

HOSTETTER'S STOMACH BITTERS.

It is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions. But with the aid of a good food and the exercise of plain common sense, they are able to regulate the system as to its permanent health. In order to accomplish this desired object, the true course to pursue is to eat that which will produce a normal state of things at the least level of vital strength and life. For this purpose, Hostetter has introduced to the public a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate on the stomach, bowels, liver, and spleen, to bring them to a healthy and vigorous condition. They also have the effect of strengthening a weak, and enabling the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Headache, or any of the ailments complained of, arising from a morbid condition of the stomach, bowels, producing Cramps, Diarrhoea, Colic, Cholera, Malaria, these Bitters have no equal.

Dyspepsia, Indigestion, or any of the ailments mentioned, is generally contracted by the use of food which is not properly regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent in all climates, is caused by the use of food which is not properly regulated by the digestive organs, or by the use of food which is not properly regulated by the digestive organs, or by the use of food which is not properly regulated by the digestive organs.

Scrofula, or King's Evil

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, not is there one which it may not destroy. The scrofulous taint is variously caused by mercurial, arsenic, low living, disordered or unhealthy food, impure air, and filthy habits, the depressing vice, and, above all, by the venereal infection. What ever its origin, it is hereditary in the constitution, descending from parents to children into the third and fourth generation. Indeed, it seems to be the root of sin, as I will visit the iniquities of the fathers upon their children.
