Such was the force of the Know Nothing shoulder hitters, how ever, in the Ward, that we doubt which is the police—notwithsland-ing their inclinations—would have been en-abled to let the legal Democratic voters de-posit their ballots. In the first Ward the "Blood Tubs" of Laudenslager's Hill, very officiously took possession of the polls, and to use according to their inversed will it was only according to their imperial will and pleasure, that a Democrat was suffered accasionally, to doposit a vote. Score upon scores of Democrats were driven away with-out being suffered to vote by these precious custodians of the elective franchise. In the Eighteenth Ward, carly in the morning, the chiefs of the Know nothing regions held an

out door caucus, and very modestly resolved that the democrats should not be slowed to vote until their own party had been enabled to cast their ballots in full. This very rea sonable determination was adhered to as far as possible, as the unusually small Demo cratic vote cast in that Ward yesterday, wil

indicate most conclusively. "In short, in every ward where the Know-Nothings, aided generally by their police, could show an aggressive front, they never failed so. to do, and stopped every demo-cratic ballot that they possibly could, by hook, by crook, by threats or by intimida-tion." tions.
