumption is sufficient to keep up the prices for a time. The Corn crop is looking well, and the opinion is that we will have an average crop. Some say that there is a fourth, others a third of last year's crop of corn yet on hand in the county.

At present there are men buying up all the Hogs in the county at such prices as induce our farmers to sell, thinking that they cannot do better by fattening, and selling at the fall prices. It may be of some importance to our farmers to know that there is not in any one year, enough of Pork raised in Centre county, for its own consumption. Some of our Iron Manufacturers purchase from fifteen to twenty-five tons in Pittsburg and Philadelphia, in a year, after having bought all they can get in the fall to put up. Without knowing the exact figures, it is safe to say that there are one hundred and twenty tons of Bacon brought into Centre county in the course of a year from the East and the West. The profits and freight on this amount are so much paid out of the resources of Centre county, without making one pound more to us. Have any of our farmer friends tried what they could do by improving their stock of Hogs, and bring them to maturity as fast as possible. Pork is an item of great importance to Centre county, entering as it does into the manufacturing of Iron and Lumber interests of the county, and the raising and curing should be brought to as high a state of perfection, by our intelligent farmers as soon as possible, so as to compete with the Eastern and Western markets in price, the quality its conceded is better.

Flour, $6 50 to $7 50 per barrel.
Old Wheat, 90 cents to $1.00 per bushel
New White Wheat, $1.25 per bushel
New Red Wheat, $1 10 per bushel
Rye, 50 cents per bushel.
Corn, 37½ cents to 50 per bushel.
Old Potatoes, 62½ cents per bushel.
New Potatoes, 25 cents to 37½ cents per peck.
Tomatoes, 12½ cents to 18¾ cents per dozen.
Spring chickens, 12½ cents to 16 cents a piece
Eggs, 12½ cents per dozen.
Bacon, Sides and Shoulders, 12½ cents per pounds
Butter, 12½ cents to 16 cents per pound
Tallow, 12½ cents per pound.
Lard, 12½ cents to 14 cents per pound—retail

Philadelphia Market.

August 19, P M

The flour market continues depressed and dull. The Baltimore advices have unsettled prices and buyers and sellers are apart in their views. A sale of 700 bbls W B Thomas' was made on Saturday evening at $6 87½, but standard brands were offered on 'Change at $6 50 a 6 75 without finding buyers, and the market closed dull. Rye flour is heavy at $3 62½ per bbl. Of Corn Meal a sale of 300 bbls Brandywine was made at $3 75 per bbl.

Grain, like flour, is dull and drooping since the recip of the foreign news; about 4000 bushels prime Southern red Wheat sold at 153c, but to-day buyers only offer 140a145c. A small sale of fair white was made at 155c, and some prime Penna at 160c, but these rates are not now attainable. Rye is steady with sales of about 2500 bushels Penna at 75c. Corn is dull and lower, with sales of about 4000 bushels good yellow at 62c afloat, and some small lots of fair quality at 60. Oats have also declined, sales of new Southern have been made at 36c afloat.

☞ **Centre County Agricultural Society.** A stated meeting of the Society will be held at the Court House, in Bellefonte, on Tuesday evening of the August court. The time and place of holding the next Agricultural Exhibition, will be fixed upon. Places desirous of having it in their vicinity, will report their offers of a Bonus. A general attendance of members is requested.

☞ Bellefonte Gas Works.

Rules and Regulations prescribing the Manner of Using and the Terms upon which the Public will be supplied with Gas. Adopted by the Board of Directors of the Bellefonte Gas Company, August 7, 1856.

1. All applications for a supply of Gas must be made in *writing* to the Superintendent or other authorized agent of the Company, accompanied by a paper of the following purport, signed by the owner of the premises, viz: I hereby consent that Gas may be introduced into the premises on street, now occupied by of which I am the owner; and in default of payment for the gas consumed in said premises, I also consent that the flow of Gas shall be stopped until the bill be paid.

The applicant must also sign the regulations, and state the probable number of burners that may be required.

2. Gas will be supplied by the meter, or by special contract in writing; and should the meters be found defective, they will be immediately changed. In case of their ceasing to register the quantity of Gas consumed, the account will be made by the average of another meter, or by the amount charged during a previous corresponding period.

3. The Company may, whenever they deem it expedient, require security for the payment for the Gas expected to be consumed, or the deposit of a sum in advance to secure themselves against loss, and in case these terms are not complied with, shall have the right to cut off the supply at any time.

4. The service pipe to the extent of the curb stone will be laid by the Company, and loaned to all consumers who make application and are prepared to take the Gas on the Works going into operation. In all other cases the service pipe must be paid for by the consumer, or leased from the Company.

5. The meters will be furnished by the Company and rented to consumers at a quarterly charge of fifty cents, or two dollars per year.

6. The tubings and fittings for the conveyance of Gas within the walls may be put up by any competent mechanic employed by the consumer or proprietor of the premises, subject, however, to the inspection and approval of the Company or their authorized agents.

7. All screws used in putting up Gas-tubing shall be made to such standard sizes as may be authorized by the Company, and no tubing shall be used except such as may be now or hereafter allowed by them; and all tubings, fittings and fixtures shall be examined and approved by an Inspector appointed by the company, and the gas shall not be introduced into any premises until he is satisfied that the fittings are put up in their proper places, in a workmanlike manner, and are perfectly gas-tight.

8. The inspector will at all times be in readiness to examine the apparatus and premises of applicants, free of charge, on receiving three days notice.

9. The Company shall at all times, by their inspector or other authorized agents, have the right of access into the premises lighted with Gas, for the purpose of examining the whole gas apparatus, for the removal of the meter and service pipe, or to substitute, when deemed necessary by the company, alcohol for water in the meters, at the expense of the Company.

10. The tenant of any premises using Gas shall give at least three days written notice whenever he is about to remove, that the Gas may be stopped or he will remain liable for any Gas that may pass through the meter until such notice is given.

11. The quantities of Gas consumed will in all cases be ascertained in the manner prescribed in the second article of these rules, and the bills rendered monthly, unless otherwise directed by the Company or their agents.

12. The price of Gas will be four dollars per one thousand cubic feet, and in default of payment for Gas consumed, within five days next after the presentation of bills, or in case of a leak or injury done to the meter or pipes within the premises of any consumer, the flow of Gas shall be stopped *until the bill is paid*, or the necessary repairs are made.

13. The Company reserve to themselves the right at any time to cut off the communication of the service pipe, if they shall deem it necessary to do so in order to protect the works against fraud or abuse, and also to refuse to introduce Gas into any premises until all arrearages due them in the said premises have been paid.

14. The Company will require that a suitable stop-cock or other apparatus shall be placed between the wall of the building and the Gas-meter; and that the expense of the stop-cock or other apparatus as well as of all the service pipe and tubes beyond the curbstone which may be deemed to supply any premises with Gas, shall be re-imbursed to the said Company by the consumers of Gas on the said premises.

15. After the admission of Gas into fittings they must not be disconnected or opened, either for repairs or alterations, without a written permit from the Inspector; and any plumber, gas fitter, or other person who may violate this regulation, will be held liable to pay treble the amount of the damages occasioned thereby.

16. The Company may provide from time to time such further and other rules and regulations under which the Gas may be furnished to private consumers as experience may suggest, and as the Company may deem necessary or convenient in the use or consumption of Gas.

17. Any person not using Gas to the amount of eight dollars per annum, shall be required to pay for the service pipe, besides rent for the meter.

18. Each consumer of Gas shall be furnished with a copy of the foregoing rules on application at the office of the Company.

The following table exhibits the proportionate size and length of tubing required to be introduced by consumers. An adherence to it will be found necessary to an uninterrupted flow of Gas, and consequently to a steady light.

Size of Tubing	Greatest length allowed.	Greatest No. of Burners
¼ inch.	6 feet.	1 burner.
¼ "	20 "	3 burners.
¼ "	30 "	6 "
¼ "	40 "	12 "
½ "	50 "	20 "
½ "	70 "	35 "
½ "	100 "	60 "
½ "	150 "	100 "
2 "	200 "	200 "

It is advised that consumers give immediate notice at the office if any escape of Gas be discovered, as no deduction will be made from the bills rendered for Gas passing through the meter.

They are also desired to notify the Company as early in the day as possible of any deficiency of light, that the evil may be remedied without delay. The Company recommend that proper attention be given to regulating the *height of the flame*, on which depends the quantity of Gas consumed. By raising the flame to a moderate height, the most perfect combustion and brightest light are obtained; and the use of the Gas is thus rendered both pleasant and economical—being entirely free from smoke or the least unpleasant smell. The burners should also be kept free from dust, and if at any time they become obstructed, the application of a brush to the apparatus will immediately remove the difficulty.

The light must be extinguished by turning the stop-cock, but never by blowing out, as this causes the Gas to escape into the room.

All applications in relation to Gas or Gas fixtures must be made to the President of the Company.
