He held in his mouth, what, doubtless, next to liberty, the sight of this, we were remarkably struck porkish in their principles as to attempt even the extremity of the tail to their fel-

I have run my first political race, and as some one must always be second best, I am content with the position the Convention has given me. The principles of our party should be dear to exery heart, and office should be a secondary consideration with all who engage in the battle for our glorious institutions. without any double labor. With two horses, it
will plant with ease from 10 to 12 selves per day of
Wheat, Rye, Barley or other small grain. It will
save from 2 to 3 peoks of seed to the sere, and
yield from 13 to 20 per cent, more than the broadcast seeding, by distributing the seed uniformly at
any dozired depth. The objection see common to
Drills, of becoming choked, provided the seed is
not perfectly cleaned, is entirely removed in this
Drill, as white-caps and whort wraw will not prevent the regular distribution of the yseed.

only sutherized agent for Centre and adjoining
counsies. Those who wish the article should make
known their wish in due season so that they may
