### Utah Intelligence.

The Washington Star of the 22nd inst. says: The news from Utah in our telegraphic columns confirms what we stated yesterday as being the current belief at the War Department. That is, that no partial evacuation of Salt Lake City has taken place. The telegraphic dispatches, however, go on to a peace commissioner," has had several conferences with the Mormons, and reports them non-resident proprietors be taxed higher generally disposed to maintain peace, &c.—

This is the more platishible when we remember that Congress has not yet passed the bill making the appropriation nuccessary for the three new regiments:

This is certainly a sensible view to take of the matter and it is to be hoped the scheme, if it be such, may not succeed.

### Death of Gen. Smith.

The death of this brave man has cast gloom over the country. He died on the 16th inst., at Leavenworth, Kansas. Nearly ever since his service in the Mexican war, General Smith has suffered with chronic diarrhea, and it is probable that this was the cause of his death. He leaves a widow and an only son-Dr Howard Smith, of New Orleans - the child of his first marriage His brother and other relatives reside in Phila-

In order that there may be no possible mistake on the subject, we shall place all three of these ordinances side by side in the same column. GENTLEMEN :- I should have written to you long before this, but owing to circumstances unavoidable, on my part, I have been compelled to defer any and everything in he shape of a newspaper correspondence. Much as I value your paper-much as I prize your editorial and local matter in that paper, allow me to say, (although I have been negligent and to a great degree careless in giving it that attention which it so well merits,) I do most sincerely appreciate its presence, and that day upon which it arrives I hail it with the proudest and most devoted welcome. Oh! no one can know how dearly the heart can cherish the weekly visit ent in an adopted county of a growing, 1ct wild Western State.
