The friends of Colonel Fremont claim that he is a worker, and great business man, in proof of which they allege that during his twenty-one days' service in the Senate he intr duced eighteen bills. To those who know that most of the bills introduced in when I reached the summit, turning to gaze on as beautiful a scene as ever gladdened mittees, employed and paid by the Government, this feat will not be deemed very marvellous. Few bills are reported to Congress, which a good, clear-headed business man could not prepare in a few hours. If Colonel Fremont's friends had informed the public how many of these eighteen bills he induced Congress to convert into laws, we might judge of his sagacity in their preparation and the confidence reposed in him by the legislative department of the Government

Point them to the fact that the free soil territory has increased from some 300,000 square nules in 1787 to over 2,000,000 of square miles in 1850, whilst the territory " dedicated" to slavery is not as large as it was at the time the Constitution creased in territory over seven fold, whilst the South has decreased one-seventh.

And in nearly all this territory which has been added to the North, slavery existed by law at the time we acquired it by treaty.—
This was the case with both the Spanish and
French purchases extending from the Atlartic to the Pacific.

Point them to the fact that in 1811 the North had but 15 more members of Congress than the South; and that now, in 1856, that excess is increased to fifty-three.
