Philadelphia Markets.

MARCH 22.—Dullness and inactivity is still the prevailing feature in the market for Flour and Meal, and the sales, under a limited shipping demand, are only to the extent of about 4,000 barrels of Flour at $4.50 per bbl for standard and good straight brands; $4.87½a$5.12½ for Penn'a and Ohio extra, and $5.52a86 for extra family and fancy lots, closing with more sellers than buyers. There has been a moderate inquiry from the trade, within the range of these figures. Rye Flour and Corn Meal have been very little inquired after, with small sales of the former at $3.25, and 300 bbls of the latter at $2 86½ for country meal. The market for wheat has been very poorly supplied, but the demand for it has been limited, and prices of prime lots are rather better, with sales of 14 000 bus, mostly in small lots, at 109c for inferior red, 103a108 for fair and prime do, and 115a132c for ordinary and choice white. The millers purchase only to supply their immediate wants. Rye is wanted for distilling, with sales of 1,900 bus., in lots, at 70c. Corn has been in fair demand, and prices at the close were better; sales of 30,000 bus. yellow are reported, *in store*, at 60a61c, closing dull at the latter figure, and some of fair quality at 58a59c. Oats have been in limited request, and 8,000 bus. sold at 24c for Delaware, and 35a36 for Pennsylvania 1,000 bus. Barley sold at 75a83c, and 1,300 bus malt at 90a94c per bus. in store.

Obituary.

On Friday, March 12th, at the farm house Farmers' High School of Pennsylvania, of apoplexy, Mr JOHN DAWE, late of London, England aged about 30 years.

The deceased had just arrived at the school of farm under an engagement to superintend the nursery grounds and seed gardens. He became ill on Monday, the day of his arrival, and suffered greatly from constipation of the bowels, but here his sufferings with such patience, that this, together with his amiable and gentlemanly manners won the sympathy of all around.

No attention or care was spared by Mr Harmon's family, at whose residence he died. His funeral was large much feeling was manifested by all who came to consecrate his grave. On the Sabbath preceding the week he was buried he attended service in the Presbyterian church and looked at and spoke of that part of the grave yard in which his remains were to lie.

He was attended during his sickness by Dr Thompson. Dr Berry was also called to him soon after his first convulsion, and Dr Tafe, of Parksburg, who had been his companion some miles of his journey to Farmers' School, and much interested in his welfare, also came to see him. Dr Berry was the only physician who had ever seen the deceased in his paroxysms, and he had just left, he having returned with him several hours. He well known that he was a native of Cornwall had been the leading partner in a wholesale agricultural seed establishment in London, and that he emigrated to America on October last. He has known relatives and connections. His address were of a higher order both literary and professional, and all doubt the loss he has met with a calamity as to the short space of our acquaintance should meet the eye of others, either in America or Old England of who knows him better they may rest assured that we who stood around his death bed, join in deep sympathy with the bereaved.

THE WONDER OF THE TIMES!

THE YOUNG AMERICA CORN SHELLER!

J. P. SMITH'S Patent, Nov 25th, 1856.

THIS most admirable and complete Corn Sheller has been pronounced by competent Judges, Farmers, Agriculturalists, and Mechanics to be the MOST SIMPLE, DURABLE, AND COMPLETE SHELLER ever invented. It can be propelled with perfect ease, and 100 to 200 bushels of corn can be shelled in a day

WE CHALENGE THE WORLD TO PRODUCE ITS EQUAL for durability, simplicity, *cheapness of construction*, and ease with which it can be kept in motion

At the New York State Fair, held at Buffalo on the 6, 7, 8, and 9th of October last, the YOUNG AMERICA was awarded the First Premium

Any amount of testimony might be given in behalf of this machine, but it is entirely unnecessary, and we will add the following opinions of the Rochester Press only

From the Daily American

After witnessing the operation of this machine, we are deliberately of the opinion that it is destined to supercede all others manufactured for the same purpose. The simplicity of its construction the ease with which it is worked, and the complete manner in which it accomplishes what it is intended to do, all commend it to public favor

From the Daily Democrat

It is truly a most wonderful invention combining all the requisites necessary for a perfect working machine; i. e. durability, cheapness and efficiency

From the Rochester Republican

It is very simple, as all good labor-saving machines should be, and performs its work thoroughly. Its rapid motion, with a small power, shelling as fast as the ears can be supplied, is what attracts and surprises the beholder

In all that pertains to a Corn Sheller this far excels, and is really a wonderful machine

From the Monroe Democrat

Such a machine as the "Young America" would have saved us many a back ache and lame wrist and offered us many an hour for study and mental improvement

The "Young America Corn Sheller" is not a *Yankee* invention, but the production of the genius of a substantial, old *Pennsylvania Dutchman* who has *surpassed* all his Yankee competitors in turning out a machine *exactly adapted to the wants of the farmers*

From the Rural New Yorker

This is one of the most perfect and compact hand shellers we ever examined. It shells both large and small ears without change or gearing. It shells very rapidly, requiring *far less power than any similar machine*, and is withal cheaper than any other sheller

Call and see it operate at Rittenhouse's Blacksmith Shop, in Bellefonte, during court week

AGENTS, ATTENTION!

DO you wish to find good employment, and make money with little or no investment and without interfering with your regular business? If you do, read this advertisement

C E TODD & Co, of 392 Broome Street, New York are manufacturing and selling massive gold Pencils for $5 each (which are cheap at that price) and they throw in a gilt or prize with each Pencil worth from $2 up to $5, $10, $15, $20 $25 $30, $35 $50 $75 $100, $200 and $500. Don't cry out. Humbug! Lottery! It's no such thing. The Pencils are sold at their cash value, and all the profits over the first cost are thrown into the gifts, which actually cost the purchaser nothing. The prizes are distributed on a simple plan of drawing which would take too much room to explain, but which has never failed to give complete satisfaction. When drawn and sent to purchasers 183 gold watches of various prices, 74 pairs of gold dollar 25's gold lockets 850 gold chains, and a corresponding number of other prizes within two months

THERE ARE NO BLANKS,

but every purchaser draws a prize worth $2 certain and it stands thousands of chances to be a higher figure

We want a good agent in every neighborhood throughout the country to solicit purchasers and any agent to be successful, must have a Pencil and prize to exhibit. We pay agents $1 each for each purchaser he obtains, and the first person in any neighborhood who applies for a Pencil and gift will receive the agency for that locality. Should an agent obtain a valuable prize to exhibit with his Pencil he would have little difficulty in obtaining several purchasers and making it a paying business

A NEW IDEA! READ! READ!!!

We ask nobody to send their money, till they know what prize they draw. Any person wishing can by the dollar send us their name and address and we will make their drawing and return them by return mail what prize they drew when they can send on and take the Pencil and prize or not as they choose. We give them private goods and no one is under any obligation to purchase. After the first drawing every purchaser will be required to send in only one, through the authorized agent. We will send with each drawing the number taken out with full description of the plan of drawing. Address

NEW ARRANGEMENT.

The subscriber would take this opportunity of returning his grateful acknowledgements to his friends and the public for past favors. He would also say that in view of the financial difficulties pervading every branch of trade, he has been under the necessity of commencing a new arrangement, which he hopes will be satisfactory to his customers. From the first of January he has entered upon a system of making all accounts contracted due after a credit of four months. Those knowing themselves indebted to him, in the Boot and Shoe business, will call and make immediate settlement, as his old books up to the first inst have been closed for this *especial* purpose, and he is desirous to have them settled without delay.
