FARMERS' HIGH SCHOOL.

We extract the following from the proceedings of the State Senate, on Friday last:

Mr. GREGG, from the committee on agriculture, to whom was referred sundry petitions of citizens of this Commonwealth, praying for an appropriation to the Farmers' High School, beg leave to report; that they have given the subject the consideration which its importance demands, and desire to state briefly the reasons which have induced them to regard favorably the prayer of the petitioners. Agriculture is confessedly the great interest of the State. Upon it in a great measure depends not only the prosperity, but the very existence of all other branches of industry. Providence has blessed us with a genial climate and fertile soil, calculated to produce in abundance, all the articles which constitute the staff of life: and it becomes us, by all the means within our power, to foster and encourage these productions to the greatest extent.

Your committee are of opinion that this great interest has not been hitherto sufficiently cared for by the fostering hand of the Legislature. While millions have been spent to advance the interest of Commerce, to encourage Manufacturing interests, and to promote the cause of Science and the Arts, the farming interest has been entirely neglected. We believe the time has come when the people of Pennsylvania feel, and appreciate the great importance of aiding in all suitable ways this great and vital element of our prosperity. We are aware that no act of Assembly can make a good farmer, and that mere science, without the indispensable ingredient of practical industry, can do this upon the soil itself. But knowledge is profitable to direct: and it is now an established fact, that two blades of grass can be made to grow where but one grew before. It is with these views that we have had the petitions referred to us, asking an appropriation to the Farmers' High School. The method of the Trustees of the Institution has been furnished your committee, which shows the plan and object of the School, which are in brief, to furnish to the farmers of Pennsylvania, a place to educate their sons in all the branches of a first rate English education, combined with a knowledge of practical farming, acquired by actual experience, and where the student will be allowed and required to do such reasonable amount of actual labor on the farm as will, while learning him that important and necessary branch of every farmer's education, at the same time to reduce the cost of his education as to bring it within the reach of farmers of the humblest means to give their sons an education equal to those of the wealthiest in the land, and thereby elevate the standard of labor.

This, all will admit, is a most desirable object: and the next question is as to the means to accomplish it. Individual enterprise made the start. A valuable farm of two hundred acres of excellent land in a fine farming region and healthy location in the centre of the State, has been given by a liberal and public spirited citizen to the trustees on which to erect their buildings.—Twenty-five thousand dollars have been contributed by voluntary subscription towards the erection of suitable buildings, but it is estimated that it will require to erect such buildings, and in other respects to put the institution on such a basis as the State of Pennsylvania desires and requires to be useful to her, and worthy of her wealth and standing as a great Commonwealth, the sum of one hundred thousand dollars in addition to the land so generously bestowed to erect and complete the buildings, will be required. We propose in the bill reported, to appropriate twenty-five thousand dollars—and that amount has already been raised by the friends of the school—and propose to increase the appropriation, by an additional sum of twenty-five thousand dollars, when the same sum is contributed from other sources by the friends of the school. This is all the State, under any circumstances, we feel confident, will ever be called upon to give. The school is to be made to sustain itself, when started, by a moderate charge for tuition and the labor of the student.—Now, for the comparatively small sum of fifty thousand dollars, to be paid in the course of the next two or three years, a farm college, calculated to teach some four hundred students yearly, can be secured on terms so favorable surely the representatives of the great State of Pennsylvania ought not to hesitate, but to establish it once upon a fair basis, an institution so fraught with good to our Commonwealth for all coming time.

LANCASTER MONEY.—D. G. Bush, Esq., desires us to say that he will continue to give for money on the late Lancaster bank, as much as can be obtained elsewhere in this neighborhood, and would be glad to have his friends who have been so unfortunate as to have any on hand, give him a call. He may be found at the office of Ira C. Mitchell, Esq.

A RECIPE THAT RARELY EVER FAILS TO CURE A COLD.—Now, while winter, with its burthen of colds and coughs is with us, we think a remedy that will relieve such visitations should be highly prized. Those who know the worth of this remedy, will do, as we do—prize it doubly. Take a double dose of Dr. Sanford's Invigorator, and it will give greater relief than any other medicine we ever tried, for we have rarely to repeat the dose to be free from cough, and as soon as the lungs have time to throw off the collected matter, the cure is complete. As a family medicine, for the cure of Bowel Diseases, Worms, Derangement of the stomach and liver, we can recommend it knowingly.

DUVALL'S GALVANIC OIL will check and eventually cure more aches and pains than any other remedy known. Ask those that have used it. Sold by A. Brittain, Bellefonte; Johnston & Weller, Boalsburg; A Sample & Co., Pine Grove; Braw & Bailey, Stormstown; C. J. Rymer, Millesburg; Wm. Allison, Jacksonville; J. R. Burkert, Nittany, and others.

HELMBOLD'S HIGHLY CONCENTRATED EXTRACT BUCHU, is prepared directly according to the rules of Pharmacy and Chemistry, and is the best and most active preparation which can be made for the *cure of diseases of the bladder, kidneys, gravel*, dropsy, weaknesses, &c. Read the advertisement in another column, handed "A revolution is certain. Victory is ours.

ONLY ONE BOTTLE OF DR. SANFORD'S INVIGORATOR

or liver remedy is required to cure any one troubled with liver complaints, unless the most desperate of cases, when the second bottle will, with scarce a single failure, remove the patient to health under Heaven, UNLESS the Invigorator is compounded by a physician who has used it in his practice for the past twenty years with a success almost ingredulous, and that it is entirely vegetable, being composed wholly of gums.

One bottle of the strength of these gums may be formed when it is known one bottle of the Invigorator contains as much strength as one hundred doses of Calomel without any of its deleterious effects.

One bottle is the surest thing known, to carry away the bad effects of mineral poison of any kind.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for jaundice removes all yellowness or unnatural color from the skin.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring prevents nightmare.

One dose taken at night loosens the bowels gently, and cures costiveness.

One dose taken after each meal will cure Dyspepsia.

One dose of two tea spoonfuls will always relieve sick headache.

One bottle taken for female obstruction removes the cause of the disease, and makes a perfect cure.

Only one dose immediately relieves cholic, while

One dose often repeated is a sure cure for cholera morbus, and a sure preventative of cholera.

One dose, taken often will prevent the resurgence of billious attacks, while it relieves all painful feelings.

One or two doses taken occasionally is one of the best remedies for a cold ever known.

Thousands of cases of inflamation and weakness of the lungs have been cured by the Invigorator

One dose taken a short time before eating gives vigor to the appetite and makes food digest well.

One dose often repeated cures chronic diarrhea in its worst forms, while summer and bowel complaints yield almost to the first dose.

One or two doses cures attacks caused by worms, while for worms in children, there is no surer, safer and speedier remedy in the world, as it never fails.

There is no exaggeration in these statements, they are plain and sober facts, that we can give evidence to prove, while all who use it are giving their unanimous testimony in its favor.

We wish all who are sick and debilitated to try this remedy, and test it thoroughly, and any who are not benefitted by its use we should like to hear from as we have yet to hear from the first person who has used a bottle of Invigorator without receiving benefit, for these are such astonishing medicinal virtues in it, that all, no matter how long they have been afflicted with their complaint are cured from a deranged liver, will be benefited, if not entirely cured. —SANFORD & CO., Prop'rs.

LOTTERIES.—The well-known Maryland CONSOLIDATED LOTTERIES, of which R. FRANCE & CO., are the managers, chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who real in such undertakings will properly guarded, that they themselves were present at the drawing. Another fact which the managers will appreciate is, that all persons have a legal right to hold orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20 dollars. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number one schlacket, (after the Havana plan) and Tertary combination. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawings entitled to all purchasers immediately after it is over. Address T. H. HUBBARD & CO

PINE GROVE ACADEMY AND SEMINARY.—J. P. THOMAS, A. B. Principal, REV. D MOSER, Teacher of German.

The eleventh session of this institution will open on Wednesday April 29th, 1857, and continue five months.

The institution is situated 17 miles from the Penna. Railroad, with which it is connected by a tri-weekly line of stages. The situation is healthful, and free from the temptation of large places, the community is moral and intelligent. The Principal having rented Mr. Burchfield's large and commodious building, formerly occupied as a Hotel, will be prepared for the reception of students at the commencement of the session. Terms—$1,75 per week; pay able one half in advance and the balance before the student is remov. d. Tuition $3, $4, $5, and $12 per session, pay able one half in advance.

A vigilant circumspection will be had over students placed under the care of the Principal. For further information apply to

J. P. Thomas Principal, Pine Grove Mills, Centre county, Pa., or H. A. McDonaggle Sec'y. Board of Trustees. Feb 11-10-f.

WOOD! WOOD!! WANTED AT THIS OFFICE

BLACKWOOD'S MAGAZINE
AND
THE BRITISH QUARTERLY REVIEWS.

GREAT INDUCEMENTS TO SUBSCRIBE.

COST REDUCED 50 TO 75 PER CENT.

L. SCOTT & CO., NEW YORK, continue to publish the following leading British Periodicals, viz:

1. THE LONDON QUARTERLY (Conservative).
2. THE EDINBURGH REVIEW (Whig).
3. THE NORTH BRITISH REVIEW (Free Church).
4. THE WESTMINISTER REVIEW (Liberal).
5. BLACKWOOD'S EDINBURGH MAGAZINE (Tory).

These Periodicals ably represent the three great political parties of Great Britain—Whig, Tory and Radical—but politics forms only one feature of their character. As Organs of the most profound writers on Science, Literature, Morality, and Religion, they stand, as they ever have stood, unrivalled in the world of letters; being considered indispensable to the scholar and the professional man, while to the intelligent reader of every class they furnish a more correct and satisfactory record of the current literature of the day, throughout the world, than can be possibly obtained from any other source.

EARLY COPIES.

The receipt of advance sheets from the British publishers gives additional value to these Reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.
