More about their Politics

Our Democratic friend, Col. J. G. Kurtz. the Junior editor of the Central Press, considers himself again aggrieved brandishes his sword-toots the trumpet of the Senior editor, and pitches in with very warlike demonstrations. Consistent George has made another attempt to distinguish himself in the capacity of an editor, and in this respect we have not been disappointed in our expectations. We always knew George had talent that would some day clevate him to a high position in the scale of intellectual excellence. He is rising fast, while Mr. Yellowplush, the Intellectual Grant, plays Ingin" from behind his reputation. He has military courage too- an unbounded propagate the principles of Democracy principle which Democracy implies Of course he understands this principle to apply to Black_Republican theorizing -the height of his ambition in political success Of course to advocate a principle without remuneration, is not consistent with his notions of propriety. Of course he thanks the Democrats ungrateful in not selecting him for Register and Recorder. Of course, in consequence of this defeat he labors for the triumph of the Black Republicans, and seriously inquires, what has the Democratic party done to gremunerate" " his ' valuable " services." Of course, his democracy is too consistent to be questioned by the Junior of the Watchman. Ah! indeed ' Of course he don't believe our version of Democracy quite Orthodox, and "throws" himself into the " breach" in order to preserve the fame and reputation of the party Leonidas, and his band of valuant Spartans, scarcely equaled the bravery of Consistent George in this attempt to save the honor of his politics (?) We recommend the erection of a monument to commemorate his name to future generations, for this self sacrificing devotion to the We don't suggest the erection of a monument for his love of principles indeed, but for his cool calculating impaden t and intolerable presumption. Surely every person knows the Central Press is ownad by Black Republicans ! Surely every person ought to know its editors are hired to assume Democracy, and prosecute unprincipled designs ' Surely every reader knows they have not answered any of the charges which we brought against them in a former issue of the Watchman ! Surely every person knows, their zealous efforts have been tending to excite the bitterest animosities in the school of Democratic politics. And yet Consistent George claims to be a Democrat! Did he ever advocate the mon and measures of the Democratic party? Did he place the names of Democratic can- Black Republican ideas Bah! Just as didates previous to the late election at his paper's head? Did he learrefidelity to Demby supporting each and every candidate of hypocrisy in this enlightened age. Does he now support a Democratic policy? and they feel the weight of the responsi He is opposed to Democratic principles, and bility is more than they can bear gives abundant evidence in a hopeless in pane" of the "Intellectual Grant" His in view of threatened personal exposure are piter A sideed ! He has " thrown" himself into the "breach,"- into the service of a man, but it never constituted him a man port of Mobile. She is bound for Nicarahis Black Republican allies, and Democrats in consequence only " laugh at his calami-

ty, and mock when his fear cometh!' Now, Consistent George, really thinks it is an "indication of guilt" in any man to " magnify the faults of others 'in order to hide his own ' sins and inconsisten cies?" In this controversy, we have not endeavored to magnify the faults of either the Intellectual Giant, or himself We have endeavored to promulgate the truth, alike regardless of their frowns or favors!

What does the readers of the Central Progethink of his philosophy in this respect Consistent George has made the virtual acknowledgement, that he is at fault in being associated with the Black Republicans, and endeavors to cast aside the odium which so deeply stigmatizes his political reputation, by adhering to this policy, of 'magnifying' the faults and "inconsisteneses of others.

But if Consistent George is really a Democrat, why does he then engage in publishing a newspaper, avowedly hostile to the principles he professes 2" Why does he prethat every public speaker of the Horace mental principles of their faith ? Now Consistent George is anxious to mpeach our Democratic reputation .-Talk to your heart's content, about the pursuing such a policy.

But again, we are really surprised, bescarcely be required to conduct half a dozen such campaigns. New type and fixtures would cost about two hundred dollars Where did he get the cash? Where did consistent George expendit? Was it not love of patriotism, and a great desire to among his Black Republican friends away at Rochester, New York, he did this noble Consistent George really thinks himself a service in electioneering for the Jumor Democrat, and of course Hz understands the Surely he forgot to mention this particular, and supposed we had torgot it too But let us look at another version of the store Two hundred dollars really expended by consistent George! Who ever knew him to possess the money? A journeyman printer with this amount in cash to spend in politics - the idea is preposterous story needs no refutation, where the habits and cupidity of consistent George are known

Now, with the Intellectual Giant we have word or two to say He concluded to prove himself not recreant to Democracy in supporting Free Trade Davy Wilmot. Does he deny Mr. Wilmot's proclivities in this respect? He cannot and he dare not do it He supported Mr Wilmot because he was ourse he advocated Mr. Wilmot's election on the tariff question, when in 1857 it was scarcely made an issue He supported Davy Wilmot because he was the friend of " Free dom, ' and advocated ' freedom' on all im ortant duties on our foreign importations And now Wein Forney claims to be a Dem ocrat - a "democratic editor." indeed. How can be reconcile his present position on the tariff question with his former inconsisten cy in supporting Mr. Wilmot as the Black Republican candidate for Governor? Sure ly he don't pretend to say that Mr. Wilmot' former views and his are now identical Surely he don't intend presuming on the intelligence of our people by endorsing Mr Wilmot's politics, and adhering to a high protective tariff system. Such would be absurd indeed! Yet apparently he manifests a disposition to contest the point. Gov. ernor Packer, he supposes, has become obe dient to his mandate, and modified his views of course, to suit this Intellectual Grant's notions of consistent politics. He thinks h can support the Governor in future, and all democracy will become subscruient to his we anticipated ' The Intellectual Grant and consistent George preaching up their demoocratic principles, in treason to the party, or racy for pay!
