

THE DEMOCRATIC WATCHMAN.

BELLEVILLE, JUNE 7, 1890.

LOCAL AND PERSONAL.

THE MANIA FOR DARK ROOMS—American women have a strange mania for dark rooms, but hear what Florence Nightingale in her notes of nursing, says on the subject.

A dark house is almost always an unhealthy house, always an ill-situated house, always a dirty house. Want of light hampers growth, and promotes scrofula, rickets, etc., among the children. People lose their health in a dark house, and if they get ill, they cannot get well again in it. Three out of many 'negligences and ignorances' in managing the health of houses generally, I will here mention as specimens. First, that the female head in charge of any building does not think it necessary to visit every hole and corner of it every day. How can she expect those who are under her to be more careful to maintain her house in a healthy condition than she who is in charge of it? Second, that it is not considered essential to air, to sun, and to clean rooms while uninhabited, which is simply ignoring the first elementary notion of sanitary things, and laying the ground ready for all kinds of disease. Third, that the window, and one window, is considered enough to air a room. Don't imagine that if you who are in charge, don't look to all those things yourself, those under you will be more careful than you are. It appears as if of the part of the mistress now to complain of her servants, and to accept their excuse, not to show them how there need be neither complaints made nor excuses?

THE FARMER AND GARDENER for June on our table, and as usual, is filled to overflowing with choice matter and handsome illustrations. The Publisher announces important changes in the July number. The form will be changed to a royal octavo of 32 pages, and the editorial charge of the Horticultural Department will be assumed by William Saunders, the distinguished writer. In addition to this, a large number of the ablest writers on Agriculture in the country, have consented to contribute to the pages of the 'Farmer and Gardener.' With these great attractions, it will be one of the best as it is now one of the handsomest and cheapest publications in the country. For samples of this work, or for a new work, you can procure a copy without charge, by addressing the Publisher.

CORN PLANTING—The wet weather for the last two or three weeks has delayed many of our farmers in their spring work. Most of the corn planted before the wet spell set in, is now up and presents a flourishing appearance. Much corn has been planted at intervals between the showers, wherever the land was high enough to permit of planting. Much, however, is yet to plant, and as it is now too late in the season, some farmers have deferred the matter. The wheat and grass crops in Centre county, promise an abundant harvest. In New England and portions of the West the weather has been extremely dry, and the crops are suffering from drought.

ARRESTED—A young man who has been known recently here as 'Corn Doctor,' was arrested in Milroy by Sheriff McCoy, on the charge of stealing money from Mrs. Kate Green of this place. It appears that he had made a professional visit and during the absence of the young lady from the room, removed her fifteen dollars, which she had left on the mantle piece. The money was found in his possession, and identified by Mrs. Green. He was committed to jail to answer at our next quarter session.

AMBYOTYPES in the best style of the art, will be taken at the Arcade Picture Rooms during the summer. As our attention with the editorial business of the Democratic Watchman, during the absence of the senior editor who is now engaged in the discharge of the duties of his official appointment, we have thought it best to secure the services of an artist of experience to take charge of the pictorial department. Ambryotypes will therefore be taken at all times favorable for the business.

APPEARS—It has been predicted by many disciples of the planets and comets, to appear, that we will be favored with a superabundant apple crop this year, because the trees were in open blossom in the full of the moon. But if it be true that the wet weather has almost entirely ruined the crop then what is to become of their prediction?

STRUCK BY LIGHTNING—During the thunder storm, on last Monday the lightning struck a board shanty to the east of this place, and considerably stunned a fisherman whose name we did not learn, who was in close proximity. A board which was knocked from the shanty by the lightning, struck him and injured him very severely.

A HINT TO THE SERVANTS—Speaking, reading aloud and singing, are useful kinds of exercise. One reason why women require less bodily exercise than men, is that they are more loquacious. Hence these sedentary artifices who from habit almost always sing at their work, unintentionally contribute much to the preservation of their health.

HAT, STOMACH—Certain localities of our county were visited on last Monday, with a very severe wind, rain and hail storm, which did considerable damage to crops in their respective localities. Along some portions of the Bill Gable Valley, we are informed it was very severe, but are unable to gather full particulars.

Col. R. L. LITTON and Col. S. S. Seely, deputy Marshals of this county are now engaged in making the Census. The Senior, commenced the duties of his appointment in Gregg Township on last Monday.

The Rev. P. S. STANLEY, of the German Reformed Church, will preach at the Salem Church two miles east of Spring Mills on Sunday the 10th day of June at two o'clock P. M.

Candidates for Office.

MISSISSIPPI—Please announce the name of JOHN R. HARRIS, of Farmington, as a candidate for the office of Sheriff, subject to the decision of the Democratic County Convention.
