

THE DEMOCRATIC WATCHMAN.

WEDNESDAY JULY 14, 1899.

LOCAL AND PERSONAL.

WHAT IS RESPECTABLE SOCIETY?—We heard a man, otherwise intelligent enough, lately sneer at another, because, "said he," "he never meets him in respectable society."

This notion of what constitutes respectable society, is quite a favorite one with that class of individuals, whom Thackeray has so significantly called "snobs."

It is a community of mere money getters, wealth is the test of respectability. Among the proud, narrow minded, officious nobility of the Faulstich St. German, respectability depends on being descended from ancestors, who have married their money for many centuries, rather than muscle for brains.
