AMBROTYPES.—The Arcade picture Gallery is now in full tide of successful operation. Ambrotypes, Photographs, and likenesses by any of the recent improvements, will be taken if desired. Much stress is attached by some operators to the disadvantages of finishing Ambrotypes with the use of black varnish. This mode admits of a greater variety; and gives a higher artistic finish than can be possibly obtained by any *other process*, producing a beautiful spherescopic effect. As an evidence that the proprietor of the Arcade Picture Rooms places the utmost confidence in the durability of Likenesses finished in this manner, he offers to re-varnish any Ambrotype, whether taken at his rooms or not, free of charge, should defect render it necessary. The varnish is not placed upon the likeness as many people suppose but on an additional glass, where it does not in the least effect the picture.—By this mode the likenesses can be beautifully colored.

FRIED, ROASTED AND STEWED.—Yesterday it was intolerably hot. The sun blazed away during the entire day, and there was little or no breeze stirring to temper his fiery rays. There was a great deal of suffering from the heat. In such hot weather too much care cannot be exercised. Violent exertion should be avoided as far as possible—exposure to the direct rays of the sun is dangerous; and imprudence in diet may result disastrously—frequent bathing, the exercise of caution, and the cool and elegant summer clothing got at the cheap clothing Emporium of Wm. S. Tripple will enable all to get through the heated term with comparative comfort.

MORE MILITARY.—We see it announced that a new Cavalry company has been formed in Harris and Ferguson townships, and elected our old friend James Dunlap, Captain. Daniel Wheeland was elected First Lieutenant, and Christian Moser Second Lieutenant. It is gratifying to learn it is the determination of the members to abandon the idea of attending the Williamsport Encampment, and will be on hand on the 21st September, fully equipped to participate in the ceremony of the occasion. Are there no more new military companies to report themselves in readiness for our Encampment?

A FASHIONED PHYSICIAN.—A love scene overheard and photographically reported by Frederick Pluse. "Patrons of the Phair," sighed the lover, "pharvey my pheelings when I pharsue the pharsuit consequences of pheeling phrom your phather's phamily. Phew phellows could have phaced the music and so much phor thudes as I have; and as phickle phortune phails to smile upon our love I phind myself phorced to phorgo the pheasure of becoming your husband. Phair Pharoline, pharewell phorever!" When last seen the phallacious phellow was taking rapid strides toward the phashionable Boot and Shoe Store of T. F. Bohlich, where a large variety of Boots and Shoes can be had cheap.

DENTAL.—Messrs. SMITH, WILLIAMS, & WISE. By reference to an advertisement in to-day's paper, it will be seen that the gentlemen have permanently located in this place and intend pursuing the business of Dental Surgery. The Doctor with his associates are men of much experience, having been prominently identified with the business for many years, and are the inventors of some of the most useful instruments known to their profession. We respectfully invite attention to their card, believing that anything pertaining to their calling will render entire satisfaction to the people.

A VENTRILOQUIST WARNED.—We are informed that R. Warner of Pine Grove Mills, who is indebted to the Democratic Watchman for subscription to the amount of $3 50, has left for parts unknown, without giving us even a chance to collect that he intended to leave. Consequently we give the public the benefit of his name so that it may serve as a "warner" to them against future imposition and loss. We hope there are no more of our subscribers mean enough to play the Guerilla with us in a like manner.

BELLEFONTE FENCIBLES.—The members of the Fencibles will meet at the Armory on Saturday next, at 3 o'clock, precisely, for the purpose of being organized. It is hoped every member will be present. Turn out "sogers."

AN INCIDENT OF THE MISSISSIPPI FLOOD.—A gentleman from Bolivar, Tenn., last week saw a nondescript sort of an article floating down the Mississippi, near his plantation: it resembled a miniature of Noah's ark, with the hull knocked off. Curiosity led him to board it when he was astonished to find himself in the store of a friend residing fifty miles up the river. The contents were not greatly injured. He tied the store to the shore, and started to let his friend know where he might find his place of business.

Some of our editorial brethren are pretty sharp, and oftentimes give each other the hardest kind of raps over the knuckles.—Here is a specimen brick.—"A Western editor, speaking of one of his brethren of the quill noted for his fatness, remarked, that of the Scripture proverb, that 'all flesh is grass,' be true, then that man must be a load of hay. To which the aforesaid load of hay replied: 'I suspect I am, from the way the asses are nibbling at me.'"

NOT A CANDIDATE.—Gen. Jim Lane is no longer a candidate for the United States Senate. Even the extremists of Kansas would be ashamed to elevate a murderer to a seat in our national councils. Jenkins, the murdered man, may have been a good citizen, and his death a social loss. But the tragedy of which he was the victim has saved the Senate from the polluting presence of an infamous desparado.

NOVEL CELEBRATION.—Herr Driesbach, the lion tamer, got out a programme for the Fourth of July celebration in his city, Minnesota, which included a dance on the green, a corn-fed ox roasted for the occasion, 'plenty of lager,' and an oration, from the Herr himself.

The Jury in the case of Mrs. Littles, on trial at Rochester for the murder of her husband, rendered a verdict of guilty of manslaughter in the second degree, and the Court immediately sentenced her to Sing Sing for seven years—the longest term.

Promotion.

An eastern editor has recently been elected to the United Senate,—whereupon it is generally announced that "an editor has been *promoted!*" Promoted! indeed! The highest aim a man can aspire to is to be an editor. It is his prerogative to *make* senators, governors and presidents; to fashion and mould the destinies of the nation. With the lever of the press he can swell a tumult into a relentless war—and with a breath restore peace. He can drag the sweep from the sooty chimney and with the magic charm of Aladdin's lamp, change him to the occupacity of a city magnate. He can shake the Judge upon the bench, and make his imps of the law tremble. "Promoted," indeed! Where is your high and noble spoken Senator that has not shaken and trembled as an aspen, beneath the puniest lash of some eight by-ten country hebdomdal? "Wait until I hear from my constituents!" exclaims the Honorable Senator who pairs off on an important question. And where does he look for that "still small voice" that is to lull his conscience into quiet and indicate the path of duty and right, but in the editorial columns of some comparatively obscure country journal. No! no! there is no promotion to an editor, except in the sphere of his calling. He may be made the dupe of scheming demagogues; his energies may be wasted upon designing knaves; his best intentions may be changed and perverted by political tricksters and bad men. In the generosity of his nature he may use his talents, his money and his energies for the benefit of corrupt and ungrateful time servers; and when cheated and swindled he may seek place for pecuniary profit to reimburse him for his liberal and generous outlay for others; may he may even beg of the very men he has placed in power, defended and spent his money for, some petty office to keep himself and family in bread, but they cannot promote him. *West Chester Jeffersonian.*

RED THE DRUM.—"Old Bob," a negro drummer in the Revolutionary War died recently, in Elbert county, Ga., at the advanced age of 107 years. He was present at the battles of Eutaw Springs, Guilford Court House and Brandywine.

The Tartars pull a man by the ear when they want him to drink, and keep pulling it until he opens his mouth, when they pour down the liquor. We know some folks whose ears would not require much pulling.

CENTRE COUNTY, SS:

THE Commonwealth of Pennsylvania, to Daniel Michtley, Adm'r of account of Frederick Michtley, late of Walker twp. dec'd. Also to John A. Bartholomew, George Bartholomew, David Bartholomew, Allen Bartholomew, Margaret Bartholomew, Priscilla Dorman, in Walker twp., Reter Bartholomew, in Porter twp., Clinton County, Mary C. Reynolds, in Scott County, Iowa, Henry Beck, Guardian of Ira Ephraim, and Henry Bartholomew heirs and legal representatives of Wendell Bartholomew, late of Walker twp., dec'd. Also, to Daniel S. Michtley, Elizabeth, Mary and Ellanors Michtley, and Jeremiah Swartz, Guardian of Ira C. Michtley, heirs and representatives of Frederick Michtley, late of Walker twp., dec'd.

GREETING:—Whereas at an Orphan's Court, held at Bellefonte, the 27th day of April 1858 the petition of John Swartz, one of the Admr's of account of the said Wendell Bartholomew, late of Walker twp., dec'd., was presented and read, setting forth that the said Wendell Bartholomew died on the 2nd of September, 1867, in Walker twp., aforesaid intestate, and letters of Administration have been issued in due form of Law, to the said petitioner, and George Bartholomew, both of said twp. of Walker, died on the 20th of February last at the said township of Walker, and that letters of Administration, in due course of Law to Daniel Michtley, and that the said Wendell Bartholomew in his lifetime, to wit: On the 31 day of May, 1856, was seized in fee of and in a certain tract of land, situate in Walker twp., aforesaid, and bounded and described as follows, viz: Beginning at Stones on the line of John Swartz, thence by other land of the said Wendell Bartholomew, North 28½ degrees, West 23¼ perches, to Stones, thence North 57 degrees, East 4 perch to a post, thence by land of Frederick Michtley South 38 degrees, East 23⅜ perches, to a post, thence by land of John Swartz, South 59 degrees, West 48 perches to Stone, containing in all about sixty one perches—That the said Wendell Bartholomew, by a bargain or contract in writing, did bind himself to sell and convey the Real Estate with the appurtenances unto the said Frederick Michtley in fee simple, in consideration of thirty five dollars to be paid to the said Wendell Bartholomew.

That the said Frederick Michtley in his lifetime paid unto the said Wendell Bartholomew, thirty five dollars, the consideration for the said lot of ground in full. That no sufficient provision for the performance of said bargain or contract appears to have been made by the said deceased in his lifetime though he was well satisfied and intended that the same should be consummated.

You and each of you are hereby cited to be and appear before the Judges of our said Court, at Bellefonte on the 4th Monday of August next, to answer and bill or petition, and show cause if any you have, why specific performance of said contract should not be decreed.

Witness the Hon. James Burnside, President of said Court at Bellefonte April 27th 1858.

WEST'S
Patent Galvanic Cement
FOR ROOFING.

THE undersigned having purchased the right for this Cement in Mifflin and Centre counties, are now prepared to furnish and put it on roofing whenever desired—the roofing being covered by the owner. Scientific men under the direction of government and architects and builders in various parts of the country, for years have been studying and experimenting to discover some composition or article for roofing, which would resist the changes of our climate, and would unite the qualities of *Impermeableness to Water, Incombustibility, Durability and Cheapness*. No article now in use possesses these qualities. Shingle roofs are not fire-proof, and cannot be used upon flat roofs. Slate can only be used upon steep roofs. The contraction, expansion and rusting of metallic roofs are so great in this changeable climate that they soon become worthless, or the repairs will cost more than a new roof. The various cements and compositions which have been introduced, can be supplied only to very flat roofs and they are all so affected by the action of the weather that they will melt and run in summer and crack in winter and in a short time become crumbly and worthless. The inventor of the Galvanic Cement has labored for many years to obviate these difficulties, and it is believed by those who have had opportunities to test the matter, that he has entirely succeeded.—As now applied,

First—It is completely impervious to water. Water may continually stand upon the roof without affecting it in the least.

Second—It is fire proof. It is so incombustible that it will afford ample and perfect protection against fire sparks and burning shingles from another building immediately adjoining.

Third—It is durable. It is not injured by atmospheric changes, having been tested for several years by the Patentee, at Syracuse, N. Y.

Fourth—It is cheap. Roofs will be put on for about half the cost of tin and will last much longer.

Fifth—Repairs are easily and cheaply made.

Sixth—It is sufficiently elastic to entirely resist the expansion and contraction by heat and cold and will remain perfect and solid in the warmest and coldest weather.

Seventh—It is adapted to all kinds of roofs either flat or steep.

Eighth—It is valuable for repairing old roofs. Old shingle roofs may be covered without removing the shingles. Old metallic roofs can be made perfectly tight and secure.

Ninth—It is especially adapted to all kinds of seaming around buttlements, sky lights and dormers and for the lining of eave troughs and gutters. Roofs which have given trouble for years and which have continued to leak in spite of all efforts can be made perfectly secure by this Cement.

Tenth—It has been proved to be the best article ever used for covering car tops and steamboat decks.

Eleventh—This cement applied to new tin roofs preserves them from rusting by furnishing a coat which is at once impervious to water and an almost perfect non-conductor of heat.

Twelfth—It is the only roofing material patented which contains India rubber and gutta percha.

For information in regard to this cement we refer to the owners of property to address the proprietor at Locks Mills, Mifflin county, Pa.

AN ORDINANCE,

Supplementary to an ordinance entitled "An ordinance to prevent Swine from running at Large in the Borough of Bellefonte."

"Whereas no provision is made in the aforesaid Ordinance, under which the owners of swine can redeem them after they have been impounded by the High Constable in pursuance of the authority vested in him by the third section of said Ordinance. And whereas it is reasonable and just that owners of Swine found running at large and impounded by the High Constable should pay a reasonable tribute all owed them to which they may redeem their property. Therefore Section 1st. Be it ordained and enacted by the Town Council of the Borough of Bellefonte in Town Council assembled and it is hereby ordained by the authority of the same. That whenever and as often as the High Constable of the Borough of Bellefonte shall and does impound any swine by him found running at large within the limits of said Borough in pursuance of the authority vested in him by the third section of an Ordinance to prevent swine from running at large in the Borough of Bellefonte enacted the 7th day of October, 1858, a period of three days shall be and is hereby allowed to the owners of swine to make such swine so as aforesaid impounded by them or High Constable as hereby authorized and required upon demand made by the owners of swine so as aforesaid impounded and properly shown to them within three days after the same have been impounded to deliver such swine to the owners thereof. Provided nevertheless, that the High Constable shall not deliver and give up the possession of such swine until all necessary expenses and reasonable costs for the taking up and impounding them shall have been first paid by the owners thereof and Provided also, that no person entitled as aforesaid shall be so construed as to allow in any manner any part or parts of the ordinance to which this is a Supplement, except the aforesaid third section thereof, and that only as is herein expressly provided.

Enacted into an Ordinance supplementary the 21st day of June A. D. 1858.

By order of the Town Council
DAVID MITCHELL, Pres't.

THE LIVER
INVIGORATOR!
PREPARED BY DR. SANFORD.

Compounded entirely from GUMS,

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public that acts as a *Cathartic*, *Emetic*, *Diuretic*, and more effectual than any other medicine known. It is not only a *Cathartic* but a *Liver* remedy acting first on the *Liver* to eject its morbid matter, then on the stomach and bowels to carry off that matter, thus accomplishing two purposes effectually without any of the painful feelings experienced in the operations of most *Cathartics*. It strengthens the system at the same time that it purges it, and when taken daily in moderate doses, gives strength and build it up with unusual rapidity.

The Liver is one of the principal organs in the human system, and when it becomes affected the whole system becomes affected almost entirely. All persons know the importance of the Liver for the preservation of health, when the bowels are costive, or when the Liver suffers in consequence—having ceased to perform its duty, all the other organs of the system suffer in consequence—the whole machinery of the body is deranged—the digestion is bad—the head aches—the skin becomes sallow—the eyes yellow—the appetite fails—the breath offensive—the blood impure—the whole system is deranged—and the patient is in a miserable condition. In all diseases of that organ the Liver Invigorator has never failed in a single instance to effect a cure, when the directions have been strictly complied with, and in many cases where the patient has been given over by his physicians as incurable, a few bottles of the Liver Invigorator have restored them to perfect health. In all cases of Liver Complaint, Dyspepsia, Jaundice, Biliousness, Fever and Ague, Fever, Headache, Costiveness, Piles, Loss of Appetite, Nausea at the Stomach, Sick Headache, Diseases arising from a disordered state of the Stomach, Diarrhœa, Dysentery, Colic, Flatulency, Colds, Chills, Nervousness, Low Spirits, Blotches on the Skin, Impurities of the Blood, and all Diseases arising from a Disordered Liver or Stomach, such as Dizziness, Sour Eructations, Sick Headache, Pain in the Side, Back, Chest, Limbs, &c., a dose or two will give relief in twenty minutes. This is no fiction, many who are now using it are willing to certify to the above facts. Two or three bottles will cure the worst case of Piles in existence, as many have proved. Also, for Fever and Ague, Chill Fever, and Typhoid Fever, it has never been known to fail. Those who are subject to Spells of Sickness should keep a bottle of the Liver Invigorator by them, as a dose or two will prevent the fatal progress of disease. Only one dose taken at night is sufficient to relieve the worst case of Costiveness. Two doses will cure the worst case of Headache. Female Complaints will find relief in the use of this medicine, and in all cases it is recommended to be taken according to directions. Only one dose taken at night is sufficient to relieve the worst case of Nightmare. Only one dose taken at night is sufficient to relieve the worst case of Dyspepsia. Only one dose taken at night is sufficient to relieve the worst case of Sick Headache. Only one dose taken at night is sufficient to relieve the worst case of Cholic. One dose often relieves the worst case of Cholera Morbus. Only one bottle taken as directed will relieve the worst case of Cholera. Only one bottle taken as directed will relieve the worst case of Worms in Children. Only one bottle taken as directed will relieve the worst case of Bowel complaints. Only one bottle taken as directed will relieve the worst case of Dropsy. In every case where the Liver Invigorator has been taken as directed, it has never failed to effect a cure. Those who are subject to Fever and Ague, Chill Fever, and Typhoid Fever, should keep a bottle of the Liver Invigorator by them, as it is the only medicine in the world that will cure them. Those who are subject to Fits, Epilepsy, Spasms, St. Vitus Dance, Hysterics, Nervousness, Nervous Debility, Nervous Headache, Neuralgia, Tic Doloreux, Rheumatism, Pain in the Side, Back, Chest, Limbs, &c., will find relief in the use of the Liver Invigorator. Those who are troubled with Worms in Children will find relief in the use of the Liver Invigorator. Those who are troubled with Bowel complaints will find relief in the use of the Liver Invigorator. Those who are troubled with Dropsy, by causing a speedy return of the water, will find relief in the use of the Liver Invigorator. Those who are troubled with Colds, Coughs, Sore Throat, Bronchitis, Asthma, Consumption, Pain in the Chest, Whooping Cough, Croup, Influenza, Hoarseness, Tickling in the Throat, Difficulty of Breathing, Spitting of Blood, Pain in the Side, Back, Chest, Limbs, &c., will find relief in the use of the Liver Invigorator. Those who are troubled with
