Ir is a fact that, at some period, every memeer of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plais common sense; they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired heafth. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr Hustetter has introduced to this country a preparation bearing his name, which is not a new metheine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters proceed to rewerfully upon the stomach bowels. operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple pro-

rigorous action, and thus, by the simple pro-cess of strengthening nature can be sys-tem to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nau-sea, Flatulency, Loss of Appetite, or any Bilious Complaints, srising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysontery, Colic, Cholera Morbus, &c., these Bitters have no could.

Dysontery, Colic, Cholera Morbus, &c., those Bitters have no equal.

Diarrhoan, dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and thet, will be speedily regulated by a briof 43% of this preparation.

Dyspopsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infalphysician will recommend Bitters of some kind; then why not use an niticle known to be infal-lible? All nations have their Bitters, as a pre-ventive of disease and strengthener of the sys-tem in gaireral; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation ema-nated, basist upon seventific experiments which have, tendpt to prove the value of this great preparation in the senie of medical science preparation in the senie of medical science.
FEVER AND AUTE.—This trying and provoking disease, which fixes its redentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BUTTERS. Further, none of the above-stated diseases can be contracted even

Sarsaparilla has, and deserves much, the

Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretastling to be concentrated extracts of it, contain but hitle of the virtue of Sarsaparilla,

contain but hitle of the virtue of Sarsaparilia, or any thing clae.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the aick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Here, bitter and painful disappointment has followed the use offthe various extracts of Sarsaparilla which flood-the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which restupon it. And we think we have ground for believing it has virtues which are arresiable by the ordinary run of the diseases it is intended to oute. In order to secure their complete radication from the system, the remedy should be judiciously taken-according to directions on the bottle.
