BARLOW AGAIN - When we referred a week or two since to the negligence on the part of Mr. Barlow, our member of the Legislature, to furnish us with documents. we were inclined to think at the time that he had become offended at us and had some private pique to gratify-as it is customary to frank documents to printers, no matter to what party they belong Bit it appears from the following article from the Centre Reporter that we are not the only neglected. Friend Kurtz talks to Mr. B., like a Dutch uncle, in the following style :

esty goes to isr that we have not once seen his mame mentioned in connection with any subject, save when it is occasionally seen among the yeas and nays, and when he pro-posed our neighbor of the Democrat, Col Brown, for State Treasurer ; and we have no doubt that his modesty in the fatter, led bur, to the performance of .t. with trenhan, to the performance of st, with trem-bling lips. The fact is that few, very few of the stiggens of Centre county, know who their Representative is, so little is his name nnected with, or his voice heard upon the interests of our County and of the commonwealth : and were it not for an old rusty Barlow knife, occasionally seen in the hands of our imp, we would not be willing to wager we could guess his name.

What's become of Barlow, we ask ! We are sure he is not attending to his duty as he should, otherwise he would not have neglected to furnish us with Documents from Harrisburg ; not a single one have we received from him This is the first time that we have been thus treated by an opposition member, from this county or distric in the Senate or House. Can it be possible A CHANCE FOR A SPECULATION. -- It will
