BELLEFONTE, OCTOBER 3N 1858.

# The Abuse of Money

Some of our cotemporaries have been en gaged in discussing the advantages of being not only an exallent thing mixel but to af-ford presumptive evidence that the lucky individual is a man of refinement, and per-haps one of energy and character. We achos go quite so far in humiliating our-selves at the shrine of mammon, we are not really to prostitute burselves in the dust be-fore it, or to kiss the hum of its garment. An exchange takes thus sensible view of the subject: There are better thing is mine takes thus sensible view of the subject is of thousands this fall, and such as as then the more are interested for their dai-wealth. There are better thing is mine takes thus sensible view of thousands this fall, and such as the sherine of the subject is of thousands this fall, and such as the sherine of the subject is of thousands this fall, and such as the sherine of the subject is of thousands this fall, and such as the sherine of the subject is of thousands this fall, and such as the state is of thousands this fall, and such as the sherine of the subject is of thousands the state is the subject is of thousands the state is of the subject is of thousands the state is of the subject is of the subject is of thousands the state is of the subject is of the subjec

stir at the mention of Creases But Tell, even among our native born population notice be allowed the use of the term, has already is an assault with intent to kill, and the other and Bruce and Leonndas are words to make thing is more natural line that they should, in our estimation, reached the *acme* of *rastices*, and the bin grasp the sword hilt. We doubt the pelievies to government'al poley. They have start to government's have scaled of an evil that is as disastrous in the end is a disastrous in the end is that be true to start the start to government's have scaled to them, with a start to governments have scaled to the maxing table. If the laws are not out further examination, to be in some way or other at the bottom of all rational or so to first the the totom of all rational or so the further examined to the ontomer source of the term, has already is an assault with intent to kill, and the other is a kill with intent to start to government's book on the start to government's have scaled of them, with a start to government's have scaled to them, with out further examination, to be in some way or other at the bottom of all rational or so to first at the outom of all rational or so to be all toolles. That the Tariff has caused on resource against the proprietors they will be as nuclear to the start difficult is is impossible, for we mercus as the locusts of Error. If the use the start of the start difficult is is impossible, for we mercus as the locusts of Error. If the use the start of greed for riches will become too mortimate if indeed it has not stready done so. The acquisition of money as the great cut of the has become popular to an extent that threatens seriously the future integrity of practices to be more interested in what a practices to be more interested in what are his prime integrity, his culture or his mode of the. The high and noble mind which the contraction of the present difficult is a supposed because, for the provide certainly, but it is never the is a contraction of the present difficult is a supposed by the part of the present distress, than it was presented in the present distress, than it was the proved certainly but its is neglicity of the provide its is annowneed by the washington Umon the provide its is annowneed by the provide its is neglicity of the late Pennsyl-ty is neglicity of the late Pennsyl-ty is neglicity of the late Pennsyl-ty is neglicity of the issue of the provide its is annowneed by the p incly inside the subject of cimilation now ding over speculating and giving out prom tarely inside the subject of cimilation now uses to pay which we could not meet Even our literary betrays the same difference. These are general causes with which of

 $\begin{array}{c} \text{all other influences in the state for we have \\ \text{stabled eulogies of releas as the great aim \\ of existences, labored defences of ferums as \\ \text{stabled eulogies of relax as \\ \text{stabled eu$ We believe that wealth is a trust to be hild. They now remember that defeated most coming a schous one, for cur intemploy-erustingly in Peunsylvania, in 1854 they ed funds are increasing with a most embar-for the good of society, and not a prize to carried off a great national vietory in 1856 transmit degree of rapidity." Comparing be enjoyed selfishly. Yet we are far from saying that the rich man should bestow his all in Ams. On the contrary indiscriminate alms-giving is the worst application that can be made of money ; for by fostering idleness duty of the rich should be to stimulate industry by keeping their capital active, not community by a bad example.

The General Result. Gift Enterprises. It is useless to deny the fact that we are ' . It has long since passed into a proverb badly beaten in Pennsylvania; having lost that "misfortunes never come singly," and a large majority of the Congressmon and an ifto carry out the literal fulfilment of the State Legislators, as also our candidates for adage, the country has been flooded with Supreme Judge and Canal Commissioner. - Interies of both high and low degree, more This result was not entirely unexpected to politely termed and known as "Gift Enterus We were all along fearful that there prises." Glaring posters stare you in the were causes, local and general, sufficient to face containing "magnificent schemes" to bring a temporary reverse to the Democrat- | swindle the dear people, whilst flaming ad-

e party, and therefore we are not as much vertisements in the public journals set forth disappointed in what has transpired as many the beauties of the swindling institutions, than with the kitchen poker. of our De mocratic friends. There was an and show the many valuable things that are apathy in the party, growing out of the to be given away.
