LOCAL AND MISCELLANEOUS.

HORRIBLE AND FIENDISH OUTRAGE.—On Monday evening last, as Miss Eliza Wilson, an accomplished young lady, some seventeen years of age, was on her way home from school, she was followed by a colored man, who seized her person and attempted to ravish her. In his endeavors to accomplish his foul purpose, and to prevent the young lady from making an alarm, he wounded her face, bit and scratched her hands, choked her, and injured her body so that she was compelled to take her bed. When she attempted to hollow, "Damn you," said the colored man, "I will cut your throat if you make a noise; you don't know me and you can't tell." She describes the darkey as a middle-sized man, yellow color, short wooly hair; wore a light coat, and had on at the time a standing collar. Our citizens are aroused with indignation, and several colored individuals have been brought before the magistrate, but proved to be the wrong persons. Citizens are out on horseback and on foot, and every nigger that at all answers the description will be presented to Miss Wilson for identification.

A reward of two hundred dollars has been offered for his apprehension; and it is feared that the wrath of the people is so enkindled, that should he be arrested, Judge Lynch will rob Judge Burnside of his jurisdiction in the case. Our borough is infested with vast hordes of indolent negroes, stout and hardy, who have no visible means of subsistance, but spend their time in pilfering and committing depredations. This is the second young lady that has been assaulted by them within a few weeks, and it is time they were brought to justice.

DELAY NOT UNTIL TO-MORROW.—Oh! how often has the domestic circle been desolated, where the dearest ties of the human heart have commingled together. How often do we in vain endeavor to recall to mind the gentle smiles that once beamed upon us from some dear departed friend? Fail not to secure a likeness while such favorable opportunities offer. Mr. J. S. Barnhart, at his rooms in Bellefonte, has reduced his prices, and placed, by so doing, his finely executed pictures within the reach of all. Thomas J. Taylor, with his Ambrotype Car is at Milesburg, taking excellent pictures. We would say to our readers, remember the ravages of the scarlet fever, and let it not rob you of the gratification of seeing the features of friends that are now familiar but may, ere long, be slumbering in the dust!

SAD ACCIDENT.—A man named Pearl, in the employ of Harvey Mann, at the Axe-factory, in this borough, met with a serious accident on last Wednesday, the 11th inst. He was employed in the grinding shop, and was working among the machinery when his foot caught in a large coupler, drawing his leg in and around the shaft, severing three of his toes and crushing his leg in a shocking manner. Drs. Potter and Mitchell were in attendance, and rendered all possible relief. The patient, we understand is doing as well as can be expected.

Our readers in want of books, stationary, &c., should bear in mind that Mr. Livingston can supply them with everything they desire in his line. He also receives orders for binding books.

ISAAC MAY is building up for himself a reputation as a public benefactor. He furnishes the public with goods of the best quality at low rates. All of our friends who wish anything in the clothing, dry goods, groceries, or queensware line should give Isaac a call.

We are requested by Captain Cummings, to state that the parade of the Centre Dragoons will not take place on Friday next.—The Washington troop cannot be in attendance at that time.

FARMERS' PROMOTION BOOK.

BY DR. C. G. REINHOLD.

Basis of my Improved Green Manuring System.

It can be effected only by an improvement of the old method of green manuring; namely, that we bring the same to such a perfection that it can be interpolated between all grain crops, and applicable to every kind of soil, *very cheap*, and in various modes; that is: as topseeds in winter and summer grain and in fallows and stubbles.

By experimenting for the time of 16 years, I am enabled to show how my improved green manuring system as topseed, and in fallows and stubbles, will be the lever to increase the strength of the soil in a far *shorter time* and *cheaper way*, than by the old modes of ploughing under crops of clover, buckwheat, oats, grass, tares, vetches, spurrey, peas, beans, rye, barley, rape, corn etc.

In the old method of green manuring there are only single kinds of plants used. But these kinds of plants used single or only a few in a mixture, forms too thin a cover for the soil, when if we sow them very dense, they absorb only a single quality of matter from the soil and air. Therefore it does not afford a sufficient variety of matter to nourish the crops raised on it, as is the case when a variety of at least from 10 to 20 plants are mixed together, as specified in my manuring system stated in the "Farmer's Promotion Book."

Towards this hint of nature the old method of green manuring is too weak and inferior, as well in quantity as in quality, and the seeds are too dear and too large grained to produce an agricultural advantage, sufficient to justify the farmer in their use, especially on poor soils; and are also too limited in their application, as they, with the exception of rape and turnips are only of the annual kind of plants, which cannot pass through the winter, and cannot be supplied as topseeds in grain, for they shoot up in it and spoil the straw.

These deficiencies of the old method of green manuring I improve by seeds of the most possible variety of kinds of plants mixed together, which at the same time are very cheap and are suitable for the various *local* applications; and this aim is only attainable by seeds of *wild* plants in meadows, fields, woods, gardens etc. The seed grains of many of these plants are so small that one pound often contains from 1, 5 and 10 millions, and require as manuring seeds only from 5 to 10 pound *per acre*; whilst the number of grains in the old method used as manuring plants, contain in a pound, only from 1 to 5, 10 and 20 thousand, and require whole bushels per acre.

The application and selection of the plants and grasses for green manuring, which I have specified in "The Farmers' Promotion Book," are used in combination of from at least 10 to 20 different kinds, and mixed with various kinds of grasses, and are kinds of plants which have the following qualities:

1. They are very-*cheap* and produce the most possible luxuriant plantmasses; are juicy and of a compounded mixture, consequently from the variety of matter of an easy decomposing substance.

2. They are good manuring plants and their roots do not grow exuberantly, but, as soon as they are ploughed under, they die.

3. They are very rich in seeds, especially such as we use for cultivation on a piece of land for the manuring purposes, when they do not grow wild in the vicinity.

4. Their seeds are gathered very easy, and are quick germinating and of a fast growth to cover a field with very dense leavemasses within from 6 to 8 weeks.

Plants of this quality are therefore the *richest* seedplants, and *the richer* they are, the better green manuring plants they are; for the advantage is embodied in the fact, that we can produce with a few pounds of seeds the most quick and largest Plant masses possible per acre.

Green manuring is important to the farmer as topseed on Summer and Winter grain, and on fallow and stubble land, in reference to a cheap and quick promotion of his best interest, to sow plant seeds; to enable him to turn down a vigorous supply of vegetable masses, when ploughing down his stubbles, or giving the first and second ploughing to his fallow fields, so as to replenish more than the amount absorbed from the soil by the former crop. The effect would be, that the spring or summer crops would become as vigorous as the best stable manured fallow crops, and the both, accumulating increased strength and fertility in every operation, would thereby increase the amount of grain, straw, hay &c. enabling him to support larger stocks profitably. consequently to make more stable manure, and place him in a prosperous state, both in regard to enriching his farm and purse.

Green vegetable manure has a tenfold advantage over any other.

1. It is in accordance with nature's own effort.

2. It embodies the absorbtion of the gases, increases the mould, and replenishes the soil with an excess of principles required for the growth of various grains and grasses.

3. It supports a healthier stock and more perfect grain.

4. It can be spread in vigorous masses over the soil (without the labor of hauling or expense of teams) ready for use at all times required; whereas, in the process of stable manure, a period of from three to four years intervenes between that of sowing the seed producing the manure, and receiving my benefit from it on the succeeding crop; and if we take into the account the labor in gathering fodder, etc., it renders it a matter very expensive and laborious; whilst on the contrary, one pound of seed will add one hundred per cent. more to the fruitfulness of the soil of the same quantity of land, than one load of stable manure, and the saving in expense of cultivation, would not be less than from thirty to fifty per cent. Here is embodied the decided advantage of green manuring.

Farmers dependant on stable manure, fail to enrich more than a small portion of their farms, whereas, under a well directed system of green manure, the farmer can raise all his tillable land to a state of wealthy and profitable productiveness, with one-third the labor, and at an expense of less than fifty cents worth of seeds, without any outlaying of capital, per acre.

WASHINGTON'S BIRTHDAY.—We understand that the Hon. Stephen A. Douglas has accepted the invitation to speak to the principal toast at the dinner to be given at the Astor House by the Association of the Friends of Civil and Religious Liberty of New York city. This will be a brilliant affair, and we doubt not the fame of the orator of the evening will draw a full house.

A GOOD EXCUSE.—A man has declined being a candidate for office in one of the new States, because he is not a legal citizen; has never paid a tax or any other debt; owns no property; can't read or write; is blind; has but one leg; has ten children, and can't leave home for fear they will abuse their mother.

QUARREL BETWEEN THE KANSAS AID COMMITTEES.—There is a highly interesting quarrel going on between the National and State Central Kansas Aid Committee, concerning the management of the funds contributed for the relief of Kansas. Irregularity, bad faith, incompetency and private corruption form the staple of the charges on both sides, and if we are to believe half that is said, the greatest service that can be done for Kansas, is to relieve her from further intermeddling by these self-constituted committees.

THE BANNER COUNTY OF THE UNION—TEXAS ABRAD.—The official vote of the county of El Paso, Texas, for President, shows 1,022 for Buchanan, and not a vote cast for any other candidate. What county in the Union can equal El Paso?

A YOUNG WIDOW.—A couple was married in the cars of the Memphis and Charleston railroad last week. The bride was a "widow" aged sixteen years.

REASON AND COMMON SENSE.—Our readers may remember we have on several occasions spoken in very eulogistic terms of a preparation which Dr. Ezra S Hayes, of 108 Baltimore street, Baltimore Md., has discovered for the cure of Epileptic Fits. Now, in doing so, we have been actuated by the very best motives, viz: the alleviation of human suffering. From circumstances which have lately come to our knowledge, we fear there is a certain class of persons who are not disposed to try this remedy in a common sense manner. We allude to the fact of selecting a particular case in a town where perhaps there are six or eight cases, and trying it on one case. Now, perhaps the case selected might be the only one of the whole number that it would not cure. This is neither doing themselves nor the medicine justice. If a dozen persons were stricken down with cholera in one town or neighborhood, would they all send for a physician, or would only one employ him, and wait and see if he cured the first patient? That plan of operation would be most absurd. So in the case of Dr. Hayes's remedy, every one who has Fits should try it for a reasonable length of time It will not cure in a day or week, nothing worth doing can be accomplished at once. What is easily done, is as easily undone. The growth of time is enduring. From the most respectable testimony we have examined, we feel assured that by a proper perseverance in this remedy, *nine cases in Epilepsy* out of ten may be cured. The Pillsare sent by mail free of postage to any part of the world.—Price: one box $3; two $5, twelve $24. You will find the address above.

DEVALL'S GALVANIC OIL will check and eventually cure more aches and pains than any other remedy known. Ask those that have used it.

MARRIED,

On the 29th ult., by the Rev. Wm. R. Yearick, Mr. EMANUEL D. NOLL, of Harrisonville, to Miss LYDIA HUELMS, of Spring township.

On the 31st ult. by the same, Mr. JOEL KLING, to Miss AGGATHINA MIKELS, of Walker township.

On the 4th inst., by the same, Mr. A. C. GEARY to Miss ANN J. LANDER, all of Hublersburg.

DIED,

On the 10th inst., MERANDA, daughter of James and Elizabeth Caran, of Halfmoon, aged 5 years and 11 months.

Yes Meranda, thou art gone. One link in the chain that bound a happy family to earth, is broken. Death has taken away another of earth's brightest blossoms to himself, and oh! how deeply those fond parents will feel her loss. My heart o'erflows with sympathy for you stricken father and loving mother. But why grieve for the departed? Angels have wafted her pure spirit to that happy land, where death can never come—that land where you may meet her, to part no more forever. H.

In this borough, on Friday morning, the 13th inst., of scarlet fever, JOHN AUGUSTUS, son of John T. and Mary A. Johnston, aged 1 year and 3 mos.

On the 18th ult., in Potter township, SUSANNA, daughter of Dan'l. and Phebe Keen, aged 3 years and 8 months.

PHILADELPHIA MARKETS.

February 14, P. M.

In Cloverseed there is very little doing, and only about 100 bushels prime Seed have been packed up, at $7.50 per bushel, which price is generally refused, and $7.62½ asked.

The market for Flour remains inactive; there is little or no demand for shipment, and standard brands are freely offered at $6.37½ per barrell, without finding buyers, the sales being confined to a few small lots taken for home consumption, within the range of $6 37½@6.62½ for common to good brands, $6 62½ to $7 00 for extra, and $7 50 to $8 per barrel as in quality. Rye Flour and Corn Meal are not inquired for and dull. $4 per barrel for the former.

The receipts and sales of wheat are moderate, and prices about the same, at 149@150 cents for Penna. reds, mostly at the latter rate for prime lots in store, and 161@163 cents for good to choice white. Rye is in steady demand, with further sales at 82 cents. Corn remains unchanged; about 5000 bushels old Penna. yellow brought 68 cents in store, 1500 bushels new Southern do 65 cents and 300 bushels white, 61 cents in the cars. Barley is scarce and wanted at previously quoted rates; a sale of Barley Malt was made at 150 cents. Oats remains dull, with a small business only to notice in Penna at 46 per bush

BLACKWOOD'S MAGAZINE AND THE BRITISH QUARTERLY REVIEWS.

CHEAP EDITION FOR THE TIMES.

COST REDUCED 50 TO 70 PER CENT.

L. SCOTT & CO., NEW YORK, continue to publish the following leading British Periodicals, viz:

1. THE LONDON QUARTERLY (Conservative).
2. THE EDINBURGH REVIEW (Whig).
3. THE NORTH BRITISH REVIEW (Free Church).
4. THE WESTMINISTER REVIEW (Liberal).
5. BLACKWOOD'S EDINBURGH MAGAZINE (Tory).

These Periodicals ably represent the three great political parties of Great Britain—Whig, Tory and Radical—but politics form only one feature of their character. As Organs of the most profound writers on Science, Literature, Morality, and Religion, they stand, as they ever have stood, unrivalled in the world of letters, being considered indispensable to the scholar and the professional man, while to the intelligent reader of every class they furnish a more correct and satisfactory record of the current literature of the day, throughout the world, than can be possibly obtained from any other source.

EARLY COPIES.

The receipt of advance sheets from the British publishers gives additional value to these Reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

A GREAT CHANCE TO MAKE MONEY, WITH A VERY SMALL CAPITAL. Agents wanted in every town and county in the United States, to sell by subscription one of the grandest and most beautiful pictures ever published in America, being a highly ornamented PORTRAIT OF GENERAL GEORGE WASHINGTON,

THE FATHER OF HIS COUNTRY.

He is represented in the garb and regalia of a Free Mason, standing in the entrance of the great and magnificent Temple of Kingsolomon: the Picture being superbly decorated with the mystic symbols of Free Masonery, and appropriately colored in the highest style of art, presents one of the most gorgeous *spectacles of Oriental magnificence*, of which the mind can conceive. The likeness is striking and grand, and for the sublimity of attitude, and the ease and dignity of manner, is unsurpassed by any other Painting ever executed either in this country or Europe.

This surprising Picture has been produced at an enormous cost, and in order to supply the demand of all classes and tastes, has been executed in various styles of coloring as a proportionate cost, ranging at retail from $4 to $5.

Pictures on other subjects, far inferior to this, are sold daily at $7 and $10 per copy, but in order to place them within the reach of all (that no American citizen need be deprived of having their parlors or offices honored and adorned with one of these magnificent specimens of American art, in the form of the great and the good the Father of our Country,) I have made the price thus low

☞Sample copies will be sent by mail or express to any part of the United States on receipt of the retail price in current *funds or postage stamps*.

☞For terms to agents, a full list of my new publications for 1857, or for sample copies, address H M. BULISON, 141 Main street, Cincinnati, O., or, if living East, address D BULISON, 23 South Third Street, Philadelphia, Pa.

P. S.—Publishers of Newspapers or Periodicals giving the above advertisement, including this notice, four or more insertions in a conspicuous part of their paper, sending me marked copies of the same, shall have one of the highest priced of these Pictures mailed to their address.

LOTTERIES.—The well-known MARYLAND CONSOLIDATED LOTTERIES, of which R. FRANCE & CO., are the managers, chartered by the state of Maryland, and commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner; and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20 dollars. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket, (after the Havana plan) and Ternary combination. Prices vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over Address T. H HUBBARD & CO.

CERTIFICATES. PAIN ERADICATOR.

MESSRS. GREEN & McMEEN:—GENTLEMEN: For the last three years I have been subject to Neuralgy of the severest character—at one time confined to my room for three months with it, and subject to return as often as I got wet or was in the damp. I tried a great many remedies for it but found no permanent relief until I got Rev. Geo. L. Miles Pain Eradicator, as prepared by you, which has never failed to eradicate the pain when applied.—I also use it for sore throat with the same good effect, and know of it being used for Rheumatism with good results. I believe it to be a good medicine for the above diseases, and no humbug, and would cordially recommend it to all suffering with either Neuralgia or Rheumatism.

JOHN McCALMONT.

MESSRS GREEN & McMEEN:—I have used Geo. L. Miles Pain Eradicator, prepared by you, for Rheumatism in my shoulder, and found great relief and would cheerfully recommend it to others similarly affected. JOHN BECK.

HARPER'S MAGAZINE.—ONE HUNdred and sixty-eight thousand copies are now printed of *Harper's Magazine*. The cost of contributions and illustrations for each number exceeds $2500. More than thirty thousand dollars a year is thus paid by the Magazine to American Authors and Artists.

The Publishers beg to renew their thanks to the public for the extraordinary favor with which the Magazine has been received. No labor or expense will be spared to render it still more worthy of the unparalleled success it has achieved.

Each number of the Magazine will contain 144 octavo pages, in double columns, each year thus comprising nearly two thousand pages of the choicest miscellaneous literature of the day. Every number will contain numerous pictorial illustrations, accurate plates of the Fashions, a copious Chronicle of Current Events, and impartial notices of the books of the month. The volume commences once with the numbers of *June and December*, but subscriptions may commence with any number.

TERMS.—The Magazine may be obtained of booksellers, periodical agents, or from the publishers, at three dollars a year, or twenty-five cents a number The semi-annual volumes, as completed, neatly bound in cloth, and sent at two dollars each, and muslin covers, are furnished to those who wish to have their back numbers uniformly bound, at twenty-five cents each. Twelve volumes are now ready, bound in cloth, also in half calf.

The Publishers will supply specimen numbers gratuitously to Agents and Postmasters, and will make liberal arrangements with them for the circulating the Magazine. They will also supply Clubs of two persons at five dollars a year. Numbers from the commencement can now be supplied. Also the bound volumes.

The Magazine weighs over seven and not over eight ounces. The postage upon each number, which must be paid quarterly in advance at the office where the Magazine is received, is only three cents.

☞The Publishers would give notice, that they *have no agents for whose contracts they are responsible*. Those ordering the Magazine from Agents or Dealers must look to them for the supply of the work. HARPER & BROTHERS.
