THE DEMOCRATIC WATCHMAN.

BELLEFONTE, JULY 5 1860.

LOCAL AND PERSONAL.

PROMENADING.—The summer time having come, we take probably unwarranted liberty of saying a word or two in respect to the very commendable pastime of promenading.

An exchange says that in some towns (and we believe that Bellefonte is not an exception) it is very fashionable for a large number of ladies (marriageable ones we mean) to assemble with their beaux, and take a circuitous walk around the most pleasant streets, during the still hours of evening, when the moon with her silver rays is wending through the sky. They generally go in couples, and present a very nice and picturesque appearance, not having any of the cumbersome appendage of "fashion's gorgeous train" to distract and mar their fresh looks and angel smiles. On such occasions, there is no necessity for the beaux.

"To go scratching long in vain.

To spy her flatures down a leghorn lane;"

for it is usually encircled with a neat "flat," a prim "hood," or a small "scoop-shovel."

Well, these promenades are entertaining. There seems to be a hilarity and pleasure about them which few can fully comprehend, who have not experienced their pleasures.

THE CROPS.—Hitherto everything has seemed propitious for an abundant crop of wheat and rye in this section of the country and much gratification fell at the promising aspect of vegetation generally, but we are sorry to hear that a slight damper has been cast upon those encouraging prospects by the discovery that the weevil have commenced their ravages on the wheat. We have not been able to ascertain to what extent these insects are known to exist but we sincerely hope it will prove insufficient to seriously damage the crop.

HORSE THIEF ARRESTED.—A young man named Myers was arrested in Lock Haven on the charge of stealing a horse from Mr. Moses Thompson of Centre Furnace. He was lodged in jail in this place on last Saturday.

It appears that he had an accomplice in the business who managed to effect his escape. At the time of his arrest he had sold the horse, and was loitering about Lock Haven without any apparent concern.

AARONSBURG ACADEMY.—We would refer those interested in the higher branches of an English education to the card of the Rev C. M. Blake in another column. The Principal has had much experience as a teacher, and the institution is located in one of the most pleasant and healthy portions of the State.

RESCUED.—A little boy was rescued from drowning in the mill race of Mm. A. Thomas a few days ago. It appears that some larger boy's threw him into the water in some of their mischievous freaks, and had it not been for [illegible]

The Presidents protest against the Covode investigation Committee has crowded out a number of articles prepared for this week's paper. Next week we shall endeavor to give our usual variety.

Latest European News.

HALIFAX June 26

The Cunard steamship Europa has arrived, with Liverpool dates to the 19th inst., and to the 17th inst., by telegraph to Queenstown.

The Europa arrived here at half past 6 o'clock, and sailed for Boston at 10 o'clock. She passed a steamer, supposed to be the Arabia, on the 20th inst.

The steamship Elynburg from New York, arrived out on the 15th inst. and on the same day the steamship Persia touched at Queenstown on her way to Liverpool.

The intelligence contained nothing very important from Sicily, except that the royal troops were still leaving Palermo.

A royal conference was to take place at Baden on the day the latter sailed. The Emperor Napoleon and the Prince Regent of Prussia had already arrived there, and several German sovereigns were to join the conference.

The annexation of Savoy was finally consummated on the 14th inst., and was appropriately celebrated.

The kings of Saxony, Hanover, Wurtumburg, and the German princes had joined the conference at Baden. The Emperor Napoleon and the Prince of Prussia had a conference on the 15th.

The statement that the Neapolitan squadron had seized two ships conveying volunteers and arms to Garibaldi still lacks confirmation.

The Neapolitan envoy to Paris had returned to Naples without visiting London, under the conviction that his mission to the British Government was useless.

The ship Wurtemburg, from New Orleans, was at Genoa with seven feet of water in her hold.

G. P. R. James, the celebrated novelist, is dead.

The proceedings in Parliament have been unimportant.

M. Thouvenal has been decorated with the Grand Cross of the Legion of Honor.

The monthly returns of the Bank of France show an increase in cash of nineteen Millions of francs.

Price Jerome has had a relapse, causing great uneasiness.

The Paris Bourse was flat at 68f. 50c for rents.

SARDINIA.

The Sardinian Ministry had introduced a project for a new loan of one hundred and fifty millions of francs.

AUSTRIA.

The Austrian Cabinet has resolved to re-establish the ministry of Commerce and Public works.

RUSSIA.

The new Russian loan of eight million sterling, at 4½ per cent is expected to be introduced in the London Exchange by the Messrs. Baring.

THE LATEST.

[BY TELEGRAPH TO QUEENSTOWN.]

Admiral Munday writes to the English Admiralty, under date of Palermo, June 3, that the scene presented to that city was of the most horrible description. A whole district, 1,000 yards long by 100 yards broad, is in ashes, whole families were buried alive, whilst the atrocities of the Royal troops in other parts of the city were frightful. Many convents and isolated edifices were crushed by the shells, eleven hundred of which were thrown into the city from the citadel, and two hundred from the Neapolitan ships in the harbor, besides grape, canister, and round shot.

Case of Harden.

HIS EXECUTION-RESPITED TO THE 6TH OF JULY —HE CONFESSES THE AWFUL CRIME OF MURDER.

The terrible tragedy in the life of Jacob S. Harden is drawing to a close. The curtain will soon drop upon a short but criminally eventful life, and the earth will receive a specimen of as hardened moral preceptions as ever appeared upon the public stage.

In the case of this young man there is much to astonish mankind. Young, tolerably well gifted, with more than an ordinary general nature, carrying in his exterior a successful religious zeal, and yet, with all, a most complete hypocrite, he presents to the world an enigma which baffles the most astute physiological student, leaving all to wonder whether, after all, he is really a man of sound mind; for it seems to be impossible for one born in the quiet of a mountain neighborhood to have grown to be so monstrously wicked, in so short a time.

We received intelligence on Saturday evening, which is reliable, not only confirmatory of the charges made against Harden during the trial, but revealing an amount of guilt beyond these circumstances almost incredible.

Our informant states that Harden is even now revising his confession, and that he has communicated certain portions of it to the jailor, and one or two others.

The administration of the poison to his wife commenced on her return to Ramsey's, and was given to her while sitting on his knee, even during the enclearments of an apparently loving wife. He kindly invited her to partake of an apple on which he had spread arsenic. She unsuspectingly ate it remarking that it appeared to have something gritty on it. He replied that it was "nothing."

There are statements said to have been been made by the prisoner, involving his criminality with others who shared his affections, but we do not think it proper to speak of them until Harden chooses to make them public himself.

His purchase of the arsenic at Easton, his using that which was about the house, are all confirmed by Harden's own words.—What is most astonishing is the statement that in the perpetration of these enormities Harden does not seem to have had the slightest compunctions. He did them without for once thinking that he was doing anything dreadful!

At the request of the young man's religious advisers Governor Olden has consented to respite his sentence to Friday, the 6th day of July.

INPECTINE,

The Persian Fever Charm.

FOR the prevention and cure of *Fever and Ague and Bilious Fevers*. This wonderful remedy was brought into the knowledge of the present proprietors by a friend who had been a great traveller in Persia and the East Indies.

While going down the river Euphrates he experienced a severe attack of Fever and Ague. On discovering his condition one of the Persian took from his person an *Amulet* saying "Wear this and no Fever will touch you." Although incredulous as to its virtues he complied and experienced immediate relief and has since always used it as effectual protection from all malarious complaints.

On further investigation he found that the Persian attributed to it *miraculous* powers, and said that it could only be obtained from the Priests of the Sun. Sometime afterwards the gentleman in conversing with a Priest of the Sun elicited from him the secret of its preparation, and ascertained that the medical herbs were found of which it was compounded. The wonderful virtues of this article have induced a full belief on the minds of the natives in the miraculous healing powers of their Priests.

Since his return to America it has been tried with the happiest effect by several Ladies and Gentlemen of high character, who have given it the most unqualified praise. They certainly having been a specific in Fever and Ague for [illegible] Western Valleys. Now we [illegible] America in people.

It will be sent by mail prepaid to any address for one certificate of [illegible].
