Solemn Thoughts.

Few persons can be found so senseless or in one campaign within the last ten years so reckless as not to recognize the serious-that man was receiving pay from three par- ness of death. Probably few could look upties! I am ready to show that last fall, on the solumn stillness of the lifeless human when he could not get as much money from countenance we hout a feeling of awa at the the Republicans as he wished, he went off thought, that, ere long their day, too, must in a fit of rage and wanted to sell out to the come, when the beating of the busy heart Americans. I am ready to prove that he pub- shall cease, and the new quick blood shall lished an editorial article written by anoth we stay its course, when the hand shall lose its man for the American, endorsing the straight cunning and the bright its power. Such imout American ticket and the action of the pressions are too often transitory, passing Committee in refusing to go the fusion, and away with the object that awoke them, bethe same week he sold banself to the Re-cause persons do not stop to consider why it publicans and compleneed to denounce us in that solemnity and awe pervade the pres-ence of death. If they did they would feel has in every campaign notoriously been that this solemnity was reflected upon life. and life would be serious, but neither sorrowful; for then death would lose its terror and would be looked forward to simply as the beginning of eternal life. The solemnity of life consists in the fact that it is a appears to speak "from the book" as one preparation for eternity; and the solumnity appears to speak "from the book" as one preparation for eternity; and the solumnity of death in the fact, that the preparation is over and the eternity begun. In this there is no cause for sadness. but

infinite cause for thoughtful seriousness.
