A WATCH THEF CAPTURED - Last week a man named J. Guinter was lodged in jail in this place, having been arrested on the charge of stealing a gold watch at Port Matilda some time ago. It appears he fait under very suspicious circumstances, en route for " Pikes Peak," and had succeeded in getting as far West as Pittsburg when he was head was found in his possession, and is valued at about eighty dollars. The "Chronicle"

runaway was accompanied by a stump tail- conditions. ed dog and other "traps and tricks," thro' which he might be easily identified. When the train reached the depot, Squire Richardson, the good looking gentleman who at ing the track and already about two unless tends to the baggage at the station, made the acquaintance of "stump tail," who had very rapidly. It is the intention of the Been domiciled in the baggage car, and through him got an introduction to his master. Richardson, too, is " some" of a " detective," and feeling satisfied from the "stump tailed' evidence before him that he had the alleged thicf safe, he informed one of the night police of the fact, and Gumter and his dog were taken into custody.

On his person was found two watches and between \$300 and \$400 in money. He was remanded to prison to await the arrival of the party at whose instance he was arrested But for "stump tail" the police might have another tale to tell. Even as it was they got in only at the tail end of the pursuit a piece of news which would sourcely be found retailed here if our tale could have been rendered complete without it Moral When you are running a race for your liberty and desire to clude arrest, never travel resharg with a detump tuled dog as your compan-

A WORD WITH OUR SUBSCRIBERS -- We hope our subscribers will not forget that publishers of a newspaper, cannot succeed without a liberal encouragement. Court week is approaching and we expect each and every subscriber indebted to the Watch man to come forward and discharge his indebtodness. It is quite important to us to been restored to health by its use as the GREAT receive our dues, and subscribers will find Ramany for all the diseases which it professes to the advantage not the less inconsiderable to them on paying for the paper in advance -The ferms are well known to be two dollars and fifty cents if delayed 'till' the end of the year.
