THE DEMOCRATIC WATCHMAN.

THURSDAY AUGUST 19, 1858.

LOCAL AND PERSONAL.

—BELLEFONTE AROUSED—*Great Demonstrations.*—When the Message from Her Majesty the Queen, being the first communication of thought that ever passed across the Oceanic Telegraph, was received in this place on Tuesday last, it sent a thrill to every heart. The Bells were all rung for fifteen minutes, and the Brass Band appeared upon the Public Square and enlivened the occasion by appropriate music. Our people ran to and fro, like men stricken with consternation.

Arrangements were at once made for a grand demonstration in the evening, and at the departure of gray twilight the Conrad House was beautifully illuminated, by having a light at every pane of glass, being 196 in number in the front of the building. The Telegraph Office was also beautifully illuminated. The Brass Band again appeared upon the Veranda of the Conrad House, and made the streets merry with their lively and beautiful airs. The citizens of our town turned out in a mass - filling the streets and side walks. Men, women and children were there, all giving expression to their astonishment, and saying to each other: "The World is united by Telegraph, Glory be to God in the Highest—on earth, peace and good will toward man."

When the people were all assembled in front of the illuminated building, three cheers were proposed for *Cyrus W. Field*, the indomitable, unflagging projector of the great enterprise, which was responded to with three tremendous cheers that made the very welkin ring. Three hearty cheers were also given for the Brass Band.

Speeches relative to the great event were then made, and the meeting dispersed. The bells were tolled, bonfires kept up, and guns fired until 12 o'clock at night.

CAMP MEETING.—The Camp Meeting for the Bellefonte Circuit, which has been in progress for the past week, come to a close this morning. A large number of persons professed religion, and were taken into church membership as probationers. Generally good order prevailed, and the weather being unusually pleasant, our Methodist friends enjoyed quite a season of profitable communing together. The largest assembly of people, that ever convened on any Camp Meeting occasion to which we were a spectator, were present on Sabbath. The discourse on the divinity of Christ, by the Rev James Sanks, at 11 o'clock, was highly interesting, and the one by the Rev. Mr. Allen, on our temporal and eternal happiness, at 3 o'clock, was deeply impressive. The latter gentleman traveled the Bellefonte circuit thirty years ago, and alluded to his association with our people in a manner that evidently recalled to mind the transitory nature of all things terrestrial.

NEW ARRANGEMENT.—By reference to our advertising columns it will be seen that a dissolution of partnership between the firm of Kabello & Bayard took effect on the 2nd inst. Mr Bayard still engages in the Foundry business at the old stand, where he will be happy to wait on all who may favor him with their patronage. This gentleman is a practical moulder and has perhaps no superior as a workman skilled in the various branches of his occupation. Farmers and others wanting anything in his line, will find it, if they desire to exercise economy, particularly to their interest to purchase at his establishment. We hope he may be abundantly successful in his enterprise.

SUDDEN DEATH.—On last Saturday a negro, named Zachariah Tom, died at the residence of a colored family in this place the members of which were, with the exception of a woman, absent at the time. She became terribly frightened lest suspicion should attach itself to her as having been in some way identified in murdering the man, and accordingly repaired to Justice Weaver for a jury of inquest to be held upon the body. The Justice summoned a jury in accordance with legal requirements, and held an inquest, which rendered a verdict of "death from natural causes and no other." The deceased was a stranger in this place. Doubtless the equilibrium of the frightened negress was effectually restored by the decision of the legal tribunal.

CAMP LOGAN.—We are gratified to find our people manifesting so much activity to render the contemplated Military Encampment one of interest and pleasure. A field has been selected south east of this place, by the committee appointed for the purpose. Almost innumerable invitations have been extended to distant Companies, many of which have been answered affirmatively. From almost every direction we are receiving intelligence of an encouraging nature. During our recent visit to Clearfield several military gentlemen signified their intentions to be present, and to exert an influence favorable to our Encampment.

MORE IMPROVEMENTS.—We are informed that Messrs Humes, McAllister, Hale & Co., design building a new house, into which they will eventually remove the Bank. The improvement will be erected on the site occupied at present by the old building, now in the occupancy of Mr. Gahagan for the Marble business. The building will be a large one, and arranged for different business purposes. The work will be commenced shortly, and completed as soon as it can be conveniently accomplished. Our town is improving, and we anticipate being able to report progress in this line quite frequently.

RELIGIOUS SERVICES.—The Rev. E. Smulders of Baltimore, and the Rev. Henry Giesen, of Buffalo, are now holding a course of religious exercises in the St. John's Catholic Church of this place, which will be continued during the week. The lectures of the Reverend gentlemen have been well received by their hearers. Services commence at half-past 5 o'clock, A. M., and at half-past 7 o'clock, P. M.

ON A VISIT.—Our old friend Dr. F. R. Smith has been paying his former associates in this place a visit—the first one since his removal to the west. The Doctor has planted his stakes at St. Paul, Minnesota Territory, where he has become largely identified with the interests of the country. He looks as though he enjoyed life well. We sincerely hope he may ever continue to out-ride the cares and vicissitudes of life's journey.

FIRE IN MILESBURG.—Last week a fire occurred in the Axe factory belonging to Mr Joseph Green, of Milesburg, which completely destroyed the building. The factory was in the occupancy of Mr C. K. Essington.—No insurance was on the property. The fire is supposed to be the work of an incendiary. The entire loss is about $1200, of which sum Mr. Green sustains a loss of 1000.

THE IMPROVEMENT of our young friend Mr. F. P. Green, on the new addition to this place called "Northern Liberties," is going on very rapidly. It already begins to evince good taste in the design, and should the enterprise be pushed on to completion in keeping with its present character, Frank will have one of the prettiest dwellings of which the people of our locality can boast.

IT IS A HUMBUG.
WHAT IS A HUMBUG?
THE GIFT BOOK SALE.

HOW can it be a humbug when you receive the value of your investment in the book which you purchased under gift of greater or less value, with every book purchased. There are questions that come within our hearing almost daily, but if people will give us a call, we will convince them that it is neither a humbug nor a lottery, as the books which we sell are bought at a great sacrifice, also the gifts, owing to the stringency in the money market which enables us to make these inducements to purchasers. The books which we sell are all of a moral and religious character.

P. S.—Orders from the country solicited, we will give a one dollar book and Gift to any one who will get up a club of eight purchasers sent to one address, if ordered by mail send six stamps to prepay postage on every one dollar Book. Catalogues sent free.

Any news publisher copying the above and forwarding a copy of his paper at the time of the first insertion, shall be entitled to the regular advertising rates in Books and Gifts. For further particulars address SMITH & SIBLEY, Bellefonte, Centre Co., Pa., in care of READ & BOYLE

WEST'S
Patent Galvanic Cement
FOR ROOFING.

THE undersigned having purchased the right for this Cement in Mifflin and Centre counties, are now prepared to furnish and put it on roofing whenever desired—the roofing heretofore used by the owner. Scientific men under the direction of government, and architects and builders in various parts of the country, for years have been studying and experimenting to discover some composition or article for roofing, which would resist the changes of our climate, and would unite the qualities of *Impermeableness, Durability and Cheapness*. No article now in use possesses these qualities. Shingles are not fire proof, and cannot be used upon flat roofs. Slate can only be used upon steep roofs. Tin contracts, expands and rusting of metallic roofs are so great in this change the climate that they soon become worthless or the repairs will cost more than a new roof. The various cements and compositions which have been introduced, can be supplied only to very flat roofs, and they are all so affected by the action of the weather that they will melt and run in summer and crack in winter, and in a short time become entirely worthless. The inventor of the Galvanic Cement has labored twenty years to obviate these difficulties, and it is believed by those who have had opportunities to test the matter that he has certainly succeeded.

The Cement is applied

First It is completely impervious to water. Water never can by any possibility stand upon it or affect any thing in the least.

Second It is fire proof. Burning coals of fire that it will not and maybe [illegible] perfect protection against fire sparks and burning shingles from any other building immediately [illegible].

Third It is durable [illegible] atmospheric changes having been tested for [illegible] years by the Patentee and found [illegible].

Fourth It is cheap. Roofs will be put on for about half the cost of tin and will last much longer.

Fifth Repairs are [illegible] and [illegible].

Sixth It is [illegible] elastic to contract by the expansion and contraction by heat [illegible] it will [illegible] and [illegible] and [illegible] and [illegible].
