"The times demand and we must have ANTI-GLAVERY CONSTITUTION, AN ANTI-BLA-VERT BIBLE, AND AN ANTI-SLAVERY GOD. "

Lake this slavery accurated nation into their special consideration; and when the time arrives for the atracts of the cities of this land of the free and home of the brave' to run with blood to the horses' bridles, if the writer of this be living, there will be one heart to rejoce, at the retributive justice of Hosven. This, of course, will be treason in the eyes of doughtfaces in this land. Welt, they are familiar with Dr. Henry's celebrated prescription— make the most of it.''

From those who have used the mackine we can produce abundant evidence as to its asperiority over any other machine new bulk, for the following reasons:

1st. On account of its simplicity of construction, and the fact that the sickle is worked direct from the driving wheel, with a simple lever instead of runtilipations of cog wheels, journals, cranks, &c. which makes it work lighter for the fearm.

2d It is more compact, and is therefore easie handled.

3d. Its perfect adaptation to uneven grounds, without hanging on the hoises' hecks; the tongue being limber and turning on cawar-wheels, which makes it turn easy.

4th. The perfect manner in which it does its work, in both grain and grass; the reaping apparatus being so arranged as to put the raker in a convenient position to deliver the sheaves at the raping apparatus all off so as to enable it to cut tangled clover
